At this time a motion was made for reconsideration of the Recreational budget to increase the salary of the Superintendent to \$6,045.00. This motion was lost.

Item 42. (School-Education). Motion was made and seconded that we dispose of the items as stated by the Chair and consider them separately-voting on all together when each article has been acted upon. There was a lengthy discussion on this item with amendments and suggestions after which an adjournment of the meeting was called for and so voted at 11:10 P.M. Meeting adjourned until Thursday, April 4, 1963.

MAUD S. GRAHAM,

Town Clerk

Voted that the town raise and appropriate the sum of \$300.00, the Town's share of expense incurred by the enrollment of Burlington children attending a Summer Day Camp for Mentally Retarded children conducted at the Steele Playground, Stoneham; said sum of money to be spent under the direction of the Board of Selectmen.

Article 14. (Renovations to Town Hall). Voted that the town raise and appropriate the sum of \$7,000.00 for renovations and repairs in the town hall, same to be spent under the directions of the Board of Selectmen.

Article 15. (Re Garden type res-apt Houses). Postponed.

Article 16. (Investigate town's need for public housing for the aged). Voted that the town have the Moderator appoint a committee of five at least one member of which to be a member of the Board of Public Welfare, to investigate the town's present and future needs for Public Housing for the aged; to determine the availability of State or Federal Grants and/or aid for the construction and maintenance of said housing facilities; to determine whether the town qualifies for such aid if available; to determine the initial and estimated maintenance cost to the town and to report and recommend all other information incidental thereto at the earliest

possible special town meeting, but in any event by no later than the Annual Town Meeting in the year 1964.

Article 17. (Payment of unpaid bill Chapter 32B) Unanimously voted that the town vote to raise and appropriate the sum of \$1,091.96 for the payment of a 1962 Chapter 32B unpaid bill on file with the town Accountant.

Article 18. (Master Plan studies of the town). Motion made and seconded that the town vote to raise and appropriate the sum of \$5,833.33 for the purpose of contracting with the Massachusetts Department of Commerce for the preparation of Master Plan Studies of the Town, such sum to be expended only if two-thirds of the total planning cost is provided by the Federal Government under Section 701 of Title VII of the Housing Act of 1954, as amended; same to be spent under the direction of the Planning Board.

Action on the above was deferred on account of the Planning Board not being present at the time.

Article 19. (Re Playground of Meadowbrook School). Postponed until Tuesday, April 16, 1963, next adjourned town meeting.

Article 20. (Re new Elementary School Building). Motion made and seconded that the town raise and appropriate the sum of \$12,282.00 to be added to the money already appropriated under Article 13 of the Special town meeting of June 21, 1961, for the purpose of constructing and originally equipping and furnishing the new elementary school building; same to be spent under the direction of the Wilmington Road Elementary School Building Committee. Unanimously voted that this article be tabled until the School Building committee is in attendance.

Article 21. (Re adding money to original amount

for constructing and originally equipping and furnishing the new high school building.) This article was tabled.

Article 22. (Tax Title land). Voted that the town authorize the Park Commissioners to acquire by purchase or take by eminent domain for park purposes a parcel of land known as the Woodhill Lot, bounded and described as follows: Beginning at the northerly end of the southwesterly side line of Rocky Hill Road as shown on Land Court Case Plan 26399: thence southwesterly 152.01 feet along the rear line of Lots 138 and 139, fronting on Moss Street as shown on Land Court Case Plan 12681G: thence approximately 480 feet northwesterly along the rear line of Lots 18, 17, 16, 15, 14 fronting on Moss Street to a drill hole at the stonewall intersection as shown on Land Court Case Plan 28879B: thence northeasterly 317.44 feet along the rear line of Lots 22, 21, 20 fronting on Sheldon Street to a drill hole: thence southeasterly 482.64 feet on the rear line of Lots 17, 16, 15 fronting on Alcine Lane to a concrete bound, said bound being shown on Land Case Plans 28879B and 263399; thence southwesterly 378.73 feet along the rear line of lots 101, 102, 103, 104 fronting on Upland Road to the point of beginning, containing approximately 4.3 acres. Also to be taken the fee in that portion of Rocky Hill Road between Upland Road and the above described parcel as shown on Land Court Case Plan 263399.

Article 23. (Paying damages as may be assessed from the taking of said Woodhill lot). Unanimously voted that the town raise and appropriate the sum of \$1.00 for purposes of paying damages as may be assessed from the taking or purchasing of said Woodhill Lot for Park purposes, same to be spent under the direction of the Park Commissioners.

Article 24. (Equip and prepare this area for playground use.) Voted that this article be dismissed.

Article 29. (Softball field). Voted that the town raise and appropriate the sum of \$1,500.00 for the completion of the Softball Field located on the City of Boston Land, same to be spent under the direction of the Park Commissioners.

Article 30. (Purchase an Ind. Tractor and Loader). Voted that the town raise and appropriate the sum of \$3,800.00 for the purchase of an Industrial Tractor and Loader for the Park Department, same to be spent under the direction of the Park Commissioners.

Article 31. (To accept gift of strip of land on Meadow Road). Voted that the town accept as a gift, take by eminent domain or purchase, a strip of land 17 feet wide on the southerly side of Meadow Road, beginning at junction of Lexington Street and extending west-erly to new proposed access road, for use as a public way.

Article 32. (Pay sum of \$1.00 for paying damages as may be assessed by purchase of land, etc.). Voted that the town raise and appropriate the sum of \$1.00 for the purposes of paying damages as may be assessed from the taking or purchasing of said strip of land, 17 feet wide on the southerly side of Meadow Road, beginning at the

junction of Lexington Street and extending westerly to new proposed access road; same to be spent under the direction of the Board of Selectmen.

A motion was made and seconded and voted that we adjourn this meeting until April 16, 1963 — Time 11:00 P.M. Checked in 199.

MAUD S. GRAHAM

Town Clerk

PROCEEDINGS AT ADJOURNED TOWN MEETING

April 16, 1963

The meeting was called to order by the Moderator at 8:25 P.M. and the minutes of the previous meeting, with the constable's return were waived by unanimous consent of the voters. Article 5, which was postponed at the April 4th meeting was the first item on the agenda.

Article 5. Unanimously voted that the town raise and appropriate the sum of \$10,000.00 and authorize the Treasurer to borrow the sum of \$100,000.00 under the authority of General Laws, Chapter 44, Section 7, said sums to be spent for labor and material incidental to surface drainage, same to be spent under the direction of the Board of Selectmen.

Article 15. (Which was postponed at the April 4th meeting). Voted that the town have the Moderator appoint a committee to investigate forthwith the financial advantages and disadvantages of submitting to the Planning Board and the Town for its approval at the annual town meeting for 1963 of changing the Town's zoning by-laws to allow construction of Garden Type Residential Apartment in zones other than residence "A" or "B" and that if as it appears that it will broaden our tax base as a means of real estate tax relief for owners of single family residences to obtain information from other surrounding cities and towns regarding stringent Building Code regulations and restrictions and to, therefore, by and with the cooperation of the Board of Selectmen and the Planning Board prepare the necessary articles for presentation to the town at said Annual Meeting contain-

ing the necessary zone by-law and Building Regulations changes to allow construction of said apartments.

Article 18. (Which was postponed at the April 4th meeting). Voted that the town raise and appropriate the sum of \$5,833.33 for the purpose of contracting with the Massachusetts Department of Commerce for the preparation of Master Plan Studies of the Town, such sum to be expended only if two-thirds of the total planning cost is provided by the Federal Government under Section 701 of Title VII of the Housing Act of 1954, as amended; same to be spent under the direction of the Planning Board.

Article 19. (Which was postponed at the April 4th meeting). To see if the town will vote to raise and appropriate a sum of money for the purpose of clearing land for construction of a playground on a portion of the Meadowbrook School property to the rear of the school building, determine whether the money shall be provided for by taxation, by appropriation from available funds and by borrowing under the authority of Chapter 44 of the General Laws as amended, same to be spent under the direction of the School Committee or do or act anything in relation to same. (Submitted by the School Committee at the request of the Meadowbrook PTA.)

There was a great deal of discussion on this article after a motion was made to have an appropriation of \$10,000.00 raised and appropriated for this article. The Finance Committee recommended that the same be postponed. The vote on same was 115 in favor and 89 opposed to postpone indefinitely.

Articles 20 and 21. (Referring to schools, tabled at April 4th meeting). Motion made and seconded to take above articles from the table. Motion was lost.

Article 28. (Babe Ruth League, tabled at April 4th meeting). Substitute motion was made to raise and appropriate or transfer from unappropriated funds a sum of money, \$1,000.00, to help support organized youth baseball (ages 13-15) to be spent under the direction of the Park Commissioners. The finance committee want to table this article until the April 16th meeting in order that they may come to some agreement with Park Commissioners. Motion on the above was lost. Much controversy took place regarding this article. Mr. Nazzaro being opposed as it was not germane to other aspects of the activities. Article 28 was dismissed.

Article 33. (Sidewalk construction, southwesterly side of Winn Street from Sears to Cambridge Street). Motion made and seconded that we raise and appropriate the sum of \$10,000.00 for sidewalk construction on the southwesterly side of Winn Street from Sears Street to Cambridge Street, to be spent under the direction of the Board of Selectmen. The Finance Committee recommend that Article 33 be dismissed. Some discussion on the matter after which the vote was to dismiss same.

Article 34. (Relocate and resurface Prouty Road). Voted that the town authorize the Treasurer to borrow by notes or bonds under the authority of General Laws, Chapter 44, Section 7, the sum of \$30,000.00 to relocate and resurface Prouty Road, same to be spent under the direction of the Board of Selectmen.

Article 35. (Relocate and resurface Bedford Street from Middlesex Turnpike to Bedford Town line). Voted 172 in favor and 1 opposed that the town authorize the Treasurer to borrow by notes or bonds under the author-

ity of General Laws, Chapter 44, Section 7, the sum of \$18,500.00 to relocate and resurface Bedford Street, from Middlesex Turnpike to the Bedford Town Line, same to be spent under the direction of the Board of Selectmen.

Motion made and seconded at this juncture to adjourn the meeting until Monday, April 22, 1963 at 8:00 P.M. at the High School. So voted. 11:00 P.M.

MAUD S. GRAHAM,

Town Clerk

PROCEEDINGS AT ADJOURNED TOWN MEETING

April 22, 1963

The Moderator called the adjourned town meeting to order at 8:35 P.M. The minutes of the last meeting — Constable's return were not called for by unanimous vote. The Moderator requested the non-voters to sit in the rear of the hall.

Article 36. (Construction of sidewalk on Bedford St.) Unanimously voted that the town authorize the Treasurer to borrow by notes or bonds under the authority of General Laws, Chapter 44, Section 7, the sum of \$10,000.00 for the construction of sidewalks on Bedford Street, same to be spent under the direction of the Board of Selectmen.

Article 37. (Re-money to purchase and equip a new ladder truck for fire department.) To see if the town will vote to raise and appropriate or transfer from available funds in the Treasury a sum of money to purchase and equip a new ladder truck for the Fire Department, same to be spent under the direction of the Fire Chief, subject to the approval of the Board of Selectmen, or do or act anything in relation to the same. Substitute motion was that the town raise and appropriate the sum of \$10,000.00 and authorize the Treasurer to borrow the sum of \$25,000.00 under General Laws Chapter 44, Section 7, to total \$35,000.00 to purchase and equip an aerial ladder truck for the Fire Department, the same to be spent under the direction of the Fire Chief subject to the approval of the Selectmen. After some discussion on this article the motion was declared lost, and it was voted to dismiss this article.

Article 38. (Sprinkler system in Union School, 39

Center Street.) Voted that the town raise and appropriate the sum of \$8,800.00 for the purpose of installing an approved sprinkler system in the Union School, 39 Center Street, the same to be spent under the direction of the Fire Chief, subject to the approval of the School Committee.

Article 39. (Sub-fire station committee of five.) Voted that the Moderator appoint a sub-fire station building committee of five members. At this time Mr. Baxter read the report of the Planning Board to the annual town meeting 1963 regarding articles 39, 40 and 41. The Planning Board recommends favorable action on Article 39, to appoint a sub-fire station building committee, in order that more specific information may be provided the town concerning the basic need for, cost of and recommended siting for a subfire station. We recommend that articles 40 and 41 be dismissed as we do not believe that an immediate need for construction of a sub-fire station has been substantiated by any information provided to date.

Burlington Planning Board

Warren P. Ganley, Chairman
Herman D. Graham
Lawrence A. O'Brien, Clerk
Frank E. Baxter, Vice Chairman

Article 40. (Information on construction of fire station.) Motion made and seconded that the town raise and appropriate or transfer from unappropriated funds [a sum of money for legal fees, architect fees, surveys, borings, soil tests, obtaining information on costs of available land and any other matters incidental thereto, for the construction of a sub-fire station. Substitute motion was made that the town raise and appropriate the sum of \$200.00 for expenses of obtaining information on costs of available land and any other matters inciden-

tal thereto, striking out the words legal fees, architects fees, surveys, borings and soil tests. So voted.

Article 41. (Expenses of the sub-fire station building committee.) Voted that the town raise and appropriate the sum of \$50.00 for the expenses of the sub-fire station Building committee.

Article 42. (Rezoning of land of Thomas E. Jr. and Lorraine T. Chaplin.) Unanimously voted that the town re-zone property owned by Thomas E. Jr., and Lorraine T. Chaplin located on Great Meadow Road, containing three and one-half (3½) acres more or less from residence to industrial zone, all as more fully shown on plan on file with the Town Clerk.

Report of the Planning Board annual town meeting 1963 — re Article 42. The Planning Board recommends favorable action on this article. A public hearing was held on this request on February 21, 1963. The petitioners request was presented by Counsel. No persons present expressed opposition to this rezoning. This property is bounded on one side by present industrial land and on three sides by wet lands. In combination with the adjacent industrial land fronting on Middlesex Street, the rezoning of the subject lot to industrial use, will create an area of more than six acres which the Board believes will be a substantial addition to our industrial tax base.

Burlington Planning Board

Warren P. Ganley, Chairman
Lawrence A. O'Brien, Clerk
Herman D. Graham
Frank E. Baxter, Vice Chairman

At this juncture, it was voted to take articles 20 and 21 from the table.

Article 20. (Additional money to be appropriated

under article 13 of the Special town meeting of June 21, 1961.) Voted that the town raise and appropriate the sum of \$12,282.00 to be added to the money already appropriated under Article 13 of the Special Town Meeting of June 21, 1961, for the purpose of constructing and originally equipping and furnishing the new elementary school building; same to be spent under the direction of the Wilmington Road Elementary School Building Committee.

Article 21. (Additional money to be added to the original amount for construction and original equipping the new high school building.) Voted that the town raise and appropriate the sum of \$10,000.00 to be added to the original amount, for the purpose of constructing and originally equipping and furnishing the new high school building and that a sign be erected at the entrance and additional lighting along the sidewalk be installed and the clock in the auditorium be repaired, same to be spent under the direction of the High School Building Committee.

Article 43. (Rezone land of Forty-Niners, Inc.) Unanimously voted that the town rezone a parcel of land owned by the Burlington Forty Niners, Inc., situated on Meadow Road at the junction of Lexington Street from residence to business zone; said parcel containing seven and 64/100 (7.64) acres more or less, all as more fully shown on a plan on file with the town clerk.

Report of the Planning Board to annual meeting 1963 — re Article 43. The Planning Board recommends favorable action on this article. A public hearing was held on this request on February 21, 1963. Mr. John Gulde presented the petitioners request. No persons presented expressed opposition to this rezoning. This property is bounded on three sides by wet lands and a residential lot retained by the former owner. It is apparent that this land is not suited for residential develop-

ment. The Board feels that the location of this lot opposite the proposed shopping center and its physical characteristics recommend its rezoning for business use.

Burlington Planning Board

Warren P. Ganley, Chairman
Herman D. Graham
Lawrence A. O'Brien, Clerk
Frank E. Baxter, Vice Chairman

Article 44. (Land of Thorstensen & Parker.) Unanimously voted that the town rezone a parcel of land owned by Thorstensen & Parker, Inc., on Muller Road, containing approximately ten acres more or less from Business zone to Industrial zone, all as more fully shown on plan on file with the Town Clerk.

Report of the Planning Board Annual Town Meeting 1963 — re Article 44. The Planning Board recommends approval of this article. A public hearing on this request was held on February 21, 1963. No persons present expressed opposition to this request. This parcel is presently zoned for business and in the opinion of the Board the physical characteristics of this parcel favor its rezoning for industrial purposes.

Burlington Planning Board

Warren P. Ganley, Chairman
Herman D. Graham
G. Wayne MacLeod

Article 45. (Land of Iannacci.) Unanimously voted that the town rezone from Residence "B" District to Business District land of Anthony Iannacci located on Cambridge Street being shown as Lots 10 and 11 on plan on file with the Town Clerk.

Report of Planning Board re Article 45. The Planning Board recommends favorable action on this article.

A public hearing was held on this request on July 9, 1962. The petitioner is the owner of a business building presently occupying Lot 11. The status of the zoning of Lot 11 is presently doubtful. Lot 10 is presently zoned for and occupied for business purposes on the northerly side.

Burlington Planning Board

Warren P. Ganley, Chairman

Herman D. Graham

Lawrence A. O'Brien, Clerk

Frank E. Baxter, Vice Chairman

Article 46. (Crawford Farm.) Motion made that the town rezone from Residence "B" to Industrial District, the land off Beacon Street, known as the Crawford Farm, Containing 25 acres, more or less, and more fully shown on plan on file with the Town Clerk, Town Hall, Burlington, Massachusetts. Substitute motion was that the article be dismissed. There was a lengthy discussion after which it was voted 83 opposing and 62 in favor of rezoning. The vote was not carried.

Article 48. Voted that the town alter Section 16, Paragraph 2, of Article 4 of the Building Regulations to read: The plans and specifications above stated as required to obtain a permit shall be deposited with the Inspector. The application shall be in such form as may be required by the Inspector. The plans required by this by-law shall include a plot and shall show adequate drainage facilities for surface waters originating on the lot or likely to drain on to the lot from surrounding areas, and such other plans as may be required by the Inspector. The Building Inspector may refuse permits to build on lots subject to periodic flooding or inundation, or where it has been determined that cellars cannot be drained properly.

Article 49. (Section 17A of Article 4 of the Building Regulations.) To see if the town will vote to strike

Section 17A of Article 4 of the Building Regulations and in its stead read: No Building or structure hereafter erected, altered, or changed as to construction or use, shall be occupied or used, nor shall any owner of a building or structure allow such building or structure to be occupied or used, without an occupancy permit issued by the Inspector of Buildings, and no such permit shall be issued until the building and its uses and accessory uses shall comply in all respects with this by-law, or do or act anything in relation to the same.

Amendment was made that no building or structure hereafter erected, altered or changed as to construction or use, shall be occupied or used, nor shall any owner of a building or structure allow such building or structure be occupied or used, nor shall any builder or contractor allow such building to be sold or occupied or used without an occupancy permit issued by the Inspector of Buildings, and no such permit shall be issued until the building and its uses and accessory uses shall comply in all respects with this by-law, or do or act anything in relation to same — amendment to the amendment that “with the approval of the Board of Health” be added. The amendment was further amended by striking out the word “sold” which the Moderator did not entertain. After considerable debate a motion that this article be tabled was voted.

Article 50. (To abandon or petition the necessary political subdivision of Commonwealth re-easterly side of Muller Road.) Voted that the town authorize the Board of Selectmen to abandon or petition the necessary political subdivision of the Commonwealth to abandon a section of the easterly side of Muller Road now laid out as a public way and dedicated to such use, for a distance of approximately four hundred (400) linear feet more or less abutting property of Frederick Graham et ux and John Kendall et ux, the exact distances, dimensions, measurements and total square footage of said

section proposed for abandonment being more clearly shown and more particularly described on a plan on file with the Town Clerk.

Article 51. Voted that the town authorize the Board of Selectmen to transfer the Frazier Land, located at Forest Street and Pathwoods Avenue, to the Park Department.

Article 52. To see if the town will accept the following streets: Anna Road — Colleen Circle — Tami Lane — Alcine Lane — Wing Terrace — Brantwood Lane — Eastern Avenue — Brookfield Road — Taylor Avenue (between Kinney and Scott) — Elm Avenue — St. Mary's Road (between Francis Wyman and Lots 7 and 8) — Virginia Road from Francis Wyman Road to St. Mary's Road — Carey Avenue and Barton Avenue. The Moderator explained that no layouts had been filed with the Town Clerk regarding the above streets and same were not taken up at this time. A motion was made and seconded to adjourn. So voted. Time: 10:35 P.M.

WARRANT FOR SPECIAL TOWN MEETING

Monday, October 14, 1963

THE COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

To either of the Constables of the Town of Burlington,
in the County of Middlesex,

GREETING

October 14, 1963

Article 1. Voted that the town transfer the sum of \$3,500.00 from the Garbage and Rubbish Account to the Macadam Pavements Account, same to be spent under the direction of the Board of Selectmen.

Article 2. Unanimously voted that the town transfer the sum of \$2,700.00 from the Garbage and Rubbish Account to the Street Lights Account, same to be spent under the direction of the Board of Selectmen.

Article 3. Unanimously voted that the town transfer the sum of \$563.02 from the Temporary Loan Interest Account and the sum of \$60.00 from the Cemetery out-of-state travel account, making a total of \$623.02 to the Engineer Expense Account, same to be spent under the direction of the Board of Selectmen.

Article 4. Unanimously voted that the town transfer the sum of \$2,033.24 from the Garbage and Rubbish Account, and the sum of \$901.08 from the Traffic Lights Account, making a total of \$2,934.32, to Chapter 32B Town's Share Account, same to be spent under the direction of the Board of Selectmen.

Article 5. Unanimously voted that the town transfer the sum of \$3,200.00 from the Union School Sprinkler Account to the Fire Department Salary Account, same to be spent under the direction of the Fire Chief with the approval of the Board of Selectmen.

Article 6. Voted to dismiss the same. (Transferred from Tax Collector to Board of Health).

Article 7. Voted to dismiss same. (Transferred from Cruiser Account to Town Clerk).

Article 8. Unimously voted that the town confirm its vote at the 1963 Annual Town Meeting to accept from the Trustees under the Will of Marshall Simonds the sum of \$5,500.00 for the maintenance and improvement of Simonds Park, same to be spent under the direction of the Park Commissioners.

Article 9. Not voted. (Transfer of \$334.00 from the Planning Board Assistant Salary Account to Planning Board Expense Account).

Article 10. Voted that the town transfer the sum of \$3,000.00 from Old Age Assistance Account to the General Relief Account, same to be spent under the direction of the Board of Public Welfare.

Article 11. Voted that the town amend the By-Laws of the inhabitants of Burlington adding a new section of said By-Laws as follows:

The Town Accountant and Town Treasurer shall be members, Ex Officio, of any Board or Committee appointed by or on behalf of the Town, for the purpose of planning a project which involves the borrowing of money on behalf of the Town.

Article 12. Before Article 12 was taken up the Moderator announced as he was interested in this and the next two articles he had appointed a Moderator pro tem to take charge of the procedures to follow: Ronald Saloman, Moderator for the Burlington Water District took over after being sworn.

A motion before the house was to discuss articles 12, 13 and 14 under one topic but to vote on each article separately when fully discussed. So voted.

After article 12 was read substitute motion was made to purchase or take by eminent domain the property of Raymond and Mary Shea located at the corner of Center street and Sears street containing 24,160 square feet together with the buildings thereon, all as more fully shown on a plan on file with the Planning Board.

There was a great deal of discussion on this article after substitute motion was made by Mr. Ward. Mr. Charles Shea hoped to have the substitute motion defeated after which previous question was moved and seconded and there was no more debate. The amended motion was lost 194-129 on count vote. At this time Mr. Nazzaro wanted to be recorded as asking for reconsideration to dismiss Planning Board motion, and that we reconsider the vote that we just took to dismiss article 12. The motion was lost.

Article 13. (Dismissed) That the town vote to transfer the sum of \$100.00 from the Planning Board Assistant Salary Account to the Raymond and Mary B. Shea property Acquisition Account for the purpose of paying damages as may be assessed from the taking or purchasing of said 24,160 square feet of land for town purposes, same to be spent under the direction of the Board of Slectmen. This article was dismissed.

Article 14. Motion as read. To see if the town will vote to rezone from residence to business zone, a parcel of land owned by Raymond J. Shea and Mary R. Shea of Center Street, Burlington, said parcel of land being situated on Center Street; containing 24,160 square feet of land more or less and bounded as follows: Northwesterly by land owned by the Town of Burlington, ninety and 32/100 feet; Northeasterly, by land of McIntire, one hundred eighty-five and 96/100 (185.96) feet; Southeasterly, by Sears Street, one hundred fifty-four and 21/100 (154.21) feet; Southerly, by the corner of Sears and Center Streets, thirty and 37/100 (30.37) feet; Southwest-

erly, by Center Street, one hundred seventy-two and 13/100 (172.13) feet; all as more fully shown on a plan on file with the Town Clerk.

A great deal of debate on this article after which a motion was made to move to previous question. On a count vote 212-154 the article was lost. "At this juncture, I, Ralph Nazzaro, a voter of the town of Burlington residing at 5 Bedford Street Burlington hereby serve notice of consideration at a future session of this meeting having voted with the prevailing side — all of which I attest." (The above was handed to the Moderator and quoted as same was written). The Moderator explained that same could not be done and was not entertained by him.

Motion made to adjourn and seconded — 11:20 P.M.
Adjourned until October 22, 1963 at 8:15 P.M. in the High School.

MAUD S. GRAHAM,

Town Clerk

ADJOURNED SPECIAL TOWN MEETING

Article 19. To see if the Town will vote to establish a Future School Building Needs and Sites Committee to study school population growth, classroom requirements, possible building additions, and new school building sites on both near and long range basis, consisting of seven members to be appointed as follows: 2 appointed by the school Committee; 2 appointed by the Moderator; 1 appointed by the Selectmen; 1 appointed by the Finance Committee; 1 appointed by the Planning Board and with the Superintendent of Schools as a member ex officio.

The members shall serve as follows: 3 for 3 years; one to be appointed by the School Committee, one by the Moderator, and one by the Selectmen, 2 for 2 years; one to be appointed by the Moderator and one by the School Committee, 2 for 1 year; one to be appointed by the Finance Committee and one by the Planning Board. As the term of office expires appointments shall be made for 3 years by the officer, board or committee making the original appointment, and vacancies in said committee shall be filled in like manner. The chairman and vice-chairman of said committee shall be elected by and from the membership of said committee each year.

Said committee shall annually report its findings and recommendations to the Town in writing; said report to be published in the Annual Town Report; or do or act anything in relation to the same.

Amendments by adding to paragraph 2 the following majority of the members appointed at any time will constitute a quorum at that time and that the ex-officio member shall have the right to vote.

Article 19 was unanimously voted with the amendments.

Article 20. Voted unanimously that the town amend the town's By-Laws by striking Section 1A and replacing it with:

a. Adjourned Annual and Special Town Meetings will be held on Monday and Wednesday of each consecutive week, beginning with the first special or Annual adjourned town meeting.

b. The first adjourned annual town meeting will be held on the evening of the seventh day following the first regular town meeting held for the purpose of electing town officials.

c. Adjourned Annual or Special Town Meetings will be postponed only for cause acceptable to the Town as demonstrated by a simple majority of those voters present and voting at the adjourned annual or special town meeting.

d. Postponed Annual or Special Town Meeting will be postponed to the next regularly scheduled adjourned annual or special town meeting night.

Article 21. To see if the town will vote to authorize the establishment in the Town of an official classification for positions in the service of the Town classifying certain employees, other than those filled by popular election and these under the direction and control of the School Committee, into groups and classes doing substantially similar work or having substantially equal responsibilities. Such classification plan herein authorized shall be adopted by vote of the Town at an Annual or Special Meeting, and may be amended from time to time by vote of the Town at a Town Meeting, or do or act anything in relation to same. Unanimously voted.

Article 22. Unanimously voted that the town authorize the establishment of a plan establishing the minimum and maximum salaries to be paid to employees in positions included in the official classification plan, which salary plan may provide for the attainment of such maximum salaries by periodical step-rate increases based on length of service.

Article 23. Unanimously voted that the town amend its By-Laws by adding thereto the following:

The town may by vote at town meeting adopt, and thereafter from time to time amend, suitable regulations for the administration, interpretation and application of the classification plan.

Article 24. Unanimously voted that the town establish a Personnel Board to administer such classification and salary plans as it may adopt, said Personnel Board to consist of five members as follows: Two members to be chosen by the Finance Committee, one member to be chosen by the Moderator and two members to be chosen by the Board of Selectmen. Upon adoption of this By-Law, one member appointed by the Finance Committee and one member appointed by the Selectmen shall serve until May 15, 1965, the member appointed by the Moderator shall serve until May 15, 1966, and the second member appointed by the Finance Committee and the second member appointed by the Selectmen shall serve until May 15, 1967. Thereafter, all appointments shall be for a term of three years. The Town Accountant shall act as executive secretary for said Board, the members of which shall not be Town Officers or salaried employees.

Article 25. To see if the town will vote to amend its vote under Article 1 of the Special Town Meeting of December 18, 1962, in order to authorize the Junior High School Building Committee to secure options on land for

two sites, for the construction of two schools if necessary. Substitute motion to strike out the words "two schools if necessary" and insert the words "one or more school buildings." Some debate on the article.

VOTED that the town amend its vote under Article 1 of the Special Town Meeting of December 18, 1962 in order to authorize the junior High School Building Committee to secure options on land for two sites, for the construction of one or more school buildings.

At this juncture a motion was made and seconded and voted that the meeting be adjourned. Meeting adjourned at 11.20 P.M.

MAUD S. GRAHAM,

Town Clerk

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen:

I herewith submit my report as Tree Warden for the year 1963.

Trees appear to be in trouble in many parts of the town, all kinds of trees are beginning to show signs of decline. This decline usually sets in slowly. Little by little they become weaker, there may be a number of causes for this, construction injury, lowering of water table through drainage of swamps, road salt injury, sugar maples especially seem to be quite susceptible to this salt injury. The drought of this past fall will further weaken some of these trees. This gradual loss of vigor makes these trees more susceptible to defoliating insects fungus and bours, these all contribute to the death of the tree.

Respectfully submitted,

RALPH E. KNOWLES,

Tree Warden

During the past year (1963) the Cemetery Commissioners report the following activities took place at Chestnut Hill Cemetery:

Hot-topped the remaining roads to complete the project started two years ago.

Superintendent Perin laid out a new section with one hundred graves in it. However we are nearing capacity at Chestnut Hill and as we have stated for the past five years, additional land must be acquired soon or a crisis may develop. It takes time to develop new land because of problems such as drainage, compound of soil, etc.

We had trouble with vandals the past year with

damage to the office and equipment. The latter must be kept outside as we do not have a garage to store them. We have made plans for a garage and hope you voters will provide the funds for this project. In order to combat the vandalism we had two lights installed which lights up the area.

A book of Rules and Regulations for the Burlington Cemeteries and adopted by the Cemetery Commissioners, has been printed and copies are available upon request.

We also have custody of the Old Burial Grounds next to the Gulf Station on Bedford Street and citizens who are interested in history should visit this cemetery. Superintendent Perin will be glad to show you around.

During the past year we have had many comments from citizens, both local and out of town, regarding the neat appearance of both cemeteries. Credit must be given to our devoted employees, Harry Johnson, a veteran of many years service and Bill Glavin, a fine young gentleman.

In conclusion, we thank you, the voter, and all departments who have assisted us during the past year.

Respectfully submitted,

JOHN O. H. PETERSON, Chairman

REPORT OF THE BOARD OF HEALTH

January 1, 1964

To the Citizens of Burlington:

In March 1963, David G. Piper was elected to the Board of Health.

Meetings are held the second and fourth Mondays of the month with special meetings at the call of the Chairwoman. Mary E. Bennett was elected Chairwoman of the Board of Health in 1963.

Vincent Howard was appointed as Assistant to the Board of Health in 1963 and Eileen Gauthier was appointed full-time Public Health Nurse. Mrs. Grace Bushee was appointed as part-time Public Health Nurse.

We have had various public health programs, polio clinics, chest x-rays and well child clinics for the townspeople, which reports are more thoroughly covered in the Public Health Nurse's report.

We request that you read our various reports from the Assistant, Food and Milk Inspector, Animal Inspector and Public Health Nurse to better understand the complete functions of the Board of Health.

The Board of Health wishes to thank the Board of Selectmen, the Planning Board, the various doctors in the Town and the residents of the Town for their cooperation and interest in our efforts over the past year.

Respectfully submitted,

MARY E. BENNETT, Chairwoman
KENNETH C. MORRISON
DAVID G. PIPER

REPORT OF INSPECTION OF SLAUGHTERING

Board of Health
Burlington, Mass.
Town Hall

Attention: Mrs. Mary E. Bennett, Chairwoman

Madam, and Gentlemen:

I hereby submit my report as Inspector of Slaughtering, for the year ending December 31, 1963.

The periodic papers that the State has sent to me have been filled out to the best of my knowledge and returned to them.

Respectfully submitted,

THOMAS K. SHORT,

Inspector of Slaughter

REPORT OF SANITARIAN

To the Honorable Board of Health
Burlington, Mass.

I have the honor to present the report of the food and milk inspection division for the year ending December 31, 1963.

Inspections were again made monthly of those establishments preparing, serving or handling food or drink. Bacterial swabs were taken bi-monthly at those establishments serving food or drink.

Letters of warning to rectify conditions within a designated time were sent to those establishments where inspection reports indicated persistent violations. I am glad to report that further action was not required to obtain compliance in all cases.

Milk and cream samples were taken at random from delivery trucks, stores and processing plants and examined for conformance of State Standards.

Water samples were examined as requested by the board for pollution and drinking purposes.

I placed much emphasis on proper rotation and handling of stock this year in the various food handling establishments to insure quality of merchandise.

Complaints relative to food and milk were investigated and reports submitted to the Board of Health.

In conclusion, I wish to express my appreciation to the Board of Health and other town officials and departments for their cooperation in the administration of my duties.

Respectfully submitted,

ROBERT W. RIMBACH, R.S.

Sanitarian

REPORT OF THE PUBLIC HEALTH NURSE

To the Honorable Members of the Board of Health
Burlington, Mass.

Dear Members :

I have the honor to present the report of the Public Health Nursing Services for the year ending December 31, 1963.

Our services, available to all Burlington residents, are planned for the prevention of disease and the promotion of health. The following programs have been made available to the community under the direction of the Board of Health.

1. Home nursing care (Part-time bedside nursing under physician's orders)
2. Maternity Services (Visits to expectant mothers and newborn infants)
3. Well Child Conferences
4. Communicable Disease — Instruction and follow-up on all communicable diseases including tuberculosis
Statistical report to town and state department.
5. Immunization Clinics
6. Prevention and control of Tuberculosis
 - a. Health education programs
 - b. Chest X-ray programs
 - c. Mantoux tests and Patch tests

Home Visits — 1311 visits to 432 individuals.

Well Child Conferences — 133 infants and pre-schoolers seen and examined in a total of 12 sessions. Dr.

Harriet Leach was the attending physician and Mrs. Paul Twombly volunteer assistant.

Chest X-ray Clinic — 223 persons were X-rayed during the October chestmobile program.

Mantoux tests — 301 tests administered to high school students.

Patch tests — 500 tests administered to first graders.

Polio Immunization Clinics — 8,982 doses Sabin Vaccine administered in 6 clinics, plus school programs.

Since Public Health Nursing is concerned with total health, mental and emotional as well as physical, we are pleased to remind our residents that Burlington has joined the Greater Lowell Mental Health Association and the services of this fine department are available to all Burlington residents.

I wish to thank the members of the Board of Health for their enthusiastic support and active participation in our many health projects. I also wish to extend heartfelt thanks to all our volunteer workers who made our Chest X-ray and Polio Immunization programs so successful.

Respectfully submitted,

EILEEN M. GAUTHIER, R.N.,

Public Health Nurse

REPORT OF ASSISTANT TO THE BOARD OF HEALTH

To The Honorable Board of Health
Burlington, Massachusetts

Dear Members:

I herewith submit my report as Assistant to the Board of Health for the year 1963. Applications for permits to install or repair private sewerage disposal systems numbered 291; the revenue from which amounted to \$1,948.00. Permits issued or denied were judged on the basis of visual inspection of the lot, involved taking into careful consideration the Board of Health Regulations for Sewerage Disposal involving terrain, soil conditions, percolation rates and the functioning ability and design of each specific system. Of the several lots denied permits, the primary reason for denial was the incomplete plans as to the usability of these lots.

I investigated approximately 49 complaints relative to systems not operating correctly and instructed the owners to repair same.

All V.A. and F.H.A. papers for systems approved by me were signed.

I took water samples from the property of 18 residents. This was surface water which the residents feared was contaminated. Analysis proved the water to be safe. Water from one well was analyzed and found to be unfit for human consumption.

Several complaints concerning rats in different neighborhoods were investigated and rat poison was placed where it would safely exterminate this nuisance.

There were 292 plumbing permits issued, the revenue from which amounted to \$2,026.00. All of these which have been completed have passed my inspection.

A total of 223 gas installations permits were issued during the year for a revenue of \$557.50. All that have been completed have passed my inspection.

Respectfully submitted,

VINCENT F. HOWARD,
Assistant to the Board of Health

REPORT OF THE TREASURER

I herewith submit my report as Town Treasurer for the year ending December 31, 1963.

Cash on Hand

January 1, 1963 \$ 600,681.83

Add: Receipts for

the year 5,748,184.80

\$6,348,866.63

Expenditures for

the year \$5,908,001.71

Add: Cash on Hand

Dec. 31, 1963 440,864.92

\$6,348,866.63

As Treasurer of the Town it is my responsibility to invest available funds when it will prove to be beneficial to our Town, in this respect I have to date invested available funds so that the Town has realized a net gain from accrued interest, dividends and all premiums the amount of \$8,009.90.

One facet of my duties is to collect all Tax Title Lien accounts that are due. Once again this year quite a bit of effort was delegated to this end with a result of \$3,416.44 being brought into the Town's Treasury.

The Town of Burlington now has approximately seven hundred and fifty employees. The annual payroll of the Town is now \$2,075,425.42. The deductions withheld individually come to annual totals as follows in the comparative 1962-1963 summary.

SUMMARY

	1962	1963
Withholding Tax Federal	\$242,991.74	\$295,550.03
Withholding Tax State	21,123.00	27,571.55
	1962	1963
Chapter 32-B	\$ 21,055.72	\$ 26,872.41
Teacher Retirement	51,048.46	61,583.51
County Retirement	29,547.60	32,635.94
Credit Union	14,325.50	47,848.38
	<hr/>	<hr/>
Totals	\$380,091.52	\$492,061.82

This represents an increase of the withheld deductions of \$111,970.30 a 29% plus increase over 1962.

At this time, I would like to express my thanks to all Department Heads, Committees and Boards for their cooperation in the year of 1963.

Respectfully submitted,

ARTHUR A. ZERVAS,

Town Treasurer

REPORT OF THE DOG OFFICER

Board of Selectmen
Town Hall
Burlington, Massachusetts
Att: Mr. Charles L. Shea, Chairman

Gentlemen:

The following is my report as Dog Officer for the Town of Burlington, for the year ending December 31, 1963:

Dogs, injured and destroyed	5
Dogs, lost and found	116
Dogs, destroyed at request of owners	2
Dogs, killed by automobiles	143
Dogs, strays turned over to Mass. Medical Society, with resulting reimbursement to Town of \$3.00 per dog	77

Upon receipt of the June Dog Warrant, there were 513 notices mailed to delinquent licensees of dogs; after a ten-day period, there were 277 second notices mailed.

There were one thousand four hundred twenty-four dogs licensed in Burlington by the end of 1963; with three months more to run before the new licensing period April 1, 1964.

Respectfully submitted,

THOMAS K. SHORT,

Local Dog Officer

REPORT OF LIBRARIAN

To the Honorable Board of Library Trustees:

I herewith submit my report for the year ending December 31, 1963. During the year 1963 circulation at the Library increased by more than three thousand withdrawals, making the total circulation 38,189. There were 815 juvenile books accessioned, and 1204 adult books for a total of 2019. Many of these were added to our reference collection, which now numbers approximately four hundred volumes. There were 1551 new borrowers registered in 1963, bringing the total registered since September 15, 1962, to almost 3000. Titles catalogued during 1963 totaled 2076, an increase of almost 14% over 1962.

A recount of volumes in the Library shows a total of approximately 11,500. It might be of interest to note that there is more than four hundred dollars owed the Library in unpaid fines and lost books unpaid for. The fact that almost 1000 pieces of mail were sent out in an effort to collect overdue books, shows that this problem still continues as it has in the past.

Respectfully submitted,

ALPHONSINE B. HARVEY,

Librarian

The year 1963 has proven to be a year of substantially reduced growth and expansion of new homes and industrial construction within the Town. The general effects of this decline in new valuations is expected to have an adverse result on our tax-rate for the year 1964. Our financial statistics indicate that in line with ever-growing school and Town expenditures, we shall require approximately five million new dollars of taxable properties, yearly, added to our tax-base in order to stabilize

our rate within reasonable limits. The year 1963 simply did not yield anywhere near that amount of new valuations; and therefore we must employ every conceivable means of holding within reason a potentially spiralling rate to commensurate with our individual abilities to pay.

It is with a feeling of deep concern that we feel obligated to inform our taxpayers that the time is inevitably coming — perhaps January of 1966 or 1967 that as a direct result of the now famous “Springfield Decision,” that all cities and towns within the Commonwealth of Massachusetts may be obligated by law or other decisions, to value all real-estate at full cash value. Should this become mandatory, and foresight indicates many possibilities that it will, we do know that our accomplishments of the past several years and completion of certain other long-range objectives within the next two years will materially provide a smooth transition from our present assessment ratio of approximately 40%, to those of full cash value. It is widely recognized among good assessing practices that a low assessment ratio (that is, a ratio of 20 or 30 percent) leads to an extremely high tax-rate and is not fair to the majority of taxpayers who must contribute through the overlay account to free certain properties and owners, who, by law, are entitled to and granted full or partial abatements or exemptions. Any exemption from payment of taxation is expressed in valuation, and valuation means dollars. Therefore, as your Assessors, we must carefully weigh all related factors and prepare for what may be a mandatory requirement in the next two or three years. We also feel that the decision should come from the Board first, rather than the Board be forced into a rather unpleasant situation which could result from a group of dissatisfied taxpayers taking their case to the Courts for the purpose of forcing your Assessors to conform to this requirement.

For the coming years we see many evolvments in sight in the way of further expansion of Industrial and

Commercial areas. True, our many problems will continue to confront us in one form or other, and it will behoove us, as Assessors, to prepare for and justify their solutions to the best of our ability and the welfare of the Town and its taxpayers. As elected officials and citizens of Burlington, we are rightly concerned with both the manner and amount of Town Government spending. However, we should also be particularly critical with the quality of public services rendered by these same officials. Assessors, therefore, must be scrupulously certain that their sector of Town Government is managed in a most up-to-date and honorable fashion for the welfare and good for all to behold.

Respectfully submitted,

ALLAN F. CRONIN, Chairman
GEORGE C. GORMLEY
CHESTER C. MacDONALD, Secretary

REPORT OF THE INSPECTOR OF WIRING

To the Honorable Board of Selectmen
Burlington, Mass.

Gentlemen:

I hereby submit my report as Inspector of wiring for the year 1963. There were 277 permits issued for new homes, 20 for Industrial and Commercial buildings and 186 miscellaneous. Total 483.

Respectfully submitted,

WILBUR FRIZZELL,
Inspector of Wiring

REPORT OF THE AGENT-INSPECTOR OF THE PLANNING BOARD

January 10, 1964 .

To the Planning Board
Burlington, Mass.

Chairman and Members:

I herewith submit a report of my activities as Agent-Inspector for this Board.

The purpose of this position, as the Planning Board intended, is as watch dog for the interests of the taxpayers of this Community. And, as such, I am grateful for the teeth provided for the job in our Subdivision Rules and Regulations and the unanimous co-operation of the Board in supporting my findings and decisions.

Inspections are made in subdivisions, daily, bi-weekly, or weekly, depending on the degree of progress being made in any one particular development. I am aware of all phases of work progressing in said developments and prepared to answer any question concerning them at any time.

The subdivision and development of land, in the Town, which requires laying out and construction of streets and the installation of facilities to adequately drain the area is of the utmost importance to every taxpayer in the town, as the responsibility for repair and maintenance of every street so constructed, will fall on the taxpayer when the streets are accepted by the town. It is the responsibility of this office to insure the town against any cost due to careless or negligent construction of a development.

At present there are about twenty developments in

various degrees of completion. A status report on each is individually filed in the Planning Board office with an estimated cost of completion. This amount is provided for in a bond held by the Town and which can be used to complete any development, upon failure of the developer to do so within an allotted period of time.

Reports of all inspections of developments are on file in our office, as is all written correspondence between the Board or Inspector, and any of the contractors involved. Map files and plan files are kept up to date and progress of installations and construction noted on each plan. Now that the process of Master-Planning is underway, this Inspector will also be working in conjunction with the contractor of this plan, supplying and acquiring information necessary for the compilation of reports.

I wish to take this opportunity to thank all departments and officials for their gracious cooperation, and especially the Town Engineer, for the instruction and guidance necessary to fulfill my obligation as Agent-Inspector for the Planning Board.

The inspection force now in operation in our Town insures the taxpayers against inferior building construction (Paul Johnston) health facilities (Vin Howard), streets and drainage (Bill Finn), and I believe I can speak for the others also, in assuring the citizens of Burlington continued vigilance in all phases of inspection.

Respectfully submitted,

WILLIAM C. FINN,

Agent-Inspector
Planning Board

REPORT OF THE BURLINGTON PLANNING BOARD

The work load of the Planning Board continued at its heavy pace during 1963, resulting in the Board meeting on an average of once a week.

The following is a breakdown of the business transacted.

Meetings Held:	51
Public Hearings:	13
Rezoning Petitions:	8
Subdivision Petitions:	5
Persons Appearing:	192
Non Approval Plans (for signatures)	58
Bonds Posted or Transferred	17
Bonds Released (Subdivisions Approved)	None
Complaints (Discussed at Meetings, Beyond Control of Agent	22
Drainage Complaints	11
Miscellaneous Complaints	7
Referred to Board of Health	4

Since home building and developing has leveled off to an extent the Board is now getting into other areas of planning, such as Land Uses, Rezoning and Expansion of Facilities that have been side tracked because of our phenominal subdivision growth.

It is with great satisfaction we report that the two projects the Board has striven for became realities in 1963.

1. The Master Plan,

After the lengthy process through the Federal and State Agencies, the contract between the Board

and the State Department of Commerce is in the final stages; and when signed, a progress report will be forth coming. The Master Plan, though late in the growth of Burlington will still be a tremendous guide in future planning as to Capitol outlays, schooling, land uses, and countless other problems of each and every agency in the town.

2. The Agent Inspector was appointed in the late spring and as predicted by the Board, this has resulted in tighter control and superior workmanship in the subdivisions. Many deficiencies detected and corrected will save future expenditures.

A special Joint Meeting was held on 3 March 1963, by the Board of Selectmen and the Planning Board to fill the vacancy created by the resignation of Bernard Doyle. G. Wayne McLeod was the unanimous appointee of the two Boards.

The Board would like to take this opportunity to thank all the Town Agencies and other interested parties for their continued cooperation to make a Better Burlington.

LAWRENCE A. O'BRIEN, Member-Clerk
WARREN P. GANLEY, Chairman

The following equipment was used.

56,000 feet of $\frac{3}{4}$ inch hose
10,400 feet of $1\frac{1}{8}$ inch hose
10,450 feet of $1\frac{1}{2}$ inch hose
6,600 feet of $2\frac{1}{2}$ inch hose

101,424 gallons of water from booster tanks
208 feet of ladders
52 hours pumps operated
247 acres of brush burned
36 acres of grass burned

New Ambulance, Chief's Car, Engines 1, 3, 4, and 6 are in good condition. The old Ambulance, Jeep, Engines 2 and 5 are in fair condition. Rescue No. 1 was turned over to Civil Defense for their use.

The manual force consists of 19 permanent and 18 call men. The permanent force is composed of a Chief, 1 Deputy Chief, 3 Lieutenants, 14 Firefighters and 2 Chaplains.

I would like to call to your attention that the Fire Department answered 1019 calls in the year 1963. This is an increase of 300 calls over 1962.

In the year 1963, the Fire Department has extended the fire alarm system, and new fire alarm boxes have been installed in various parts of the town. The Mutual Aid System to Woburn has been completed, and put into operation June 29, 1963.

I wish to express my appreciation to the residents of the Town of Burlington for their cooperation in fire prevention, to the permanent firefighters who have responded to alarms when off duty, and to members of other Town Departments for their assistance and co-operation. I wish to express my appreciation to all the Call Firefighters, who have responded to the alarms unfailingly during the year, and the Auxiliary Fire Department who gave so much of their time and talent.

Respectfully submitted,

HERBERT W. CRAWFORD,

Chief of the Fire Department
and Forest Warden

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Burlington :

The year 1963 will be remembered as a year in which many major decisions were made by your school committee.

As policy determination is one of the principal duties of a school committee, the committee endeavored to adopt policies which had not heretofore been in writing and to amend previously adopted policies. Policies were made in the following areas: Parent-Teacher Conferences; Professional Meetings and Study Groups; Communications, Complaints and Grievances; Salary Increments; Purchase of Supplies and Equipment; Maintenance and Repair of Buildings and Grounds; Vacation, Sick and Death Rules and Regulations for all Non-Professional Employees; Maintenance and Operation of Buildings; Preparation of the Budget; Married Students; Opening Exercises; and Cancelled Football Games being played on Sunday.

Amendments to the By-Laws of the Committee were made in the following areas: Order of Business; Parliamentary Procedure; Construction of Agenda; Time and Place of Regular Meetings; Special Meetings; and Duties of Secretary.

A major accomplishment has been the compiling and codifying of the school committee policies and administration regulations in a Manual. A contract was made by the committee with the Educational Consultants Corporation of Old Lyme, Connecticut, to do this. The minutes of the past years were examined as well as other records in the school system. The manual contains adopted policies, administrative regulations as well as suggested policies which the committee will study in 1964. The Manual

is in the Superintendent's Office and copies of the Manual are now in the process of being duplicated.

Another important duty of the school committee is that of approving courses and textbooks. Four study groups comprised of teachers and administrators were instructed in September 1962 to study the elementary curriculum in the following areas; Language Arts, Social Studies, Reading and Mathematics. These committees made their reports in the spring and the school committee adopted the recommendations which involved new textbook adoptions as well as changes in the curriculum. Copies of the study groups' reports are available in the office of the Coordinator of Elementary Education. New textbooks were also adopted for the Science Department in the high school.

In June 1962 the school committee voted to have a philosophy of education for our school system to be prepared by various members of the school system as well as by citizens of the Town. The committee formed for this purpose reported its findings and the school committee in July adopted a philosophy which has been made part of the policy manual.

In June Mr. Jerome J. Lynch who had served as Superintendent for fifteen years resigned. The resignation was accepted with regret by the committee. The committee by this action was faced with the most important decision which a school board has to make; namely, selecting a new Superintendent to be the educational leader of the school system.

The committee agreed that the process of selecting a new Superintendent would be done in a professional manner. The services of Dr. Harold C. Hunt from Harvard University were retained to assist the committee in screening the sixty applicants. Dr. Hunt recommended six individuals for the vacancy. The committee interviewed all six candidates and visitations were made to

the home communities of the two finalists prior to making their final decision. On August 13 Dr. Herman J. Dunseith was appointed Superintendent of Schools by unanimous vote of the committee and he assumed his new duties on September 1st.

Mrs. Catherine T. Ogden who was elected to the committee in March, resigned as of October 1st. By state law the vacancy had to be filled by a joint meeting of the remaining members of the school committee and the Board of Selectmen. This meeting was held in November and Daniel J. Looney was appointed to fill the vacancy until the Annual Town Election in March 1964.

The major annual decision which must be made by the school committee is deciding on how much the budget will be for operating the school system for the next year. Since November the committee has held meetings to discuss the various items comprising the budget but a final decision will not be made until late in January or February. However, it is apparent that the increase in the budget will be a substantial sum due mainly to the continuing large increases in school enrollment.

Respectfully submitted,

HOWARD E. BETTINSON, Chairman

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Burlington:
Ladies and Gentlemen:

It is with pleasure that I submit my first report to the School Committee concerning the public schools and their operation. The report will be abbreviated, with various departments supplementing the initial report.

Housing of our children will remain a dominant problem for the forth-coming year. Many, many children will be housed with forty-seven and forty-five pupils per classroom. Originally, these rooms were not designed to house this number, and desks will be placed together, creating a teaching and learning situation that is not desirable. Parents and teachers are being alerted to this situation. The administration is seeking available space to alleviate the condition. It may be possible to house eight additional classrooms at the Nike Site, providing funds are available for renovation. The Parks and Recreation Commission have been most cooperative and understanding regarding our housing problem indicating their willingness to forego development of this Site as a complete recreational area until the School Department can analyze the costs of renovation for school purposes.

A census of our children is now complete. Through the cooperation of the P.T.A. Council, Mrs. Regonini, President; Dr. Robert Herriott, coordinator of the project; and three hundred fifty volunteer men and women, every child in the community has been counted. From this report, it appears that in Burlington the student population will continue to increase at a rapid rate. Housing must be made available.

School Projection:

1963 — 4605	1965 — 5657	1967 — 6499
1964 — 5140	1966 — 6115	1968 — 6875

To assist the community in determining its needs, the League of Women Voters, Mrs. Clarence Feldmann, President, sponsored an article in the December Town Meeting to establish a permanent Building Needs and Site Committee. It is anticipated that this Committee will make full utilization of all resources available to them and assist the school administration in making housing accommodation recommendations to the School Committee and to the community.

The Junior High Building Committee, John Marino, Chairman, has been most cooperative and has allowed the Superintendent and the staff to make suggestions as to the type of educational program that should be housed in the anticipated Junior High School. Extensive educational specifications have been written and are available to the public on a limited basis for study through the Superintendent's office. This facility is needed to help ease our extremely-crowded condition.

The accomplishments of the Burlington System have been impressive and augurs well for the future development of the town and the school department:

Establishment of Northeastern's Suburban Campus in Burlington; Inservice training for twenty-seven teachers, free of tuition, for college credit each semester for Burlington teachers by Northeastern; Establishment of the David M. and Theresa H. Ward Scholarship Fund for seven years at annual rate of \$500 per year through Mr. Gilman of Gilbert Lumber Company; Teachers of Meadowbrook School to receive \$50 for summer college training through the Meadowbrook P.T.A., Mr. Belsky, President; Development of written policy for operation of schools by the School Committee; Convention of Women Traffic Supervisors in Burlington High (First Statewide convention in town's history.); Phi Lambda Theta Educational Conference — One thousand membership through State attending at High School; State-

wide recognition of Wildwood P.T.A.; Completion of Community Resources Handbook; Extensive workshop courses for teachers for inservice training; Census of community completed by P.T.A.; Development of Personnel records in system; Vigorous teachers' recruitment program; Increased exchange of ideas between School Committee and Teachers' Association.

In the area of maintenance we must develop a long-range building and maintenance budget procedure. Our schools are in need of painting on the exterior and some interior work must be accomplished. The Fire Chief is recommending that many critical areas be painted with fire-retardant paint over combustible building material for safety of our children. This recommendation will be carried out in our proposed summer painting project. We must purchase tools and equipment to keep pace with the maintenance work. As buildings increase in age more of the budget must be devoted to maintenance. We are hopeful that we may develop the excavated area under the Meadowbrook School for a maintenance work shop, to take care of the school needs, rather than build a separate facility.

Our bookkeeping procedure will undergo a change as we switch to machine bookkeeping procedures. The machine is of old vintage. This will serve a purpose in the transitional stages, but more modern equipment may be necessary in a few years as our needs and demands from the Commonwealth increase.

Items for the immediate future:

Summer Enrichment Program, including an orientation period for pre-first grade children.

Greater and more effective, realization of standardized test results.

Evaluation of linguistics course at High School.

Review of Evaluation Report of High School by the High School faculty and administration.

Setting of framework for effective working relationship of Teachers Association and Superintendent's office.

Development of supplemental program for teachers' classroom reading program.

Development of organizational and administrative pattern for increase in school population.

Analysis of future housing needs and student placement by Permanent Building and Site Committee.

Development of advanced placement courses for High School students, through cooperative efforts of Northeastern University.

Continue effective use of community volunteer talent in development and maintenance of various school programs.

To all the parents, teachers, administrators, School Committee members and cooperating Town Agencies, my heartfelt gratitude for the wonderful introduction to Burlington. Many, many individuals have contributed numerous hours in making our school programming effective for the education of our children.

Members of the supporting services are to be commended for their fine contribution in making the teachers' surroundings clean, pleasant and working conditions more enjoyable. To all who serve so faithfully, my sincere appreciation.

I would be remiss if I did not recognize Mr. Jerome Lynch for his fine contribution to the development of the school system for a period of sixteen years. I wish him continued success in his administrative duties in our neighboring system of Woburn.

Respectfully submitted,

HERMAN J. DUNSEITH,
Superintendent of Schools

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

Herewith is the Annual Report of the Burlington High School for the Calendar Year 1963.

Following the trend of the past ten years, continued growth in enrollments marked 1963. At the beginning of January, there were 1040 pupils registered in grades 8-12. When schools closed for the Christmas Vacation we had an enrollment of 1186, for a net gain of 146 pupils. Because of the growth, it was necessary to add one teacher to each of the following departments: English, Social Studies, Mathematics, Foreign Languages, Science, Business, and Guidance.

In March, the New England Association of Colleges and Secondary Schools sent a team composed of 26 members to conduct an evaluation of the school according to the Evaluative Criteria established by the National Secondary School Evaluation Committee. The results of this evaluation have been published both in booklet form and also in the newspapers serving Burlington. As a result of the evaluation, Burlington has been accredited by the Association and has been elected to continuing membership. All departments are concentrating on their self-evaluations based upon the recommendations included in the report.

The Class which graduated in June was the last one to be made up of less than 100 members. Of the ninety-three graduates, forty-six moved on to higher education, twenty-six to four-year colleges, fifteen to junior colleges or two-year schools, and five to schools of nursing. The remainder of the class were divided in various ways, six going into armed services, thirty-three going directly into jobs, one girl was married, three returned to high school for post-graduate work and three did not report and therefore unknown.

The Honors and Advanced Programs have been extended through grade eleven. In addition to our second year Biology Course, we also have a second year Chemistry Course. Both of these are offered to seniors who have done well in the first year and who expect to follow a scientific career after graduation. Also introduced in 1963 is a new Technical Course designed to fit the needs of those students who do not intend to enter a four-year college, but whose interests will lead them to a two-year institution similar to Wentworth. This course has been developed jointly by the members of Mathematics, Science, and Industrial Arts Departments.

The Art Department continued its growth with the inclusion of an Art major for selected tenth, eleventh, and twelfth grade students. In addition other students elect art on a minor basis and all eighth grade students are required to take Art, one day a week. In February, entries were submitted to the State Art Festival sponsored by the Boston Globe. Burlington had four winners (two Blue Ribbons and two Gold Keys) in this competition and these entries were sent on to the National Competition in New York. The Art Department correlates its activities with other departments and has contributed much to the Arrowhead (senior yearbook), stage productions of both the Senior Class and the Dramatic Club, Posters for many club activities, and has provided materials for lectures.

The Business Department is continuing studies to determine methods of enriching the course offered. Personal typing for college course students has been expanded. Members of the department have attended Seminars to investigate the uses of data-processing materials in business areas. Changes within our offerings have included a transcription period to extend the second year shorthand course, updating the law course, and improvement of the business machines course.

During the past year the English Department

has been keenly interested in a number of programs beneficial to both students and teachers. One class of 9th grade students is in its second year of the study of Linguistics, the new approach to the study of Grammar. All eleventh grade students participated in the Humanities Program shown by Channel 2. All assembly programs have been arranged and conducted by the Public Speaking classes. The Dramatic Club presentation of "The Diary of Anne Frank" was produced by members of the English Department. The Department, assisted by both the Music and Art Departments, aided the senior class in staging a very superior production of "Oklahoma". Four members of the department attended the New England Reading Association Conference at Mt. Washington and one member, for the second year, was selected by the National Council of Teachers of English to serve as a Judge on a panel to determine the best English student in Massachusetts.

Two new subject offerings were made in Foreign Languages this year. These were Latin III and Spanish III. Both of these should benefit greatly college bound students. Use of the Language Laboratory increased as more materials were developed and obtained. Language offerings, especially in French and Spanish, were opened to Business Course students.

The Home Economics Department not only has major offerings for Practical Arts Girls but also offers minors for other girls on a two day a week basis. Eighth grade girls are assigned on a once a week schedule. This past year new units were introduced on adult-teenage understandings, a more comprehensive study of fashions, uses of new textiles and uses of modern, convenience foods.

As noted above the Industrial Arts Department assisted in the formation of the Technical Course. Boys enrolled in this course are given practical experience in

shop areas to supplement their experiences in the Science areas. In addition, our regular Practical Arts Courses have expanded for grades nine through twelve and all eighth grade boys are assigned to the shops on the basis of one day a week.

Use of Modern Mathematics materials has been extended to include grades 8 through 11. The Department has also continued with work at all grade levels in Traditional Mathematics. The Mathematics Team competing in the Massachusetts Math League continued to show improvement with excellent work being accomplished by individual team members.

The Music Department assisted in producing the senior play. The presentation of "Oklahoma" was a tremendous success. Members of the Music Department prepared many groups for assembly programs and graduation. The band presented its annual concert, participated in many parades and other civic functions, and also supplemented the athletic program by its performance at football games. A Music major has also been added for selected students in grades ten, eleven and twelve and all eighth grade students are assigned to Music on a one day a week basis.

Members of the Science Department have formed two committees to investigate new trends in Science teaching. One of these committees is studying the three versions of the Biological Science Curriculum Study with a view toward recommendation of adoption of the one which best fits the needs of Burlington students. The other committee is studying the two new versions of Chemistry, the Chemical Bond Approach and the Chem Study, developed by the National Science Foundation. The Science Department has also been very much involved with the Technical Course as noted above. The Tenth Annual Science Fair was conducted in March with winners advancing to the Lowell Tech and State Science Fairs.

New resource materials, purchased by the Social Studies Department, have assisted the Department greatly in its offerings. In addition, many outside speakers, both on a local and national level, have donated their services, by spending a day with groups of classes in order to amplify the various types of problems which face the nation. Many radio and television programs have been taped which assists greatly in our being able to present these to students whose classes sometimes did not coincide with the normal broadcast time.

Physical Education classes have all been given the Physical Fitness Tests proposed by A.A.H.P.E.R. and students have all been divided into groups according to these tests in order to aid in teaching Physical Education.

Field Trips were planned, organized, and conducted by all Departments during the year. These supplemented greatly the normal work done by the students within their classes.

Although our activities period had to be abandoned because the classrooms were needed for academic scheduling, the club program is functioning very well and several new clubs have been added. The Student Council had developed real leadership within the school, correlating all club activities. This has been the result of the tremendous enthusiasm generated by the two student council advisors.

The addition of an Audio-Visual Specialist has been of great assistance to all departments. More use of these Audio-Visual materials is possible because of better scheduling and correlation. As noted above many programs have been taped and replayed at more convenient times for students.

Several staff members have attended conferences, bringing back with them many new ideas and trends which have been discussed at department meetings.

Burlington has also participated in programs with various colleges in student teacher training. This is an

invaluable program as it has assisted in helping to keep a flow of new teachers. This also helps Burlington as it gives us contacts when replacements become necessary. During 1963 student teachers were used in the Social Studies, English, Mathematics, and Science Departments. Several of these practice teachers have been retained as staff members.

I should like to have the following recommendations considered for the future:

1. The possible addition of an art teacher for half-time service at the High School. This will be needed because of projected growth in the Art classes.
2. Investigation be conducted as to the feasibility of use of data-processing equipment for areas of scheduling and attendance reports and also what equipment might be of value within our Business Department for training students. In this latter area, the possibility of a key-punch machine has been suggested
3. The addition of electronic equipment in order that the Technical Course may be expanded.
4. The appointment of a full time Driver Training Instructor. Because of the enrollment increases and new regulations by the Registry of Motor Vehicles concerning learners, this need becomes more apparent.
5. In order to be consistent throughout, we feel that a head of department should be appointed to the Art Department and to the Home Economics Department.

Respectfully submitted,

JAMES M. HORTON,

Principal

REPORT OF THE GUIDANCE DIRECTOR — 1963

General Description of Guidance and Counseling Services

The Guidance services are administered by a certified counseling staff consisting of a Director and three counselors. A sincere effort is made to help each student to know himself as an individual and as a member of society. The program seeks to assist all pupils in assessing and understanding their abilities, aptitudes, interests, and educational needs.

Guidance is an integral part of the entire educational program and is conducted so that it is consistent with the educational philosophy and objectives of the Burlington school system.

Cumulative records are kept in the Guidance office on all students from Grades 1 through 12 so that a complete picture is available when needed.

Counseling Interviews

In Grades 7 through 12 each student is assigned to a counselor who is to aid him in any of his problems or needs. Pupils are invited and encouraged to visit the Guidance office voluntarily to discuss their problems in a relaxed atmosphere. Parents likewise are always welcome to make appointments for consultation concerning their children's welfare. This past year many such conferences were scheduled.

Testing Program and Services

Standardized tests were administered during the year to evaluate intelligence potential, abilities, aptitudes, and interests.

In Grades 1 through 7 a program of achievement

testing took place in all grades in May. Intelligence tests were also given in alternate grades.

This entire program was conducted with the cooperation of the Coordinator of Elementary Education, Principals, and teachers

Intelligence tests were administered at the 8th and 10th grade levels. Tests for aptitudes in certain areas were given to pupils in Grade 8 and in other areas to pupils in Grade 9. The National Guidance Testing Program was administered in Grades 10 and 11.

Individual psychological tests were administered by the counseling staff in referral and problem cases.

Juniors and Seniors were encouraged to participate in all national programs such as the National Merit Scholarship Tests, Preliminary Scholastic Aptitude Tests, Tests for the Service Academies, the Betty Crocker Search for the American Homemaker, Science Talent Search, and the like.

Seniors and Juniors were also informed and counseled in correct procedures needed in registering for all programs given by the College Entrance Examination Board. Each pupil who took these exams had the results interpreted to him and further counseling was given in planning for admission to his chosen institution of higher learning.

Educational and Occupational Information

A library of information is maintained for all pupils and includes college, university, and school catalogues and brochures. Scholarship and financial aid information is likewise available for student use. During this past year many students utilized these facilities.

To augment the occupational information literature, a program of conferences on jobs and careers took place.

with the aid of the Northeastern University Occupational Service Center. Three conferences were held on the first Wednesday of each month and included speakers who spoke on the following careers:

Social Work	Food Careers
Girls in Federal Government	Engineering
Large Stores	Forestry
Data Processing	Medical Technology
Graphic Arts	Aviation
Engineering Technician	Careers for the High School Graduate with Vocational Training
Radio Technicians	Teaching
Health Careers	Practical Nursing

An assembly program was also given on "What's New in Careers" illustrated by kodachrome slides. The Northeastern program was supplemented by other speakers, including representative from the different branches of the armed services. With the cooperation of the Commercial Department two field trips were arranged to see business in action.

Job Placement

Seniors who did not intend to continue their education immediately beyond the secondary level were aided in procuring jobs, if they wished to utilize these services. Introductory letters were given each student.

The Office of the Division of Employment Security in Woburn rendered assistance in the administration of tests for employment. We are grateful for this service and also for the cooperation given us by our Commercial Department.

Referral Agencies

In the case of problems which needed psychological attention beyond the scope of public school guidance services, referrals were made to mental health clinics,

specialized guidance centers, and hospital psychological units with the consent of parents.

Follow-Up-Studies

A study was made of the classes who were graduated within the previous five year period. The percentage of return replies was a little discouraging when making an attempt to get a valid statistical picture. The best return came from the class of 1962. Of this class 32% attended four year colleges and 19% attended other schools beyond the secondary level. The remainder of the grades obtained employment, were married, or entered the armed services.

Recommendations

In regard to the services rendered to the elementary schools, at present, we can handle only referral problem cases. The pupil load is much too large. I should like to suggest that at least one more Guidance Counselor be appointed to handle the problems in the elementary schools.

We hope in the immediate future to approach at least a ratio of 300 counselees to 1 counselor which is the recommendation of the Massachusetts Department of Education, Office of Guidance and Placement and also of the National Defense Education Act.

At this time may I extend my appreciation to the members of the Burlington School Committee, all school personnel, and the parents for their cooperation in aiding us to accomplish our goals. It is so necessary to have complete cooperation, rapport and understanding to conduct successfully a guidance program.

Respectfully submitted,

MARY L. BILLINGS,
Director of Guidance

REPORT OF THE COORDINATOR OF ELEMENTARY EDUCATION

It is with pleasure that I submit my second Annual Report to the Superintendent of Schools, to the School Committee, and to the Citizens of the town of Burlington.

Last year, my first report to the people of Burlington emphasized the need for a study and re-evaluation of the entire instructional program of the elementary grades.

In this report, I propose to outline the progress realized to date in the newly organized program of studies in these grades. Projected future planning has also been incorporated in this report.

Proposed changes in our instructional program were given careful thought and consideration before any revision was recommended. As curriculum development progressed, major goals and objectives were continually adhered to. Any changes or revisions that have been recommended to the school committee for approval have been the result of intensive study and deliberation by both administrative and teaching staffs. Many conferences by teacher committees selected for the task of studying different programs were held before final recommendations were made.

Committee members from the teaching and administrative staffs assigned to the task of selecting a new textbook adoption in certain areas of the curriculum incorporated the services of educational consultants from various publishing companies before final decisions were made.

Certain areas of the curriculum were standardized from the standpoint of material changes. Continuity of instruction from grade to grade was the contributing factor in this standardizing process. Challenging each

child to his fullest potential was another criteria utilized in selecting new textbooks.

The elementary curriculum must form the basic foundation upon which all future learning takes place. The child must feel secure in the work he is undertaking. He must be challenged but not to the point of frustration through excess experimentation. In our projected planning, the curriculum was developed to meet the needs of the individual child.

Many areas of the instructional program have been given serious study. Following are some of the regions which were given major consideration:

READING

The fundamental objective of primary reading program is to help the child develop as quickly and securely as possible the power to read anything that is printed in language he would understand in spoken form. In short, the goal of reading is independence.

Reading is considered the most important subject taught in the elementary grades. Future progress attained by a child in academic subjects can usually be attributed to the progress made in reading at this level.

Our entire reading program has been re-evaluated in terms of adopting basal reading series for the elementary grades. It is important that reading skills taught at this level provide for continuity of material from one level to the next. The basal program in reading is perhaps the best means of achieving this goal.

As a result of continued study throughout the school year, the administrative staff recommended to the school committee for adoption, two basal series for the Burlington elementary grades; the teachers of a particular building masking the decision on the basal series they wish to use.

The school committee adopted the McKee series published by Houghton Mifflin Publishing Company and the American Book reading series. In addition to these adoptions, the school committee also adopted a program entitled, "Levels of Reading" whereby a child's reading progress from one book to the next will be recorded on a permanent record for future reference and guidance of the child. Reading tests will be administered to a child following the completion of a level of reading and the results recorded on the permanent reading record. Children will proceed from one reading level to the next following satisfactory completion of a reading text. The reading progress will be continuous and the reading level attained in June will serve as one method of determining a child's promotional status. The reading progress of each child will be evaluated from year to year and corrective measures taken where needed with the individual child.

To date, the new reading program has been placed in all first grade rooms and in most second grade classrooms as well. The program will be projected into the third grade next September. Completing the adoption through grade five may be accomplished in another year.

At the sixth and seventh grade levels, the reading program is accelerated to the extent that children who have progressed above their grade level in the primary grades are exposed to Literature and individualized reading material in the form of reading laboratories. These laboratories are also utilized in grades four and five as enrichment material. Children who have made average progress in the lower grades continue reading in the basal program in the sixth and seventh grades. Children having encountered reading difficulties in the elementary grades are provided with reading material at the reading level where they have encountered reading problems. The remedial reading teachers also assist these children with their individual problems.

The new report cards in grades 1 through 6 encompass the change in the reading program. On this unique report card, children do not receive a letter mark in reading but are marked on the strengths or weaknesses in the particular book they are reading. We feel that since reading is a continuous process the book the child is reading in is a better indicator of his progress in reading than the letter marks which have been given to the child in the past.

MODERN MATHEMATICS

Historically, elementary school mathematics has been through several changes which have influenced textbook writers and others responsible for the mathematics curriculum. Concern for the child as an individual and as a learner caused educators to question the grade placement and the usefulness of certain topics in elementary school arithmetic.

Through the years, elementary school mathematics also has been influenced by changing emphasis in methods of teaching. Experimental groups throughout the country are trying to identify ideas pervading all mathematics and to determine ways of beginning the development of these ideas in the elementary school.

The mathematics program for the elementary school child, formerly limited mainly to one branch of mathematics, is being broadened to include all branches which are appropriate for the children within this age group.

The former goals for elementary school mathematics are not being forsaken by any means. This is not the case. To the regular frequently quoted goals of mathematics in the traditional program the following goals, having some element of newness should be added for the modern mathematical approach:

1. To help each child understand the structure of

mathematics, its laws and principles, its sequence and order, and the way in which mathematics as a system expands to meet new needs.

2. To help each child prepare for the next step in mathematics learning which are appropriate for him in terms of his potential and his future educational requirements.

The new mathematics teaches children to think not only in conjunction with the 'how' of mathematics but, also, the 'why' of this new program.

A Modern Mathematics program has been adopted by the school committee for Burlington schools. This program has been placed in the first and second grade classrooms in September, 1963. The program selected is a combination of modern mathematics interwoven with traditional arithmetic. The study committee recommending this series was very careful not to select a mathematics program which would do away completely with traditional arithmetic. The modern and traditional mathematics are intergrated to such a degree that the child feels secure in learning it.

The new mathematics is projected for placement in the third grade in September of 1964 and in the other elementary grades the following years.

Parents haven't been neglected in the process of change to the newer mathematics. A mathematics course for parents was planned in May of 1963 for future instruction to parents at adult evening classes in the winter of 1964. In addition, parents were notified through the various schools that a course in elementary modern mathematics would be taught through the local educational television channel.

Members of the teaching staff were given a six week workshop in the newer mathematics during the fall of 1963. This course was underwritten by the publishing

company selected for the adoption. All elementary teachers attended the course which was conducted at the Wildwood Elementary School.

Burlington school children are provided an excellent opportunity to familiarize themselves with some of the latest material in the field of mathematics through our newly adopted program.

SOCIAL STUDIES

One area of the curriculum which has been subjected to a major revision is that of Social Studies. Social studies is a term used to denote combined studies of History and Geography. Oftentimes, Civics is also considered in this study.

Social Studies offerings to children at the different grade levels have been changed to meet the growing demands of global living. Where formerly, much stress was placed upon the study of Europe and Asia in their historical and geographical concepts, present demands dictate the need to place greater emphasis upon the study of our immediate neighbors as well as those of the Eastern World in the intermediate grades.

The program recommended and adopted by the school committee is as follows:

Grade 4 — An introductory study of the Geographical and Historical Concepts of the World.

Grade 5 — A Geographical and Historical study of the United States.

Grade 6 — A Geographical and Historical study of our immediate neighbors of Canada, Middle America, South America, and our possessions. A study of the Old World is

also encompassed in the sixth grade program of studies.

Grade 7 — A Geographical study of the World.

Grade 8 — An Historical study of the United States.

The above program of studies was recommended by members of the administrative staff and the textbook recommendation was made by a committee from members of the teaching staff. The entire program was adopted by the school committee. New textbooks have been placed in grades 4, 6, and 7 employing the new adoption.

The new program in Social Studies in the elementary grades have far reaching goals and should benefit each child in the Burlington School System.

ENGLISH

English textbooks in the elementary grades have been subjected to a major revision this year. The teaching staff felt a strong need to provide children with a firmer foundation in the basic fundamentals of the English language. English textbooks during the past ten to twenty years tended to teach the English language from the standpoint of a social experience that a child may have had in his daily living.

The new trend today in the teaching of English is toward instruction in the more conventional grammatical approach. The committee of teachers selecting the new textbook for recommended adoption were unanimous in their recommendation that the textbook selected should emphasize definite learnings in the fundamentals approach to the teaching of this language.

A new textbook series recommended by the committee of teachers was adopted by the school committee. The school committee voted to begin the adoption in the

sixth grade in September of 1963 and in other lower grades as soon as feasible.

FRENCH

Conversational French for the intermediate and junior high school children was given great impetus last year with the election to the teaching staff of a French specialist for the instruction of this subject to these children.

Mrs. Marie Locke, having had considerable experience in the teaching of French in the elementary grades, was elected to this position. The program has seen much forward progress through Madame Locke's capable instruction. Children are very receptive to this new learning and appear very happy with their new experience.

All fourth grade pupils are exposed to the Conversational French Program. In grades 5, 6, and 7, the more academically able children are given the opportunity to partake in this program. Other children in these grades are given the additional time from the French period to study areas of the curriculum in need of more attention.

SAFETY PROGRAM

Safety orientation talks to all Burlington elementary and junior high children has been undertaken by the police department in conjunction with the school department with officer Frederick Graham instructing the children.

Children are instructed at periodic intervals throughout the school year on certain aspects of safety.

This new program is very important in teaching children the basic safety rules and regulations. It has been a much needed program for the children of this town.

Officer Graham has been adhering to a regular schedule of visits to all classrooms in grades 1 through 7. His projected plans call for talks to children in grades eight

through twelve in the near future. Mr. Graham instructs children in the various aspects of safety in half hour intervals in each classroom. He plans to visit each classroom approximately four times per year.

His safety talks for the winter of 1964 will be on Winter Safety. This will be followed by talks on Bicycle Safety in the spring of the year and Bus Safety in the fall of 1964.

There were many other areas of the instructional program at the elementary level which received considerable study and evaluation by both teaching and administrative staffs. Areas such as new report cards and new marking system in grades 1 through 7, a revised testing program, parent-teacher conference schedule revision, in Service Workshops (outlined in Report of Elementary Principals) development of a philosophy of education for the entire Burlington School System and a specific philosophy for newly proposed junior high school, the formulation of a Community Resources Guide for the teaching staff, Newsletter Publication, T.V. programming in the elementary grades, development of a curriculum guide in science, supervision of instruction, etc., were all part of the total structure subject to continuous study this year. The election to the staff of an audio-visual specialist has been a forward looking move for the Burlington Schools and will contribute greatly to the over all enrichment of our curriculum. Mr. Ernest DeMartinis was elected to this position.

May I express my thanks and appreciation to the School Committee, the Superintendent of Schools, the Principals, members of the Teaching Staff, and the Citizens for their fine cooperation extended me in my work in Burlington this year.

Respectfully submitted,

FRANCIS GAUDET,
Coordinator of Elementary Education

REPORT OF THE ELEMENTARY SCHOOL PRINCIPALS

With the opening of the Pine Glen School in January 1963 the teacher-pupil ratio improved greatly. However, at this writing the picture for September of 1964 could mean heavily enrolled classes at several different grade levels.

In order that the faculty members be kept abreast of modern trends in present day education the themes of our workshops have been focused in the following areas:

Ethics:

With the realization of the importance of this area with professional staff members, a most valuable session was held in hopes that school and community members could more successfully achieve the goals we have set for the Burlington school system.

Skills in Library Techniques:

In helping us to carry out this program, the school committee approved of an additional librarian at this level.

Parent volunteers have worked in each school so that our library facilities be used to the utmost. As the year progressed many new books were added to our growing collections.

Modern Mathematics:

This particular workshop was planned to explore and decide which textbook would best serve the program of modern mathematics to be adopted in September in grades 1 and 2. It was at this time that the decision was made to have a workshop for all elementary teachers,

principals and it was further planned to conduct workshops so that parents, who wish to keep abreast of this subject with their children would have the opportunity to do so.

Art Workshop:

Time was given to an art workshop in order to correlate all subject material in a more interesting manner.

The emphasis was placed on the latent talent of the individual child. It is through this that the interest is awakened in each student and the results prove most gratifying.

Parents had the opportunities to visit the schools for the following programs:

1. A most successful and rewarding Open House was held at each school involving classroom visitation to see the daily program in operation.

2. The three teachers involved in the physical education program demonstrated several phases of their work.

3. During National Lunch week parents were invited in to the cafeterias to have lunch with their children. Many parents took advantage of this.

Grade meetings were held during 1962-1963 school year to make necessary revisions of our report cards. The new cards were issued for the first time in November 1963.

The School Committee hired Madame Locke as a teacher of French in grades 4 through 7 to replace the French program that was viewed on television. The results are proving to be most satisfactory.

They also decided that Burlington needed a Coordina-

tor of Visual Aids so that all of our excellent equipment could be used to the fullest extent.

In addition to our regular reading program each school uses the S.R.A. (Science Research Associates) Reading Laboratory.

New textbooks were adopted in Science, Social Studies, and Mathematics.

To insure better public relations releases of school activities reach the home through the media of the Burlington Banner and newspaper releases, as well as individual school papers.

Respectfully submitted,

by the Elementary Principals

REPORT OF THE AUDIO-VISUAL SPECIALIST

It is with great pleasure that I herewith submit my first Annual Report to the Superintendent of Schools, the School Committee, and the citizens of the town of Burlington.

Since my election to the position of Audio Visual Specialist, I have endeavored to acquaint myself with the Burlington Curriculum in order that more effective use would be made of all audiovisual materials and equipment. In setting up the beginning stages of the audio-visual program I have received the utmost co-operation from the Superintendent of Schools, administrators, and the teaching staff.

Inventory of Audio Visual Equipment

Before any realistic program could be set up it was vitally important that we take an inventory of the audio visual equipment currently owned by the Burlington System. An inventory would also give us an excellent idea of the condition of all the equipment. The inventory has been completed and we found that we have an adequate supply of equipment to begin a good audio-visual program.

Equipment found in need of repair has been put in good working condition. All equipment will be numbered for convenience of location and repair.

Cataloguing Audio Visual Materials

I am now in the process of creating a catalogue of all audiovisual materials in the Burlington School System. The catalogue will list all filmstrips, films, slides, flat pictures, tape recordings, and phonograph records available for use by Burlington teachers.

Film Rental Program

Film is the most widely used audio-visual material used in the Burlington schools. What is the reason for this? As we learn through our senses, we learn from our environment. Your child's environment has expanded prodigiously since the turn of this century. No longer does his environment consist of his community and his nation. Today this environment has come to include the nation, hemisphere, world, the solar system, and finally the universe.

As education moves away from the child's immediate environment it becomes, increasingly abstract and difficult to understand. Film helps to eliminate this abstraction by giving the child direct experience with everything he must know and understand. The film rental program for Burlington will enable teachers to utilize over 8,500 films during the school year.

The films are available through the following film rental plans:

Department of Education Co-operative Plan
200 Newbury St., Boston, Mass.

The Department of Education's film library consists of 2,200 films.

Boston University Film Club Plan
Commonwealth Ave., Boston, Mass.

The Boston University film library consists of 5,500 films.

The Coronet Film Company has offered Burlington the use of their film library of over 1,250 films. The films are free, and offer the best in educational films.

Teacher Training Program

The in-service teacher training program is being conducted through:

1. Conferences with teachers
2. Staff Meetings
3. Workshops — demonstrating, previewing and auditioning new audio-visual equipment and materials
4. Informal contact with teachers

The purpose of this training program is to familiarize teachers on the operation of all audio-visual equipment. This includes the 16mm motion picture projector, film-strip projector, overhead projector, opaque projector, record players, and other equipment.

Student Projectionist Club

The High School now has a very active student projectionist club. The projectionist club consists of volunteer students from grades 8-12. The students are trained in the operation of all audio-visual equipment. They are also taught minor maintainance of all the equipment. This minor maintainance entails cleaning lenses, replacing lamps, repairing plugs, making new plugs, cleaning and splicing films, filmstrips, and tapes. Major repairs are not handled by the students.

Projectionist clubs will be established in each elementary school. At the moment I am establishing clubs at the Union and Center Schools.

Instructional Materials Center

An Instructional Materials Center will be created serving all schools within the system. The center will be

located at the high school. At the center the teachers will be taught to produce their own audio-visual materials. These will include overhead transparencies produced by the Thermofax process, slides correlated with tapes to enhance the learning process, 8mm film, records, posters and other materials that supplement all subject areas.

School Safety Program

With the appointment of Officer Frederick Graham we now have a full time Safety Officer for our schools. I have been working closely with Officer Graham showing him how to use audio-visual materials and equipment to supplement his safety program.

Respectfully submitted,

ERNEST J. DeMARTINIS,

Audio-Visual Specialist

REPORT OF THE SCHOOL PODIATRIST

To the Superintendent and the School Committee:

I hereby submit my report as School Podiatrist for the year 1963.

As of this date the foot examinations have been completed in the High School, Center School, Union School and the Meadowbrook School. The examinations have been started in the other three elementary schools. They will be completed in the near future.

In my report of 1958, I noted that 15, 16, and 17 year old girls were developing bunions, a deformity of the big toe joint. While examining second and third grade children this year, I have noted that girls are developing bunions at this early age. This is a disgraceful situation. The whole situation is being caused by pointed toe shoes. I would like to know what is so cute about a deformed foot. One pair of feet must last a lifetime.

At this age the foot is at an important phase in development. It is of the utmost importance that a proper shoe be worn. There is no reason that children of this age group cannot wear a tie oxford to school.

Another condition that is prevalent among school children of all ages is excessive perspiration. A contributing factor in this condition is stretch hosiery.

The stretch socks are made of a plastic fiber. The plastic fiber will not absorb perspiration. The acid in the perspiration causes maceration of the skin which in turn predisposes the foot to various skin conditions. A mercerized cotton sock is the best material for perspiration absorption.

I want to take this opportunity to thank the Super-

intendent of Schools, the School Physician, the School Nurses, the Principals, and teachers for their cooperation and assistance.

Respectfully submitted,

JOHN L. CASEY, JR., D.S.C.,

School Podiatrist

REPORT OF THE ATTENDANCE OFFICER

To the Superintendent and School Committee:

I hereby submit my report as attendance officer for the year 1963.

Daily contact was made with every school and the names of all pupils absent were recorded. Parents of High School girls and boys must notify the High School office by 8:30 a.m. to report the absence of students. If the office is not notified, an immediate telephone call to the home is made. If this is not effective, a home visit is followed up.

Illness was the excuse in most cases, except for several truants.

2. ANNOUNCEMENT WILL BE MADE ON RADIO
STATIONS WNAC, WBZ, WCOP, starting at ap-
proximately 6:45 A.M.

3. In the event of inclement weather deemed not sufficiently bad to cancel school, it is the parents' prerogative to decide whether or not the child should attend school.

Any and all school functions scheduled for the evening of a day that school is called off are automatically cancelled.

Employment Certificates

Employment certificates are issued during office hours at the office of the Superintendent of Schools. Under rules and regulations of the Department of Labor and Industries, an employer should have on file a permit or certificate for any employee under eighteen years of age. In order to obtain a certificate, it is necessary, when applying to produce evidence certifying to date of birth.

Age of Admissions

Pupils entering the first grade in September, 1964 must be six years of age on or before January 1, 1965. In other words a child entering Grade One next September will have reached his sixth birthday on or before January 1 of the year 1965.

Vaccination

The state law requires all pupils attending public schools to be vaccinated. Exception will be made for a child presenting a certificate signed by a registered physician stating that he has personally examined the child and found his physical condition such that his health would be endangered by vaccination.

Attendance

Regular attendance is necessary to do satisfactory work. A written excuse from the parent or guardian is required for every tardiness or dismissal. No pupil is allowed to leave school during the session without permission from the Principal or Superintendent. Unless the pupil brings with him a written request for dismissal from his parents or guardian, he is permitted to leave only in case of emergency.

Teachers may require pupils to attend extra afternoon session if it is necessary for success in their work or for discipline reason.

REPORT OF THE SCHOOL PHYSICIAN

February 7, 1964

Burlington School Committee
Burlington, Massachusetts

Honorable Members of the School Committee:

The physical examination, of the pupils, for the school year, 1963-64, have just about been completed. Physical examinations, chest x-rays, and Wassermanns have been completed on all cafeteria personnel.

The recommendation, of last year, for a more progressive school health program, one that would be tailor-made for the various classifications in the student body, was initiated this year.

The groups have been divided into the athletes, the intermediate group and the physically handicapped. The athletes are those students who have excellent muscle development, neuro-muscular control and good reflex activity. The intermediate group includes those with poor muscle development and the obese. The physically handicapped can be subdivided into two groups, those with muscular and skeletal deficiencies and the medically handicapped.

Because of the cooperation of the school personnel the health program has been carried out very efficiently. It is at this time that I wish to thank Dr. Dunseith and the nursing personnel for their cooperation during the year.

Respectfully submitted,

ANTHONY C. GIANGRECO, M.D.,

School Physician

REPORT OF THE PARK DEPARTMENT

To the Citizens of Burlington:

We, the Park Commissioners, realize the value of play areas for the town and submit the following short summary on activities and work done by the department.

During the summer months, supervisors screened and hired by the commissioners, conduct activities in six areas throughout the town, namely; Pine Glen School, Meadowbrook School, Memorial School, Wildwood School, Wildmere section of town and Simonds Park.

Simonds Park, located in the center of town, has the largest accommodations. They include wading pool with sprinkler system, see-saws, slides, swings, merry-go-round, tennis courts, baseball diamond, softball field, little league field, benches to rest on between activities.

Floodlights have been installed for winter skating and tobogganing. A barbecue grille is nearby for the convenience of those that get hungry or thirsty.

This past season, the tennis courts were re-sealed and new fencing installed. The stone wall along Church Lane was pointed. The Frazier land was cleaned off by tearing down the building and levelling off the land.

A retaining wall was built in the parking area at the park, plus re-seeding and additional playground equipment installed along the road leading into the park.

A new Tractor was purchased.

Additional work was done on the Boston land.

In conclusion, Simonds Park and the school areas have been kept clean, attractive and safe for the children and their parents to enjoy the facilities provided by the Park Department and citizens of Burlington.

The attendance shows the popularity of the areas. increases every year.

PARK COMMISSIONERS

REPORT OF THE BOARD OF PUBLIC WELFARE

Old Age Assistance — Chapter 118A

There was a slight increase in the number of Old Age Assistance cases during the past year, with most of the cases being transfers from other cities and towns. Although the individual grant is decreasing, due to income from other sources such as Social Security, the overall expense has increased due to the higher costs of hospitalization and other medical expenses.

Medical Assistance for the Aged — Chapter 118A

During the past year there were thirty new cases added to the Medical Assistance for the Aged program. The total expense has increased greatly, due again to the high costs of hospitalization, also the increased number of persons requiring nursing home care. The Medical Aid program has been of considerable assistance to eligible elderly persons who are ordinarily self sufficient, but unable to meet the costs of chronic medical needs.

Aid to Dependent Children — Chapter 118

This program also has increased in overall expense during the past year. Although there is just a slight increase in the number of cases being aided at present, there was a large turnover of cases during the year. Due to Federal changes requiring more extensive casework and services to families with dependent children, the work and time involved with these cases has increased greatly.

Disability Assistance — Chapter 118D

Both the number of cases and expenses have in-

creased Disability Assistance during the past year. The program is assistance to the permanently and totally disabled and the major portion of expense is for medical care.

General Relief — Chapter 117

During the past year approximately one-half of the General Relief expense was for Burlington settled persons residing in other cities and towns. General Relief is used for temporary aid when necessary for cases pending approval on the State aided categories, and for persons not eligible for any other type of assistance.

The Board of Public Welfare would again like to take this opportunity to express our appreciation to the other town departments, the clergy, the medical profession, the industries, the fraternal organizations, and the residents of the town for their interest and cooperation during the past year.

Respectfully submitted,

BOARD OF PUBLIC WELFARE

Georgiana Nelson, Chairman

Robert Blenkhorn

Robert Field

Mary R. Kelley,
Director of Public Assistance

(Submitted by the Water District Sewerage Study Committee).

Article 34. To see if the Town will vote to create a special unpaid committee to be known as the Regional Vocation School District Planning Committee, to consist of three members, including one member of the School Committee, all to be appointed by the Moderator, which committee may join with a comparable committee or committees, from one or more neighboring Towns and/or City, to form a Regional Vocational School District Planning Board for the purpose of studying the advisability of establishing a Regional Vocational School District, and making recommendations, relative thereto, pursuant to Chapter 71, of the General Laws, Section 14 to 161 inclusive, or do or act anything in relation to the same. (Submitted by the School Committee).

Article 35. To see if the Town will vote to accept, the alteration and relocation of Lexington Street shown on a plan entitled "Relocation of Lexington Street, Town of Burlington, Mass." dated December 20, 1963, by Raymond C. Pressey, Inc., Registered Land Surveyors & Engineers, as laid out by the Selectmen and reported to the Town and filed in the Office of the Town Clerk, and the Selectmen be and hereby are authorized in the name of and on behalf of the Town to take by eminent domain, such lands, rights and easements as may be necessary for the purposes of said alteration and relocation, or do or act anything in relation to the same. (Submitted by the Planning Board).

Article 36. To see if the Town will vote to discontinue as a public way, insofar as and to the extent that the same has not heretofore been discontinued, so much of what was Lexington Street prior to the acceptance at this meeting of the relocation thereof by the Selectmen as lies Southerly of the Southerly line of said relocation of Lexington Street, and respectively, Northerly of the Northern Circumferential Highway (Route 128) and Easterly of the Middlesex Turnpike, or do or act anything in relation to the same.

Article 37. To see if the Town will authorize the Selectmen, in the name and on behalf of the Town, convey to Realty Developing Company, Incorporated, a Massachusetts corporation, the land of the Town in Burlington, Middlesex County, Massachusetts, bounded and described as follows:

SOUTHWESTERLY:

by the Northeasterly line of the Northern Circumferential Highway (Route 128), sixty-five and 69/100 (65.69) feet,

NORTHWESTERLY:

by Lot 3 on Land Court Plan No. 31049A by four lines measuring together seven hundred fifty-seven and 10/100 (757.10) feet;

NORTHERLY:

by the same, one and 01/100 (1.01) feet;

EASTERLY:

by the land of Realty Developing Company, Incorporated by two lines measuring respectively, one hundred thirty-nine (139) feet, more or less, and sixty-eight and 21/100 (68.21) feet,

SOUTHERLY:

by the same and by Lot 2 on said plan, twenty-six and 60/100 (26.60) feet; and

SOUTHEASTERLY:

by said Lot 2 by three lines measuring together five hundred seventy eight and 94/100 (578.94) feet; being the greater portion of the parcel of land described as Parcel 1-T in the taking by the Commonwealth of Massachusetts, dated March 7, 1950, recorded with Middlesex South District Deeds in Book 7551, page 191 and all of the parcel of land described as Parcel 1-TA in the Taking by the Commonwealth of Massachusetts dated September 5, 1950, recorded with said Deeds in Book 7638, page 519, reserving, however, the right and easement to use said premises until June 1, 1964 in common with the grantee thereof, its successors and assigns, for passage and repassage on foot and by vehicle, or do or act anything in relation to the same.

Article 38. To see if the Town will vote to amend Section XI of the Zoning By-Law so as to read as follows:

"SECTION XI. INDUSTRIAL DISTRICTS

In an Industrial District, no building or land shall be used for any other purpose than one or more of the following:

1. Any use or accessory use permitted in Section VIII, IX or X.
2. Lumber, fuel, or ice establishments and establishments for the repair of motor vehicles.
3. Research Laboratories or light manufacturing employing electricity or other unobjectionable motive power, machinery and processes.
4. Motels or Motor Hotels, subject to conformity with the following provisions and requirements:
 - (a) For the purposes of this section, Motel or

Motor Hotel shall mean a structure or structures containing dwelling units of one or more rooms attached to each other, and intended to be rented for brief periods of time for the accommodation of travelers or tourists with or without dining facilities.

(b) Any such Motel or Motor Hotel shall comply with all applicable building laws of the Town.

(c) The minimum lot size for any such Motel or Motor Hotel shall be 120,000 square feet.

(d) Not more than 40 per cent of the lot area shall be covered by buildings.

(e) No living floor area shall be less than 20,000 square feet.

(f) No sleeping rooms shall be located below the mean finished grade of the ground adjoining the buildings nor above the second story of any building.

(g) No building shall exceed two and one-half stories in height, with a maximum height of 40 feet, exclusive of cellars.

(h) There shall be parking space for automobiles provided on the lot sufficient to furnish one and one-half reasonably accessible automobile spaces per sleeping unit, plus reasonably adequate provision for persons dining or attending functions in the building or buildings.

(i) Front Yard — There shall be provided a front yard of not less than 100 feet in depth on each street on which the lot abuts. Within such 100 feet from each street, there shall be permitted only (1) green areas of grass, plants, shrubs and trees, (2) walks, driveways and

After item 23 the Moderator made a suggestion that an adjournment would be in order — at this time the Chief of Police asked to be recorded as having a reconsideration of Article 4 — Item 19 (Police) at the next meeting which would be Wednesday, March 11, 1964.

Motion made and seconded and voted at this time 11.05 P.M. to adjourn until March 11, 1964 at 8:15 P.M. at High School Winn Street.

MAUD S. GRAHAM,

Town Clerk

PROCEEDINGS AT ADJOURNED TOWN MEETING

March 11, 1964

Meeting called to order at 8:30 P.M. by the Moderator and as there was no objection the minutes of the previous meeting were waived along with the constable's return. The Moderator asked the non-voters to sit in the rear center of the hall and with the consent of the assembly announced that no new business would be taken up after 11:00 P.M. and that we adjourn at that time until Monday, March 16, 1964 at the High School, Winn Street, at 8:15 P.M.

Promptly the Chief of Police was on the floor to have Article 4 — Item 19 reconsidered. The Chief spoke at length on the item after motion was passed that same be taken up. There was a great deal of discussion on the item after a motion to have it referred to the Finance and Personnel Boards was lost. Unanimous vote at this time to stop debate. A further discussion was to limit each person who wished to speak to five minutes. The chief at this juncture made an amendment to change the figures on the clerk's salary from that of \$4,281.00 to \$3,852.00, this amendment was carried, making a total of \$178,927.00 for salaries and \$17,500.00 for expenses — making a grand total of \$196,427.00 for the Police Department.

MAUD S. GRAHAM,
Town Clerk

PROCEEDINGS AT ADJOURNED TOWN MEETING

March 25, 1964

The Moderator called the meeting to order at 8:25 P.M. and mentioned there was a quorum present — the reading of the minutes of the previous meeting and the constable's return were omitted by unanimous consent of the voters. The Moderator announced that when this meeting adjourned it adjourn until Wednesday, April 1, 1964 at 8:15 P.M.

Reconsideration of Article 19 is now before us.

Original motion — That the town raise and appropriate the sum of \$10,000.00 and authorize the Treasurer, with the approval of the Board of Selectmen, to issue \$4,840,00.00 in bonds or notes of the town under Chapter 645 of the Acts of 1948, as amended, for the purpose of acquiring land, for architectural fees, for legal fees, for necessary engineering in order to construct, originally equip and furnish two junior high schools.

A substitute motion was made to build 1 Jr. High School and raise and appropriate the sum of \$10,000.00 and authorize the Treasurer with approval of the Board of Selectmen to issue \$3,940,000.00 in bonds or notes, etc., for a Junior High School with 1800 pupils on one land site. At this point the Moderator explained the two motions. A motion was made that debate be limited to 20 minutes on the original motion for 2 schools — those in favor 247, those opposed 199. Motion lost. After hearing from 15 or more of the voters regarding their views on the schools we moved to the previous question — Debate now is on the 2nd motion for one school with 1800 pupils. After much discussion

on this motion with different expressions of ideas on same an amendment was made to the main motion which the Moderator did not entertain. Unanimously voted to stop debate on the substitute motion.

Question now on the substitute motion — (one school — 1800 pupils) Those in favor, 215 — those opposed, 287 — the motion was lost. Question on the original motion on 2 schools — requiring two-thirds vote — Those in favor, 295 — those opposed, 218. Motion was lost. At this point Mr. Looney made a new motion that the town raise and appropriate the sum of \$10,000.00 and authorize the treasurer, with the approval of the Board of Selectmen, to issue bonds or notes of the town in the sum of \$4,500,000.00, etc., for 1 — 1800 pupil capacity high school expandible to 2100 pupil capacity.

Substitute motion to the amendment that the town raise and appropriate the sum of \$10,000.00 and authorize the treasurer to borrow in bonds or notes the sum of \$2,490,000.00 to build one — 1200 pupil junior high school on Dobbins land and buy some Dobbins land for future construction. At this time the previous question was in order.

Article 19 was amended to raise and appropriate the sum of \$10,000.00 and authorize the Treasurer, with the approval of the Board of Selectmen, to issue \$2,490,000.00 in bonds or notes of the Town under Chapter 645 of the Acts of 1948 as amended, for the purpose of purchasing the Dobbins property, for necessary engineering in order to construct, originally equip and furnish one — 1200 Pupil Junior High School, and to purchase land adjacent to the Dobbins Property for the future erection of a Second Junior High School. 510 in favor and 3 opposed. Same to be spent under the direction of the Jr. High School Bldg. Com.

Article 20. Unanimously voted that the town raise and appropriate the sum of \$12,000.00 to meet the costs of preparing, issuing and marketing any bonds or notes, which may be issued pursuant to a vote under article 19, above.

Articles 21 and 22. (Referring to taking by eminent domain land of Dobbins and Quinn and raising funds for such purposes.) Dismissed, according to votes made, seconded and voted.

At this juncture, the chair entertained a motion made and seconded and voted that we adjourn until April 1, 1964 at the High School, Winn Street, 8:15 P.M. Time of adjournment, 11:40 P.M.

MAUD S. GRAHAM,

Town Clerk

Article 30. Motion made and seconded that the town direct the Town Clerk to turn over to the Town all moneys received as fees in the office of the Town Clerk commencing on January 1, 1965. An amendment was made to this motion that the Town Clerk retain the Fish and Game and Dog License fees. The amendment was passed.

Article 31. Voted that the town transfer from the sale of Graves Account the sum of \$8,700.00 to erect and equip a new Cemetery Garage, same to be spent under the direction of the Cemetery Commissioner.

Article 32. Voted that the town raise and appropriate the sum of \$3,300.00 for the purchase of a truck for the Cemetery Department, same to be spent under the direction of the Cemetery Commissioners.

Article 33. (Contracting with the U.S. Gov. for a detailed interpretative Soil Survey Report). Motion made and seconded that this article be dismissed.

Substitute motion that the town vote to raise and appropriate the sum of \$1,300.00 for the purpose of contracting with the U.S. Department of Agriculture Soil Conservation Service for a detailed interpretative soil survey report, same to be spent under the direction of the Planning Board.

Article 34. (Regional Vocation School District Planning Committee (unpaid)). Motion made and seconded that the town vote to create a special unpaid committee to be known as the Regional Vocation School District Planning Committee, to consist of three members, including one member of the School Committee, all to be appointed by the Moderator, which committee may join with a comparable committee or committees, from one or more neighboring towns and/or city, to form a regional vocational school district planning Board for the purpose of studying the advisability of establishing a regional vocational school district, and making recommendations, relative thereto, pursuant to Chapter 71, of the General Laws, Section 14 to 161 inclusive. An amendment was made to include the words "within thirty days of the

adjournment of the annual town meeting." Voted as amended.

At this time a motion was made and seconded and voted that we adjourn this meeting at 10:55 P.M. until April 6, 1964 at the High School, Winn St. at 8:15 P.M.

MAUD S. GRAHAM,

Town Clerk

PROCEEDINGS AT ADJOURNED TOWN MEETING

April 6, 1964

Article 35. Voted that the town accept the alteration and relocation of Lexington Street shown on a plan entitled "Relocation of Lexington Street, Town of Burlington, Mass." dated December 20, 1963, by Raymond C. Pressey, Inc., Registered Land Surveyors & Engineers, as laid out by the Selectmen and reported to the Town and filed in the office of the Town Clerk, and the Selectmen be and hereby are authorized in the name of and on behalf of the Town to take by eminent domain such lands, rights and easements as may be necessary for the purposes of said alteration and relocation.

Article 36. Motion made and seconded that the town vote to discontinue as a public way, insofar as and to the extent that the same has not heretofore been discontinued, so much of what was Lexington Street prior to the acceptance at this meeting of the relocation thereof by the Selectmen as lies Southerly of the Southerly line of said relocation of Lexington Street, and respectively, Northerly of the Northern Circumferential Highway (Route 128) and Easterly of the Middlesex Turnpike.  - (b) Any such motel or Motor Hotel shall comply with all applicable building laws of the town.
 - (c) The minimum lot size for any such Motel or Motor Hotel shall be 120,000 square feet.

- (d) Not more than 40 percent of the lot area shall be covered by buildings.
- (e) No living floor area shall be less than 20,000 square feet
- (f) No sleeping rooms shall be located below the mean finished grade of the ground adjoining the buildings nor above the second story of any building.
- (g) No building shall exceed two and one-half stories in height, with a maximum height of 40 feet, exclusive of cellars.
- (h) There shall be parking space for automobiles provided on the lot sufficient to furnish one and one-half reasonably accessible automobile spaces per sleeping unit, plus reasonably adequate provisions for persons dining or attending functions in the building or buildings.
- (i) Front Yard — There shall be provided a front yard of not less than 100 feet in depth on each street on which the lot abuts. Within such 100 feet from each street, there shall be permitted only (1) green areas of grass, plants, shrubs and trees, (2) walks, driveways and parking facilities occupying not more than 25 percent of the front yard area, and (3) gates of security stations.
- (j) Side-yard — There shall be provided a side-yard of not less than 50 feet in width which may include a driveway.
- (k) Rear-yard — There shall be provided a rear yard of not less than 35 feet in depth.
- (l) Frontage — There shall be provided a frontage of not less than 200 feet upon the frontage street.

5. Any use accessory to the foregoing, as defined in

Section VII. No use shall be permitted under this Section XI which would be offensive because of noxious or injurious noise, vibration, smoke, gas, fumes, odors, dust or other objectionable features that would be hazardous to the community on account of fire or explosion or any other cause.

No permit shall be granted under this or any other section for any purpose that would prove injurious to the safety of the neighborhood into which it proposes to go, or destructive of property values because of excessive nuisance qualities.

Article 39. Unanimously voted that the town amend Section 10 of Article IV of the ByLaws so as to read as follows:

“Section 10 — If any new structure is constructed within (15) feet of an adjoining property line, the wall (exclusive of openings for windows, doors, heating, cooling, and ventilating equipment and other purposes accessory to such structure) of such structure nearest such property line shall be of a fire resisting wall.”

Article 40. Unanimously voted that the town amend the first sentence of Section XIII of the Zoning By-Laws of the town so as to read as follows:

In business and industrial districts no buildings or structure shall be built, reconstructed or extended within ten feet of the lot lines on the sides unless its outside walls are of fireproof construction and any openings in such walls are protected by a suitable fire resistive door or shutter or water curtain device, subject to the approval of the Building Inspector.

Article 41. Unanimously voted that the town re-zone from Residence “B” to Industrial zone property

owned by High Voltage Engineering Corporation and described as follows:

Beginning at a point on the westerly side of South Bedford Street approximately 145 feet south of Wayside Road, the property is bounded by a line running south-westerly approximately 957 feet to a point and then southeasterly approximately 214.5 feet to a point then northeasterly along South Bedford Street 297 feet to the point of origin.

Article 42. Motion made that the town vote to take the necessary action to install underground piping and re-cover such piping with solid earth fill in place of the present drainage ditch along the Northwesterly bound of Lots 29 to 38 inclusive on Ronald Road, said Lots being shown on land Court plan #26214A, sheet 2, a copy of which is on file with the Registered Land Section of Middlesex South District Deeds with Certificate of Title #100350, Book 631, Page 200, and to appropriate the necessary money to perform such work.

The finance committee recommended that this article be postponed indefinitely. A substitute motion was made that a chain link fence be installed around the present drainage ditch at a cost of \$5,000.00 on Ronald Road, which was not carried. The matter was referred to the Planning Board for further study and to be reported on at the next Special Meeting.

At this point the people were beginning to vacate and the Moderator asked that they please remain to take up articles 43, 44 and 45. (10:55 P.M.)

Article 43. Motion made that the town vote to raise and appropriate or transfer from available funds, a sum of money for remodelling, moving and repairing or purchase of the old schoolhouse and land on the corner of

Francis Wyman Road and Bedford Street, as more fully shown on a plan on file with the Town Clerk, same to be spent under the direction of the Havenhille Schoolhouse Committee and the Park Commissioners.

There was discussion on this article and when the vote was taken there were 65 in favor and 76 opposed and the motion was lost.

Article 44. Motion that the town vote to raise and appropriate or transfer from available funds a sum of money to install a chain link fence along Saw Mill Brook in the vicinity of Cresthaven Drive — as more fully shown on a map on file with the Town Clerk. An amendment was to include a chain link fence appropriation in the amount of \$2,600.00 for installation. A substitute motion was to the effect that this motion be referred to the Planning Board for their consideration and report back at the next meeting. This motion was carried.

Motion was made at this time to adjourn but was not voted.

MAUD S. GRAHAM,

Town Clerk

WARRANT FOR SPECIAL TOWN MEETING

Monday, September 14, 1964

THE COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

To either of the Constables of the Town of Burlington,
in the County of Middlesex,

GREETING

IN THE NAME of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town affairs, to meet at the New High School, Winn Street, in said Burlington, on Monday, the fourteenth day of September, next, at 8:00 o'clock in the afternoon, then and there to act upon the following articles:—

Article 1. To see if the Town will vote to transfer a sum of money from the Legal & Engineering Fees Account to the Chapter 32B Insurance Account, same to be spent under the direction of the Board of Selectmen, or do or act anything in relation to the same.

Article 2. To see if the Town will vote to transfer a sum of money from the Insurance Account to the Rubbish & Garbage Account, same to be spent under the direction of the Board of Selectmen, or do or act anything in relation to the same.

Article 3. To see if the Town will vote to transfer

a sum of money from the Insurance Account to the Town Aid to Dependent Children Account, same to be spent under the direction of the Board of Welfare, or do or act anything in relation to the same.

Article 4. To see if the Town will vote to transfer a sum of money from the Insurance Account to the Town Old Age Assistance Account, same to be spent under the direction of the Board of Welfare, or do or act anything in relation to the same.

Article 5. To see if the Town will vote to transfer a sum of money from the 1963 Police Cruiser Account to the Elections & Registrations Account, same to be spent under the direction of the Board of Selectmen, or do or act anything in relation to the same.

Article 6. To see if the Town will confirm the vote of the March 1964 Annual Town Meeting to accept from the Trustees, under the will of Marshall Simonds, the sum of \$5,500.00 for the maintenance and improvement of Simonds Park, same to be spent under the directions of the Park Commissioners, or do or act anything in relation to the same.

Article 7. To see if the Town will amend the vote taken under Article 19 of the Adjourned Special Town Meeting on October 22, 1963 relating to the creation of a Future School Building Needs and Sites Committee, or do or act anything in relation to the same.

Article 8. To see if the Town will vote to transfer a sum of money from the School Vocational Expense Account to the Future School Sites Acquisition Account, for the purpose of obtaining options on land, sites, sur-

veys, borings, soil tests and any other matters incidental thereto, same to be spent under the direction of the Future School Building Needs and Sites Committee, or do or act anything in relation to the same.

Article 9. To see if the Town will vote to transfer a sum of money from the School Vocational Expense Account to the Future School Building Needs & Sites Committee Expense Account, same to be spent under the direction of the Future School Building Needs & Sites Committee, or do or act anything in relation to the same.

Article 10. To see if the Town will vote to establish a Standing School Building Committee to be available, when authorized by the Town, to make or procure sketches, plans, elevations, models, printed reports, designs and visual aids, and other inquiries, employ consultants, engineers, architects and others, acquire and prepare plans and designs, supervise the original equipping and furnishing of new schools, supervise the making of alterations in and renovations to existing school buildings, supervise the construction of new school buildings, and let such contracts for new schools or enlargements, renovations, or alterations to existing school facilities to such extent as the committee may deem necessary or proper to assist it in formulating its recommendations and making its report to the Town; the plans and specifications in each instance to be subject to the approval of the School Committee.

Said committee shall consist of nine (9) registered voters of the Town to be appointed as follows: 3 appointed by the School Committee, 2 appointed by the Moderator, 2 appointed by the Selectmen, 1 appointed by the Finance Committee, and 1 appointed by the Planning Board, and with the Superintendent of Schools as an ex officio member who shall be entitled to be pres-

ent in person or by a representative duly designated by him at all meetings of the committee but without voting power. A quorum shall consist of a majority of the number of members appointed at any one time.

The members shall serve as follows: 3 for 3 years: one to be appointed by the School Committee, one by the Moderator, and one by the Selectmen; 3 for 2 years; one to be appointed by the Planning Board, one by the Finance Committee, and one by the School Committee; 3 for 1 year; one to be appointed by the School Committee, one by the Moderator, and one by the Selectmen. As the term of office expires after the Annual Town Meeting, appointments shall be made for 3 years by the officer, board or committee making the original appointment, and vacancies in said committee shall be filled in like manner. The Chairman and Vice-Chairman of said committee shall be elected by and from the membership of said committee each year.

Said committee shall annually report its findings and recommendations to the Town in writing; said report to be published in the Annual Town Report. Said committee shall have no jurisdiction over any existing school building committees, or do or act anything in relation to the same.

Article 11. To see if the Town will vote to build an Elementary School and transfer from the School Vocational Expense Account to the New Elementary School Construction Account a sum of money for the purpose of obtaining an option on land for sites, architect's fees, legal fees, surveys, borings, soil tests, obtaining information on costs, and financial assistance from the State and other sources and any other matters incidental thereto, same to be spent under the direction of the Standing School Building Committee, or do or act anything in relation to the same.

Article 16. To see if the Town will amend the vote which was passed on March 25, 1964 under Article 19 of the warrant for the 1964 annual town meeting and which related to the construction of a Junior High School.

Article 17. To see if the Town will appropriate a

sum of money or allocate a portion of any appropriation that may be made under Article 16 above in order to acquire by purchase or by taking by eminent domain for school purposes one of the following described parcels of land:

1. Approximately 22½ acres owned by Quinn, being lots No. 1 through No. 6, No. 38 through No. 64, No. 82 through No. 89 and No. 115 through No. 122, as shown on a Plan of Land, dated September 28, 1955, by Northeastern Engineering Associates, recorded in Middlesex South Deeds, Book 8989, Page 384.
2. Approximately 18.5 acres of land owned by Dobbins, as shown on a Plan of Land, dated February 10, 1964, by Drumney, Rosane and Anderson, bounded on the Northeast by land of the Roman Catholic Archbishop of Boston, on the North by land of the Town of Burlington, on the East by land of Nadolny and Zanko, and on the South and West by land now or formerly of Bushmick.

and determine whether any appropriation for this purpose shall be raised by transfer from available funds, by borrowing, or by any combination of those methods, or take any other action in relation to the acquisition of such land.

(Both Plans of Land are on file with the Town Clerk).
Or do or act anything in relation to the same.

Article 18. To see if the Town will confirm the vote which was passed on April 1, 1964 under Article 27 of the Warrant for the 1964 Annual Town Meeting and which appropriated \$9,950.00 for buying a site for a new Town Library, or do or act anything in relation to the same.

Article 19. To see if the Town will confirm the vote which was passed on April 1, 1964 under Article 28 of the Warrant for the 1964 Annual Town Meeting and which appropriated \$10,000.00 and authorized the borrowing of \$349,050.00 for constructing a new Town Library, or do or act anything in relation to the same.

Article 20. To see if the Town will vote to ratify the action of the Board of Selectmen in advertising for bids for the installation of footings for portable classrooms and in awarding and executing a contract for the same, or do or act anything in relation to the same.

Article 21. To see if the Town will direct the Moderator to appoint a Committee of Nine (9) Members to study the existing Town By-Laws, to make recommendations to update and/or revise them and submit their recommendations to a Special Town Meeting held in 1965, subsequent to October 1, 1965, or the regular 1966 Town Meeting, or do or act anything in relation to the same.

Article 22. To see if the Town will vote to amend the By-Laws by adding the following

ARTICLE XIV APPOINTIVE OFFICES

Section 1. If any authorized appointment to a Town Board, Commission, or Committee has not been made within forty-five days after that appointment was authorized to have been made, the Board, Commission or Committee thus lacking members may thereafter fill those vacancies by an affirmative vote of the majority of the total number of authorized members (including vacancies) of that body, provided that, each member of that body has been given at least a five day notification by

mail of the meeting and the intention to vote upon filling those vacancies at that meeting, or do or act anything in relation to the same.

Article 23. To see if the Town will vote to authorize the Selectmen in the name and behalf of the Town to sell and convey to the First Federal Savings and Loan Association of Lowell, a United States corporation having a place of business in Burlington, Middlesex County, Massachusetts, the land of said Town of Burlington abutting premises presently owned and occupied by said First Federal Savings and Loan Association of Lowell situated on Center Street and being further bounded and described as follows:

NORTHWESTERLY by land of the First Federal Savings and Loan Association of Lowell, one hundred forty-one and $76/100$ (141.76) feet;

NORTHWESTERLY again, still by said land of said First Federal Savings and Loan Association of Lowell and stone wall, one hundred four and $40/100$ (104.40) feet;

NORTHEASTERLY by land of the Town of Burlington, one hundred seven (107) feet; and

SOUTHEASTERLY by said land of Town of Burlington by two courses respectively measuring one hundred eighteen (118) feet and sixty-three (63) feet.

Being the same premises shown as containing 5700 square feet of land on a plan entitled "Plan of Land in Burlington, Mass., dated June 10, 1964" by Charles F. Kennedy, Registered Land Surveyor, or do or act anything in relation to the same.

Article 24. To see if the Town will vote to rezone

from residence to business zone, a parcel of land owned by Raymond J. Shea and Mary R. Shea of Center Street, Burlington, said parcel of land being situated on Center Street; containing 24,160 square feet of land more or less and bounded as follows:

NORTHWESTERLY by land owned by the Town of Burlington, ninety and $32/100$ (90.32) feet;

NORTHEASTERLY by land of McIntire, one hundred eighty-five and $96/100$ (185.96) feet;

SOUTHEASTERLY by Sears Street, one hundred fifty-four and $21/100$ (154.21) feet;

SOUTHWESTERLY by Center Street, one hundred seventy-two and $13/100$ (172.13) feet.

All as more clearly shown on a plan on file with the Town Clerk.

Article 25. To see if the Town will vote to rezone from residence to business zone a parcel of land owned by Robert U. Johnsen and Elizabeth E. Johnsen, said parcel of land being situated at 209 Cambridge Street. All as more clearly shown on a Plan on file with the Town Clerk, or do or act anything in relation to the same.

Article 26. To see if the Town will vote to rezone from Residence to Industrial Zone a parcel of land owned by Graham Associates, located in the westerly part of Burlington. Bounded by the following:

WESTERLY by the Middlesex Turnpike

NORTHERLY by land of: McGrory, Owens, Canning, Welch, DeBroyne, Gorman, Gauthier, Allen, Iverson, McCarthy, Kulda and Neiman

NORTHEASTERLY by land of: Currier, Robinson, Costello, Texieras, Zwicker, Tollefson, Seifert, Williams, Mazzolla and other land of Graham Associates, Inc.

SOUTHEASTERLY by land of Thomas Quinn Co., Inc.

SOUTHERLY by Terrace Hall Avenue

SOUTHWESTERLY by Raimando.

All as more clearly shown on a plan on file with the Town Clerk, or do or act anything in relation to the same.

Article 27. To see if the Town will vote to adopt the following By-Law:

“No person shall remove any soil, sod, loam, sand, clay or gravel from any land in the Town of Burlington, not in public use, unless such removal is authorized by a permit issued by the Board of Appeals, except in conjunction with construction of a building or buildings on the parcel for which a building permit has been issued by the Building Inspector.

No such permit shall be issued until an application therefor is filed with said Board and said Board has held a public hearing on the application and notice of the filing of such application and the date and time of public hearing thereon, shall be advertised in a paper published in the Town of Burlington, twenty-one (21) days at least, before the public hearing. No permit shall be granted by the Board of Appeals without considering the effect upon the neighborhood and Town at large”, or do or act anything in relation to the same.

Article 28. To see if the Town will amend its Zoning Laws by inserting in the first sentence of Section XI, Paragraph 3, of the Zoning Laws, after the word “manufacturing”, the following:

“or incinerators, publicly or privately operated”, so that the sentence will read:

3. Research Laboratories or light manufacturing or incinerators, public or privately operated, employing electricity or other unobjectionable motive power, machinery or processes free from objectionable odor, or do or act anything in relation to the same.

Article 29. To see if the Town will vote to amend the Zoning Laws of the Town of Burlington by adding thereto the following:

SECTION XXIII. SIGNS AND ADVERTISING DEVICES

PART A. PURPOSE

This section is adopted by the Town for the regulation and restriction of billboards, signs and other advertising devices within the Town.

PART B. DEFINITIONS

For the purpose of this section the following words and terms used herein are hereby defined:

(1) Sign: The Word “sign” shall include any letter, word, symbol, drawing, picture, design, device, article and object that advertises, calls attention to or indicates any premises, person, or activity, whatever the nature of the material and manner of composition or construction.

(2) Accessory sign: Any billboard, sign, or other

advertising device that advertises, calls attention to, or indicates the person occupying the premises on which the sign is erected or the business transacted thereon, or advertises the property itself or any part thereof as for sale or to let, and which contains no other advertising matter.

(3) Non-Accessory Sign: Any billboard, sign, or other advertising device that does not come within the foregoing definition of an accessory sign.

(4) Standing Sign: The term "standing sign" shall include any and every sign erected on or affixed to the land and any and every exterior sign that is not affixed to a building.

(5) Zoning By-Law: The Zoning By-Law of the Town of Burlington as from time to time in force and effect.

(6) Inspector of Buildings: The Inspector of Buildings appointed under the provisions of the Building Regulations of the Town of Burlington as now or hereafter in force and effect.

(7) Board of Appeals: The Board of Appeals established or operating in the Town of Burlington under the Zoning Enabling Act, or any amendment thereof, or addition thereto.

(8) Business Area: Any area within a district zoned primarily for business or commercial purposes under the Zoning By-Law. It does not include any area within a district zoned for residential purposes under said Zoning By-Law, as hereinafter defined, regardless of whether the area is being lawfully used or is available for such use through a special permit or a variance granted by the Board of Appeals or through a non-conforming use or by any other means.

(9) Residential Area: A residential area is any

area situated within a district zoned primarily for residential purposes under the Zoning By-Law. It includes Residence A Districts and Residence B Districts.

(10) **Parking Area:** A public parking area or a private parking area that is open to the parking of motor vehicles by customers of the store.

(11) **Store:** A “store” shall include any establishment, office or place of business.

(12) **Street:** Any public way or private way that is legally open to public use.

(13) **Size:** In applying the maximum height, width and area limitations prescribed in this section for signs, any intermediary removable surface to which a sign is affixed shall be deemed to be a part of the sign.

(14) **Erected:** The word “erected” shall include the words attached, built, constructed, reconstructed, altered, enlarged, and moved.

(15) **Person:** The word “person” shall include one or more individuals, a partnership, an association and a corporation.

PART C. REGULATIONS AND RESTRICTIONS

Subpart 1. Residential Areas.

No non-accessory sign shall be erected or maintained in a residential area.

Subpart 2. Business Areas.

a. Accessory Signs.

1. In business areas accessory signs that comply

with the provisions hereinafter set forth are permitted. All other accessory signs are expressly prohibited.

a. Location. A sign shall be affixed to a building except as hereinafter provided. A sign affixed to building shall be securely affixed to one of the walls or a roof of the building. If affixed to a wall and parallel to said wall, it shall be parallel with and not project more than twelve (12) inches from such wall and shall not project beyond the face of any other wall of the building. If affixed to a roof and parallel with the front wall of the store, it shall not project beyond the face of any wall of the building. No sign, whether affixed to a wall or a roof of a building, shall project above the highest line of the main roof of the building, provided however, that if a sign is attached to a wall having a parapet extending above the highest line of such roof, then the sign may reach but may not project above the top of such wall.

b. Size. A sign not parallel to a wall of a building shall not exceed twelve (12) square feet in area. A sign parallel to one wall of a building shall not be more than three (3) feet overall in height. A sign on the exterior wall of the first floor of a building may extend across the full width of the store wall. The width of signs of stores occupying other than the first floor of a building shall not exceed six (6) feet.

c. Number. There shall be not more than (1) exterior sign for each store, except that if the store has a direct entrance into the store in a wall other than the store front, there may be a secondary sign affixed to such wall, and if the store has a wall, other than the store front, that faces upon a street or parking area, there may be a secondary sign affixed to such wall whether or not such wall contains an entrance to the store. The secondary sign or signs shall not exceed in the aggregate fifty (50) percent of the maximum permissible width of the sign on the store front. In addition to the fore-

going sign or signs there may be one directory of the occupants or tenants of the building at each entrance to the building. Such directory shall not exceed an area determined on the basis of one (1) square foot for each occupant or tenant of the building.

d. Special signs. In particular instances the Board of Appeals may permit more than the number of signs hereinabove permitted or signs of a maximum size or in a location other than hereinabove specified, if it determines that the architecture of the building, the location of the building with respect to the street or the nature of the use being made of the store is such that an additional sign or signs of a larger maximum size should be permitted in the public interest. However, any such sign shall not exceed one hundred fifty (150) square feet in area; or twenty (20) feet in any dimension, or thirty (30) feet in height from the ground. No such sign shall be within fifteen (15) feet of any property boundary line.

e. Construction. No sign shall be painted or posted directly on the exterior surface of any wall, including windows and doors. All signs must be painted, posted or otherwise securely affixed to a substantial intermediary removable surface and such surface shall be securely affixed to a wall of the building. The foregoing, however, shall not prevent the installation of a sign by individual letters or devices cut into or securely affixed to the exterior wall of a building, provided that such letters have a minimum depth or projection of one fourth ($\frac{1}{4}$) of an inch. The material of the sign and intermediary surface and the manner of affixation of the sign to the intermediary surface and of the intermediary surface to the wall of the building shall be subject to the approval of the Inspector of Buildings for the purpose of protecting the safety of the public.

f. Illumination. Moving and flashing lights are prohibited. No red or green lights shall be used if, in the

opinion of the Inspector of Buildings, such a light would create a driving hazard.

The provisions of this paragraph shall apply not only to exterior signs but also to interior signs that are designed or placed so as to shine through windows or doors of a building.

g. Movement. No sign, any part of which moves or is designed to move shall be permitted, except such portions of a sign as consist solely of indicators of time or temperature.

h. Standing Signs. Standing signs are prohibited, except as follows:

(1) In particular instances the Board of Appeals may permit standing signs if it determines that the nature of the use of the premises, the architecture of the building, or the location of the building with reference to the street is such that a standing sign or signs should be permitted in the public interest. However, any such sign shall not exceed one hundred fifty (150) square feet in area; or twenty (20) feet in any dimension; or thirty (30) feet in height from the ground. No such sign shall be within fifteen (15) feet of any property boundary line. In granting such permission, the Board of Appeals shall specify the size, type and location of the sign and impose other terms and restrictions as it may deem to be in the public interest.

(2) During the construction of a building a standing sign may be erected on the premises identifying the building, the owner, the contractors, the architects or the engineers but such sign shall not exceed twenty (20) square feet in surface area nor ten (10) feet in any dimension. Such sign shall be removed promptly upon completion of the building.

i. Gasoline Filling Stations and Garages. Gasoline filling stations and garages may, if they elect to do so, divide the one exterior sign affixed to the front wall of

the building, to which they are entitled as hereinabove provided, into separate signs affixed to and parallel to such wall and indicating the separate operations or departments of the business, provided however that the total of the widths of the separate signs shall not exceed the maximum width permitted under this By-Law for a single exterior sign on such wall. In addition, one sign, standing or otherwise, indicating the company whose gasoline is being sold may be erected of such type, in such location, and in such manner as the Board of Appeals may permit. However, any such sign shall not exceed one hundred and fifty (150) square feet in area; or twenty (20) feet in any dimension, or thirty (30) feet in height from the ground. The standard type of gasoline pump bearing thereon in usual size and form the name or type of gasoline and the price thereof shall not be deemed to be in violation of this section. Temporary or movable signs of any kind and every type are specifically prohibited.

j. Maintenance. All signs whether erected before or after the effective date of this section shall be maintained in a safe condition to the satisfaction of the Inspector of Buildings.

b. Non-Accessory Signs

No non-accessory sign shall be erected or maintained in a business area except as permitted under a permit lawfully issued and remaining in full force and effect, by the Outdoor Advertising Board, or by any board or official succeeding to its authority in the administration of Sections 29 to 33 inclusive of Chapter 93 of the General Laws, or any act in addition thereto or in amendment thereof.

PART D. ADMINISTRATION

Subpart 1. Permits

No sign shall be erected on the exterior of any build-

ing or on any land unless and until an application for the erection of such sign has been filed with the Inspector of Buildings, with such information and drawings as he may require, and a permit for the erection of the sign has been issued to him. The fee for such permits shall be determined by the Board of Selectmen of the Town. The provisions of this subpart shall not apply to:

a. In residential areas — to permitted signs except such as by the terms of this section or any other section of the Zoning By-Law are permitted only with specific permission from the Board of Appeals.

b. In areas other than residential — one real estate sign of not over six (6) square feet in total area advertising the sale or rental of the premises on which it is located.

Subpart 2. Appeal.

A person aggrieved by the refusal of the Inspector of Buildings to issue a permit for the erection of a sign or by any order of the Inspector under this section may appeal to the Board of Appeals. The provisions of the Zoning By-Law as to the time for taking such appeal and as to the notice of and hearing thereon to be held by the Board of Appeals shall apply to appeals under this section.

Subpart 3. Enforcement.

The Inspector of Buildings is hereby designated and authorized as the officer charged with the enforcement of this section and the provisions of the Zoning By-Law in reference to the enforcement of the Zoning By-Law shall apply also the enforcement of this section.

PART E. MISCELLANEOUS

Subpart 1. Non-conforming Signs.

Signs legally erected before the adoption of this section that do not conform to the provisions of this sec-

PROCEEDINGS AT SPECIAL TOWN MEETING

September 14, 1964

The special town meeting was called to order at 8:35 P.M. by the Moderator — with a check in of voters numbering 762. The Moderator with the consent of the body waived the reading of the constable's return. The non-voters were seated on platform with Moderator.

Article 1. Voted that the town transfer the sum of \$1,500.00 from the Legal and Engineering Fees Account to the Chapter 32B Insurance Account, same to be spent under the direction of the Board of Selectmen.

Article 2. Voted that the town transfer the sum of \$3,300.00 from the Insurance Account to the Rubbish & Garbage Account, same to be spent under the direction of the Board of Selectmen.

Article 3. Voted that the town transfer the sum of \$5,000.00 from the Insurance Account to the Town Aid to Dependent Children Account, same to be spent under the direction of the Board of Public Welfare.

Article 4. Voted that the town transfer the sum of \$9,000.00 from the Insurance Account to the Town Old Age Assistance account, same to be spent under the direction of the Board of Public Welfare.

Article 5. Voted that the town transfer the sum of \$2,274.48 from the Police Cruiser Account to the Elections & Registrations Account, same to be spent under the direction of the Board of Selectmen.

Article 6. Unanimously voted that the town confirm

the vote of March 1964 Annual Town Meeting to accept from the Trustees, under the Will of Marshall Simonds, the sum of \$5,500.00 for the maintenance and improvement of Simonds Park, same to be spent under the direction of the Park Commissioners.

After Article 6 was disposed of a motion was made to take up articles 16 and 17 which required a two-thirds vote. Time: 8:45 P.M. Motion was also made to adjourn the town meeting and convene the Water District and return to Special meeting after conclusion of water meeting. This motion was lost, and there was much discussion on taking up articles 16 and 17 which was lost by a vote of 420-238 for a suspension of rules to act on these articles.

Article 7. Voted that the town amend the vote taken under Article 19 of the Special town meeting on October 22, 1963 relating to the creation of a Future School Building Needs and Sites Committee and to give them authority to obtain option on lands, sites, surveys, borings, soil tests and any other matters incidental thereto.

Article 8. Voted that the town transfer the sum of \$300.00 from the School Vocational Expense Account to the Future School Sites acquisition account, for the purpose of obtaining options on land, sites, surveys and borings, soil tests and any other matters incidental thereto same to be spent under the direction of the Future School Building Needs & Sites Committee.

At this time a motion was made and seconded to take up article 26 regarding re-zoning, which was lost by a vote of 519-129. Motion was also made at this time, 9:40 P.M. to adjourn our meeting and take up the Water District meeting. So voted.

At 10:10 P.M. the Special town meeting was again called by the Moderator with Article 9 before the assembly.

Article 9. Voted that the town transfer the sum of \$100.00 from the School Vocational Expense Account to the Future School Building Needs & Sites Committee Account, same to be spent under the direction of the Future School Building Needs & Sites Committee.

Article 10. Voted that the town establish a Standing School Building Committee, to be available, when authorized by the Town to make or procure sketches, plans, elevations, models, printed reports, designs and visual aids and other inquiries, employ consultants, engineers, architects and others, acquire and prepare plans and designs, supervise the original equipping and furnishing of new schools, supervise the making of alterations in and renovations to existing school buildings, supervise the construction of new school buildings, and let such contracts for new schools or enlargements, or renovations, or alterations to existing school facilities to such extent as the committee may deem necessary or proper to assist it in formulating its recommendations and making its reports to the Town; the plans and specifications in each instance to be subject to the approval of the School Committee.

Said committee shall consist of nine (9) registered voters of the Town to be appointed as follows: 3 appointed by the School Committee, 2 appointed by the Moderator, 2 appointed by the Selectmen, 1 appointed by the Finance Committee and 1 appointed by the Planning Board, and with the Superintendent of Schools as an ex-officio member who shall be entitled to be present in person or by a representative duly designated by him at all meetings of the committee but without voting power. A quorum shall consist of a majority of the number of members appointed at any one time.

The members shall serve as follows: 3 for 3 years, one to be appointed by the School Committee, one by the Moderator, and one by the Selectmen: 3 for 2 years: one

to be appointed by the Planning Board, one by the Finance Committee, and one by the School Committee: 3 for 1 year: one to be appointed by the School Committee, one by the Moderator, and one by the Selectmen. As the term of office expires after the Annual Town Meeting, appointments shall be made for 3 years by the officer, board or committee making the original appointment, and vacancies in said committee shall be filled in like manner. The Chairman and Vice-Chairman of said committee shall be elected by and from the membership of said committee each year.

Said committee shall annually report its findings and recommendations to the Town in writing: said report to be published in the Annual Town Report. Said committee shall have no jurisdiction over any existing school building committees. The above vote with the amendment that said appointments shall be made within thirty days after the acceptance of this article.

After article 10 was disposed of a motion was made and seconded and voted that article 20 be taken up at this time to ratify the action of the Board of Selectmen in advertising for bids for footings for portable classrooms, etc.

A substitute motion was voted that the Board of Selectmen be authorized to advertise for bids for the installation of footings for portable classrooms and in awarding and executing a contract for the same.

Arter article 20 was taken up a motion was made and seconded and voted that we adjourn until 8 o'clock Wednesday evening at the High School, Winn Street. Those checked in 762. Time: 11:10 P.M.

MAUD S. GRAHAM,

Town Clerk

ADJOURNED SPECIAL TOWN MEETING

September 16, 1964

The Moderator called the meeting to order at 8:25 P.M. and with full consent of the voters the minutes of the previous meeting and the constable's return were not read. The non-voters were requested to sit on the platform during the evening. It was voted that no new business be taken up after 11 P.M. and when we adjourn we do so until September 21, 1964 at 8 P.M. at the High School, Winn Street.

Article 11. Voted that the town build an elementary school and transfer from the School vocational expense account to the new elementary school construction account the sum of \$1,500.00 for the purpose of obtaining an option on land for sites, architect's fees, legal fees, surveys, borings, soil tests, obtaining information on costs and financial assistance from the State and other sources and any other matters incidental thereto, same to be spent under the direction of the Standing School Building Committee.

Article 12. Voted that the town transfer the sum of \$100.00 from the School Vocational Expense account to the Standing School Building Committee expense account, same to be spent under the direction of the Standing School Building Committee.

Articles 13, 14 and 15 were voted dismissed.

Article 16. It was moved and seconded that the vote which was passed on March 25, 1964 under Article 19 of the warrant for the year 1964 Annual Town Meeting is hereby amended to read as follows:

That the sum of \$2,500,000.00 is appropriated for acquiring a site and for constructing, originally equipping and furnishing a 1200 pupil capacity Junior High School: that to raise this appropriation the sum of \$10,000.00 shall be included in the 1964 tax levy and the Treasurer, with the approval of the Selectmen, is authorized to issue \$2,490,000.00 bonds or notes of the Town under Chapter 645 of the Acts of 1948 as amended and that the Junior High School Building Committee is authorized to take all action necessary to carry out this project. Unanimously voted.

Article 17. It was moved and seconded that \$100,000.00 of the sum appropriated under Article 19 of the warrant for the 1964 Annual Town Meeting (as said vote has been amended pursuant to Article 16 of the warrant for this meeting) is allocated for acquiring by purchase or taking by eminent domain for school purposes for the following described parcel of land:

Approximately 22½ acres owned by Quinn, being Lots No. 1 through No. 6, No. 38 through No. 64, No. 82 through No. 89 and No. 115 through No. 122, as shown on Plan of Land, dated September 28, 1955 by Northeastern Engineering Associates, recorded in Middlesex South Deeds, Book 8989, Page 384.

A substitute motion moved and seconded that \$58,000.00 of the sum appropriated under Article 19 of the warrant for the 1964 Annual Town Meeting (as said vote has been amended pursuant to Article 16 of the warrant for this meeting) is allocated for acquiring by purchase or taking by eminent domain for school purposes the following described parcel of land:

Approximately 18.5 acres of land by Dobbins, as shown on a Plan of Land, dated February 10, 1964, by Drumney, Rosane and Anderson, bounded on the north-east by land of the Roman Catholic Archbishop of Boston,

on the north by land of the Town of Burlingtn, on the east by land of Nadolny and Zanko, and on the south and west by land now or formerly by Bushmick.

The substitute motion was lost by a vote of 87 in favor and 432 opposed.

The main motion was carried by a vote of 449 in favor and 43 opposed.

Motion for reconsideration of Article 17 in its entirety was made which was lost. Immediately a suspension of rules was asked for to take up article 26 — same was lost — by a vote of 106 in favor and 406 opposed. At this time a recess was called before we took up article 18 — time: 9:45 P.M. At 9:55 P.M. the adjourned town meeting reconvened and the Moderator proceeded with the meeting.

Article 18. Motion that the town confirm the vote which was passed on April 1, 1964 under Article 27 of the warrant for the 1964 Annual town meeting and which appropriated \$9,950.00 for buying a site for a new Town Library. There was a great deal of debate on this article and vote to confirm same was lost — those in favor 283 — those opposed, 181. At this time a motion to reconsider same was carried by a vote of 297 in favor and 191 opposed, which brought article 18 before the people. There was still more discussion and Mr. Ward our Selectman, wished to inform the voters that the money had already been included in our budget and should be voted. By unanimous vote debate was ended. By a vote of 397 in favor and 129 opposed the vote was confirmed.

Article 19. Motion made and seconded that the town vote that the vote which was passed on April 1, 1964

under Article 28 of the warrant for the 1964 annual town meeting and which appropriated \$10,000.00 and authorized the borrowing of \$349,050.00 for constructing a new town library is confirmed in all respects.

There was much discussion on this article and it was voted by 361 in favor and 129 opposed, to confirm this vote in all respects.

Motion made and seconded and voted that we adjourn this meeting until September 21, 1964, 8 P.M. at the High School, Winn Street.

MAUD S. GRAHAM,

Town Clerk

ADJOURNED SPECIAL TOWN MEETING

September 21, 1964

The Moderator called the meeting to order at 8:12 P.M. at new High School, Winn Street. There was a quorum present. It was voted that the reading of the minutes of the last meeting and the constable's return be omitted.

Article 21 was the first article on the agenda.

Unanimously voted that the town direct the Moderator to appoint a Committee of 9 members to study the existing Town By-Laws, to make recommendations to update and/or revise them and submit their recommendations to a Special town meeting held in 1965, subsequent to October 1, 1965, or the regular 1966 annual town meeting.

Article 22. Unanimously voted that the town amend the By-Laws by adding the following:

ARTICLE XIV APPOINTIVE OFFICES

Section 1. If any authorized appointment to a Town Board, Commission, or Committee has not been made within forty-five days after that appointment was authorized to have been made, the Board, Commission, or Committee thus lacking members may thereafter fill those vacancies by an affirmative vote of the majority of the total number of authorized members (including vacancies) of that body, provided that, each member of that body has been given at least a five day notification by mail of the meeting and the intention to vote upon filling those vacancies at that meeting.

Article 23. Voted that the town authorize the Selectmen in the name and behalf of the Town to sell and convey to the First Federal Savings and Loan Association of Lowell, a United States corporation having a place of business in Burlington, Middlesex County, Massachusetts, the land of said Town of Burlington abutting premises presently owned and occupied by First Federal Savings and Loan Association of Lowell situated on Center Street and being further bounded and described as follows:

NORTHWESTERLY by land of the First Federal Savings and Loan Association of Lowell, one hundred forty-one and $76/100$ (141.76) feet;

NORTHWESTERLY again, still by said land of said First Federal Savings and Loan Association of Lowell and stone wall, one hundred four and $40/100$ (104.40) feet;

NORTHEASTERLY by land of the Town of Burlington, one hundred seven (107) feet; and

SOUTHEASTERLY by said land of Town of Burlington by two courses respectively measuring one hundred eighteen (118) feet and sixty-three (63) feet.

Being the same premises shown as containing 5700 square feet of land on a plan entitled "Plan of Land in Burlington, Mass., dated June 10, 1964" by Charles F. Kennedy, Registered Land Surveyor.

Before Article 24 was taken up the Moderator relinquished the chair to Ronald Saloman who took over the meeting after being sworn in. Mr. Murphy followed this procedure as he was somewhat interested in Article 24.

Mr. Saloman read article 24 to the assembly as follows:

Article 24. Motion made and seconded that the town vote to rezone from residence to business zone a parcel of land owned by Raymond J. Shea and Mary R. Shea of Center Street, Burlington, said parcel of land being situated on Center Street: containing 24,160 square feet of land more or less and bounded as follows:

NORTHWESTERLY by land owned by the Town of Burlington, ninety and $32/100$ (90.32) feet;

NORTHEASTERLY by land of McIntire, one hundred eighty-five and $96/100$ (185.96) feet;

SOUTHEASTERLY by Sears Street, one hundred fifty-four and $21/100$ (154.21) feet;

SOUTHERLY by the corner of Sears and Center Streets, thirty and $37/100$ (30.37) feet; and

SOUTHWESTERLY by Center Street, one hundred seventy-two and $13/100$ (172.13) feet.

All as more clearly shown on a plan on file with the Town Clerk.

There was some discussion on this article when motion was made and seconded to stop debate which was voted. By a count of 553 in favor and 141 opposed article 24 was voted to rezone from residence to business zone.

Article 25. (Johnsen Property). Motion made and seconded that the town vote to rezone from residence to business zone a parcel of land owned by Robert U. Johnsen and Elizabeth E. Johnsen, said parcel of land situated at 209 Cambridge Street. All as more clearly shown on a Plan on file with the Town Clerk. There was great discussion on this article after which it was unanimously voted to stop debate. Those in favor of rezoning this par-

cel of land was 401 and those opposed, 314 on a count vote. The rezoning was lost.

Article 26. (Land owned by Graham Associates). Motion made and seconded that the town vote to rezone from Residence to Industrial zone a parcel of land owned by Graham Associates located in the westerly part of Burlington bounded by the following:

WESTERLY by the Middlesex Turnpike

NORTHERLY by land of: McGrory, Owens, Canning, Welch, DeBroynne, Gorman, Gauthier, Allen, Iverson, McCarthy, Kulda and Neiman

NORTHEASTERLY by land of: Currier, Robinson, Costello, Texieras, Zwicker, Tollefson, Seifert, Williams, Mazzolla and other land of Graham Associates, Inc.

SOUTHEASTERLY by land of Thomas Quinn Co., Inc.

SOUTHERLY by Terrace Hall Avenue

SOUTHWESTERLY by Raimando.

All as more clearly shown on a plan on file with the Town Clerk.

A very lengthy discussion was held on this rezoning and the vote was unanimous in stopping debate after which a count vote was taken with 409 in favor and 332 opposed to rezoning. The motion failed as of a two-third vote to rezone. Motion was made and seconded that we have a reconsideration of article 26 and the motion on same was lost.

Article 27. (By-Law regarding soil, sand, etc.) Mo-

tion made and seconded that the town vote to adopt the following By-Law:

“No person shall remove any soil, sod, loam, sand, clay or gravel from any land in the Town of Burlington, not in public use, unless such removal is authorized by a permit issued by the Board of Appeals, except in conjunction with construction of a building or buildings on the parcel for which a building permit has been issued by the Building Inspector.

No such permit shall be issued until an application therefor is filed with said Board and said Board has held a public hearing on the application and notice of the filing of such application and the date and time of public hearing thereon, shall be advertised in a paper published in the Town of Burlington, twenty-one (21) days at least, before the public hearing. No permit shall be granted by the Board of Appeals without considering the effect upon the neighborhood and Town at Large.”

Motion made and seconded that paragraph 1 under article 13A be stricken in the By-Laws (page 14 of the Zoning By-Law book) and new paragraph be inserted in its place.

Voted that the town adopt the following By-Law:

“No person shall remove any soil, sod, loam, sand, clay or gravel from any land in the town of Burlington, not in public use, unless such removal is authorized by a permit issued by the Board of Appeals, except in conjunction with construction of a building or buildings on the parcel for which a building permit has been issued by the Building Inspector.

No such permit shall be issued until an application therefor is filed with said Board and said Board has held a public hearing on the application and notice of the filing of such application and the date and time of public hear-

ing thereon, shall be advertised in a paper published in the Town of Burlington, twenty-one (21) days at least, before the public hearing. No permit shall be granted by the Board of Appeals without considering the effect upon the neighborhood and Town at large."

Article 28. (Referring to incinerators, publicly or privately operated.) This article was dismissed.

Article 29. (To amend the By-Laws of the Town of Burlington by adding thereto the following: Section XXIII — Signs and Advertising Devices). Voted that this article be referred back to Planning Board for further study, and that the same be dismissed at this time.

Motion made and seconded and voted that this meeting be adjourned. Time of adjournment 11:05 P.M.

REPORT OF THE FUTURE SCHOOL BUILDING NEEDS AND SITES COMMITTEE

To the Citizens of Burlington:

Toward fulfillment of the mandate given our committee by your vote in Adjourned Special Town Meeting, October 22, 1963, to study school population growth, classroom requirements, possible building additions and new school building sites on both a near and long range basis, we are pleased to report the following progress:

The committee held its first meeting on March 12, 1964 and elected Charles Landry, Chairman, Edward Rogers, Vice-Chairman, and John Corrigan, Secretary. Since that time, the committee has met on an average of two or three times per month.

During March and April the committee's work was largely taken up with meeting with other town bodies such as the Planning Board and the School Committee, other organizations such as the League of Women Voters and the PTA Council, and any individuals who might, because of their particular experience, be able to advise the committee. The object of these meetings was to define areas of committee responsibility and to work out a plan of procedure. As a result the committee reached these conclusions:

- . . . that determination of the need for all buildings of a permanent nature, whether additions or new construction, would be the responsibility of the Future School Building Needs and Sites Committee,
- . . . that the short range problems in planning de-

manded a new elementary school and/or additions as soon as possible,

- . . . that the long range plan should involve the development of a Master Plan for School Building,
- . . . that all available land for school sites should be investigated now and acquired in advance of the need.
- . . . that continued population projection and good public relations would be necessary to the committee's success.

Work along these lines then began in earnest. Mr. Allen Tarbox agreed to assume the responsibility for population projection for the committee and all census material held by the PTA Council was turned over to him. Mrs. Joan Miles assumed responsibility for publicity upon the resignation in May of Harvey Mignault.

A preliminary investigation into the possibility of additions to existing buildings, with emphasis on the elementary schools, was launched by requesting architects of these schools to reply in writing to a carefully prepared list of questions. The result in all cases was that additions were possible, the estimate being a total of 23 rooms as the maximum. A population projection prepared by Allen Tarbox revealed the need for a minimum of 23 additional classrooms in September, 1965; a minimum of 28 the following year; and a minimum of 32 in September, 1967.

The next step was to determine the feasibility of additions. Toward this end the committee met with Mr. Black of the State School Building Assistance Commission who stated that the SBAC approves additions only if and when said additions can be shown to be a reasonable part of a long range plan. He then recommended

that the Future School Building Needs and Sites Committee hire an educational consultant to survey school building needs in Burlington and further stated that so strongly did the State School Building Assistance Commission feel that Burlington could and would profit from such a survey that the Commission was willing to share in the cost up to an amount of \$2,000. The committee came away from this meeting with a list of eleven educational consultants engaged in such work of whom the SBAC would approve.

When the results of this meeting were reported to the School Committee by Mr. John Corrigan, a member of both committees, the School Committee, facing daily complications resulting from the growing school housing crisis and thus appreciating the need for such a survey, expressed its willingness to share in the cost with the State School Building Assistance Commission.

Thus the search for an educational consultant was underway. Eight letters were written to determine availability of consultants, five negative replies were received, and three proposals were submitted. Of the three who submitted proposals, interviews were held with the two whose bids seemed most reasonable. The adequacy of the Atwood and Blackwell School Study, a part of the overall Town Study for the Planning Board, to the needs of the committee and the school system was carefully considered in relation to the proposals submitted and the interviews held with educational consultants. In the end it was the judicious reasoning of the committee that Dr. John E. Marshall could best serve the needs of the committee and the town at this time and the services of Dr. Marshall were thus engaged for the sum of \$5500.00, the cost to be shouldered jointly by the School Committee and the State School Building Assistance Commission.

In an effort to speed solution to the present crisis in

school housing, the committee reviewed with the League of Women Voters their article for the creation of a Standing School Building Committee, backed it one hundred percent, and gave it publicity prior to the Special Town Meeting, September 14, 1964. In addition, to avoid the possibility that nothing would be done in the event of the defeat of the League-sponsored article on the warrant, the Needs and Sites Committee sponsored a substitute article for the creation of an Elementary School Building Committee plus articles enabling either committee to proceed immediately with plans for the construction of a new elementary school.

In its investigation of and search for sites, Mr. Elmer Morrison of the committee has compiled a list of available land, the committee members have visited many of these sites, and in conjunction with the Standing School Building Committee extensive investigation of sites in the Mill Street area for the new elementary school has been made. Certain sites have been studied carefully and a written report submitted on each of them by the Soil Conservation Service in Concord, Mass. A memo from Dr. Marshall has also been requested in the matter of site selection for this new elementary school. Aerial maps of this area and of the entire town are being prepared in an effort to aid the committee in selecting not only the site for this new elementary school but also sites for future schools as well.

During the course of the year there have been three resignations and three replacements made to the committee. In May Joan Miles was appointed by the Moderator to serve the unexpired term of Harvey Mignault. In October, William Sunderland was appointed by the Planning Board to serve the unexpired term of the chairman, Charles Landry. In November, S. Joseph Brown was appointed by the Moderator to complete the term of William George McCabe. Because the chairman had resigned, the committee was forced to reorganize

with this result: Mr. Edward Rogers was elected Chairman, Mr. John Corrigan was elected Vice-Chairman, and Mrs. Joan Miles was elected Secretary. All elections were unanimous.

The committee wishes to thank the School Committee and the Planning Board particularly for their help and cooperation in carrying out certain specific projects, and all other organizations and individuals who have been of invaluable help to us in this, our first year of operation.

Respectfully submitted,

Edward Rogers, Chairman

John Corrigan, Vice-Chairman

REPORT OF THE CEMETERY COMMISSIONERS

To the citizens of the Town of Burlington.

During the year 1964 there were 42 interments in the Chestnut Hill Cemetery. The sum of \$6,606.00 has been turned over to the Town Treasurer for the following accounts:

Annual Care	\$ 336.00
Sale of Graves	1,925.00
Perpetual Care	2,840.00
Interments	1,245.00
Miscellaneous	260.00
<hr/>	
Total	\$6,606.00

The year 1964 was a year of progress for your cemetery Department. The long needed garage building was built and put to immediate use for the new truck, equipment, and also the tractor loader, which was overhauled this year. The money for the new garage was transferred from the sale of graves account, so added nothing to the upward spiral of our tax rate.

We also have custody and care of the old Burial Grounds at the head of Bedford Street. Townspeople who are interested in the early history of the town, should visit this cemetery, which is open year round.

Your Cemetery Department is now in the process of preparing the City of Boston land, which has just been acquired, through eminent domain, for cemetery purposes. It is hoped, with the co-operation of the voters,

that this project can be completed within the next three years, as the amount of cemetery lots is becoming quite scarce.

In conclusion, we wish to thank all of the town departments who have been of great help during the past year.

Respectfully submitted,

CHARLES P. CASASSA, Chairman

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen:

I herewith submit my report as Tree Warden for the year 1964.

One of the biggest problems facing shade trees this year is the drought, one season of drought does little harm to the tree, but with three seasons in two years of this lack of rainfall, I am referring to the fall of 1963 and the spring and summer of this past year, trees are becoming weaker and the possibility of failing to leaf out at all is possible on some of the weaker trees.

Things that can be done for these trees are, periodic waterings at 10-14 day intervals, fertilize in spring or in the fall after all growth has ceased and leaves have fallen, water newly established trees thoroughly at 10-14 day intervals.

Respectfully submitted,

RALPH E. KNOWLES,

Tree Warden

In conclusion, may I take this opportunity to express my appreciation for the cooperation shown this department by the Board of Selectmen, Fire Department, School Department and all other persons and organizations who have assisted us in the performance of our duties during the year 1964.

It is with deep regret that we record the passing of Officer Eric S. Carlberg, who passed onto his reward on April 6, 1964.

Officer Carlberg was appointed to this Department on March 27, 1934. He was an officer of true loyalty, with a sincere dedication to duty — whose true aim was to make this world a better and safer place in which to live.

Our loss is St. Michael's gain.

REPORT OF THE STANDING SCHOOL BUILDING COMMITTEE

To the citizens of Burlington:

The Standing School Building Committee was established by vote of the special town meeting in October 1964 and was organized in late November. As directed by the town meeting, it has first turned its attention towards planning a new elementary school.

You should be well aware of the need for a new elementary school. If you require more evidence than the two grades on double session at the Pine Glen School and the overcrowded classrooms in the other schools, it is amply supplied by the preliminary report by Atwood and Blackwell, the master planning firm hired by the town Planning Board. The statistics and projections presented in this report show that until a new school is opened there will be increasingly severe crowding at the elementary level and that elementary school enrollments (grades 1-6) will jump from 3,444 in 1964 to around 5,390 in 1970.

Fully aware of the implications of the Atwood and Blackwell study, the committee has been working in co-operation with the Future School Building Needs and Sites Committee to obtain a site in the Northwest section of the town, this being the area of greatest need as determined by the Sites Committee and corroborated by the Atwood and Blackwell report. Aerial photographs have been taken and the committees have the soil conservationist's report on the available sites.

As for the school itself, the committee has taken the following steps:

1. Requested of and received from the superintendent the education specifications for a new elementary school.
2. Attended needs conference with the Massachusetts School Building Assistance Commission. Mr. Black, of the SBAC, agreed with the committee that the need was obvious.
3. Interviewed architectural firms and planned to select an architect for the new school by February 1, 1965.

REPORT OF THE TREASURER

I herewith submit my report as Treasurer of the Town of Burlington for the year ending December 31, 1964.

The Town of Burlington as shown by the figures above is a multi-million dollar Corporation. In the interests of good business, a sound Corporation will invest what is termed as Temporary Surplus Cash whenever it is possible to do so. The gain from this operation is two-fold, first it will be an offsetting factor to the Interest Charge a Town has to pay on Loans while awaiting Receipts; secondly, it places the name of the Town in the forefront of the larger Banking Houses and Brokerage

firms showing that the Town is progressive in it's attitude towards Investment Finance. Naturally, when the Town is considering a Bond Issue, these facts are in the forefront and help to reflect a very good and strong bidding from these same companies whereby the Town realizes a saving in costs by a lesser interest charge.

The Town of Burlington which is rated as a single A by the Municipal Credit Rating Firm of Moody's, has time and time again borrowed at the comparative rate of AAA. Thereby proving the application of the above stated theory in its physical aspects as being beneficial to the Town.

As your Treasurer and investing funds where and when possible the Town has realized \$9,638.98 from all dividends, premiums and accrued interest in the year 1964.

Following is a comparative summary for the annual payrolls for the Town of Burlington in the years 1962, 1963 and 1964.

	1962	1963	1964

The gross Annual Payrolls for the Town of Burlington in the years 1962, 1963 and 1964 are as follows:

	1962	1963	1964
	\$1,741,406.05	\$2,075,425.42	\$2,378,142.79
		1962	1963
Total number of Employees		650	731
			1964

One facet of my duties is to collect all Tax Title Lien accounts that are due. Once again this year quite a bit of effort was delegated to this end with a result of \$3,206.43 being brought into the Town's Treasury.

I would like at this time to express my thanks to all Departments, Committees and Boards for their cooperation in this past year.

Respectfully submitted,

ARTHUR A. ZERVAS,

Town Treasurer

REPORT OF THE DOG OFFICER

Board of Selectmen
Town Hall
Burlington, Massachusetts
Attention: Mr. David M. Ward, Chairman

Gentlemen:

The following is my report as Dog Officer for the Town of Burlington, for the year ending December 31, 1964.

Dogs, injured and destroyed	7
Dogs, lost, then found	128
Dogs, destroyed at request of owners	3
Dogs, killed by motorists	145
Dogs (strays) turned over to Mass. Medical Society, with resulting reimbursement to Town of \$3.00 per dog	126

Upon receipt of the June Dog Warrant, there were 613 notices mailed to delinquent licensees of dogs; after a 10-day period there were 277 second notices mailed.

There were fifteen hundred and forty-two (1542) licenses issued by the Town Clerk up to January 28, 1965, with two more months to go before the new licensing period April 1st.

PARK COMMISSIONERS REPORT

To the Citizens of Burlington:

The Park Department and the Town were deeply saddened by the loss of two of its officials, Henry J. Jackson, Dean of the Park Commissioners for many years and Timothy J. Regan, Superintendent of the Parks from 1958 until his death, July 16, 1964. Both Mr. Jackson and Mr. Regan, who were faithful and loyal employees of the Town, will be greatly missed.

We, the Park Commissioners, submit the following summary of activities and work done by the Department.

This year an additional Tot Lot play-area was put into use at Pathwood Avenue and Forest Street. The Softball Field on South Bedford Road was landscaped and an underground sprinkling system was installed. A large Parking area at Simonds was resurfaced, a Pine Grove thinned out and more equipment was added to the play-area.

The Park Department had recreational leaders at the Pine Glen School, Wildwood School, Nike Site, Memorial School and Simonds Park. At the end of the recreation season, a picnic was held at each of these areas.

Early in the Spring, the Town purchased the Nike Site for recreational purposes. A great deal of work had to be done to put this site into a usable condition. All of the Buildings had to be repainted and the plumbing and heating system had to be replaced. A Ladies' Room, new

septic system and new windows were installed and indoor and outdoor electrical systems were remodeled.

Open House was held on November 22 with a large gathering of people viewing the area. This Youth Center is a welcome addition for the youth of the Town. This large area and four buildings will be expensive to maintain and operate, but it will be well worth it for the benefit of the youth of the Town.

Respectfully submitted,

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Burlington, Massachusetts:

During the course of the year 1964, many major accomplishments were undertaken and additional policies instituted by your School Committee.

On January 7, 1964, your Committee was informed that the Burlington High School was accredited by the New England Association of Colleges and Secondary Schools and had been elected to continuing membership, according to the evaluation criteria established by the National Secondary School Evaluation Committee.

The School Committee recognized the Burlington Teachers Association as the agency through which the teachers of the school system develop and represent their considered opinion on matters of concern to them and agreed to give due consideration to proposals and representations made on their behalf through an agreement signed on June 17, 1964. This agreement, known as "Agreement for Recognition and Professional Procedures" shall remain in force until July 1, 1965, and is the first of its type to be signed in the Commonwealth of Massachusetts.

Again, another first for this particular area, your School Committee adopted a "Code of Ethics" relative to the community, school administration and fellow committee members.

Recognizing the critical housing shortage that now exists in our school system, a study was made and all avenues explored in regard to available space in industrial, governmental, and parochial areas. Because of

cost factors and stringent public safety and board of health laws, these areas of investigation were abandoned. Finally, after many months of deliberation and investigation, overcoming many obstacles and frustrations, a three-year contract (with an option to purchase) was signed with Mobile Classrooms, Incorporated, Fort Wayne, Indiana, for the leasing of six portable classrooms to be placed at the rear of Memorial School. These portable classrooms commenced operation in January 1965 and should alleviate the double session problem in grades 4 and 5 at the Pine Glen School.

As previously mentioned, the housing shortage in our school system is critical and will become more severe before any new school buildings can be opened. As a result, the School Committee approved unanimously the Superintendent's and Administration's recommendation to house pupils for the year 1965-66 in accordance with the following:

Grades 1 - 4	in the four elementary schools, portable units and Union Annex
Grade 5	in the Union and Center Schools
Grades 6 - 8	double session (afternoons) in the High School
Grades 9 - 12	double session (mornings) at the High School
Special classes	three classrooms at the Pine Glen School

The above scheduling will tend to eliminate overcrowded classroom conditions and reduce the teacher-pupil ratio to an acceptable pattern.

The Construction of the Junior High School Building (1200 pupils) will begin sometime in the Spring of

1965 with a tentative completion date in 1967. This building in no way meets our future school building needs. Consequently, we urge you to give support to a new elementary school building that you will be asked to approve at the Town Meeting.

As a future positive step in resolving Burlington's school space problem, the School Committee, working in cooperation with the School Building Needs and Sites Committee, has underwritten one hundred percent of the cost for a master plan. The State School Building Assistance Commission will reimburse the Town for forty percent of this cost. Work on this plan commenced in November 1964 and will be completed in May 1965 thereby furnishing Burlington with its first comprehensive plan for meeting school space needs.

This year, as in the past, the School Committee has maintained primary interest in the type of education being provided in the schools. It has kept itself informed of the educational program by having frequent oral or written reports at its meetings from Supervisors, Department Heads and Administrators. New textbooks were adopted in the Social Studies, Mathematics and English Departments.

The 1964 Summer School which included an enrichment program and also an orientation period for pre-first grade children was enormously successful. It is planned to expand this summer educational program in 1965.

On August 8, 1964, the School Committee voted that the Boston College School of Education be awarded a contract as an administrative consultant for the purpose of establishing an organizational pattern for the Burlington Public School System. The administrative consultant team consists of Doctor Nuccio, Doctor Griffin and Doctor Roache. This group has made certain preliminary recommendations which have been incorporated in the

1965 school budget. The final report to the School Committee is expected in June 1965.

The revision of administration regulations for the school system has been dealt with by the Committee. During 1964 the Committee directed the school administration to prepare administrative regulations to supplement committee policies. Preparation of these regulations is now underway and involves many of the system's administrative personnel.

The School Committee adopted a plan of tax-sheltered annuities for eligible school employees and approved the necessary payroll deductions for such benefits that may accrue to these individuals participating with the understanding that such benefits will not accrue an additional cost to the taxpayers of the Town of Burlington.

In conclusion, may we express our sincere appreciation to all of the school employees for their cooperation toward providing the finest education for the children of the school system.

To all Town Officials, both elected and appointed, our heartfelt gratitude for their assistance in all school matters in which they were involved.

Respectfully submitted,

THOMAS J. KELLEHER, JR., Chairman

HELEN R. MURPHY

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Burlington:
Ladies and Gentlemen:

The past year has been an eventful one for the Burlington Public Schools and has provided a foundation for continued progress and effective teachings. Positive steps have been taken by the Town when a Future School Building Needs and Sites Committee was authorized during the March meeting and a Standing School Building Committee at the Special Town Meeting in September. Articles creating these committees were sponsored by the League of Women Voters, Mrs. Clarence Feldman, President.

Shortage of classroom space will continue to be the most significant problem facing the public schools until sufficient space is provided for reasonable classroom loads. The pupil population will continue to increase by five hundred (500) for the next few years. Atwood & Blackwell, Town Master Planner, employed by the Town Planning Board, projects a student population of 9,000+ by 1970, which is greater than the school administrator's projection. This fact, plus the Willis Report recommending kindergarten in every community, should allay fears that the community will overbuild and have surplus classroom space.

Academically, we are progressing, and the community has every right to be proud of the program that is being evolved. It is anticipated that printed material explaining many phases of our programming will be available to the public in the immediate future. The several departments of the High School have developed informational pamphlets which are in the process of

being printed. The Industrial Arts Department pamphlet has been completed. A brochure to attract the capable teacher has been developed by Messrs. Walter Haigh and Frank FitzGerald. Mrs. Gagan and Mr. Francis Gaudet have provided leadership in developing an informational pamphlet, "Homework", for distribution.

Again, this year, to recruit capable teachers, we will be sending recruiting teams to all the colleges in Massachusetts, and the Superintendent will be personally visiting most of them as a member of the team. At many of the schools we will speak to 30-50 interested candidates. This approach allows Burlington to attract the most capable candidates. Experienced candidates are sought, but our salary schedule is not significantly higher than most surrounding school systems to make it attractive enough to attract them from their present positions. Our new buildings and fine curriculum materials help immeasurably to attract good teachers. I must not overlook our current staff for their friendliness and enthusiasm that is so important in the final decision of prospective candidates.

Many facets of our program and problems are stated in other educational reports within this Annual Town Report, and it is not my desire to duplicate.

The citizens of Burlington should be aware of a State Educational Report, commonly referred to as the "Willis Report", that was authorized by the General Court. It contains implications for the Town of Burlington. Also, there has been a suggestion of additional State taxes for education to relieve local real estate of the full burden of school taxation. To assure that the full benefit will be derived, I urge citizens to be alert to any legislation in this regard and suggest that any additional funds raised in the name of education be "Earmarked" for grades K-12. "Earmarking" taxes is in disfavor by

many in the legislative fields. However, experience has demonstrated that this is the most positive way of having funds raised in the name of education to be channeled to their intended purpose.

Plans for the coming year reflect the acute housing shortage for school children, and the High School will go to a split-session program. Pupils in grades 6-12 will be housed at the High School. All other children will remain on their regular school day. This program will remain valid for two years, until the Junior High School is completed. The second year of this program will find Wildwood School at saturation and perhaps in excess, depending upon first grade enrollments of September, 1965.

The split sessions at the High School will, of necessity, cause the staff to objectively analyze their programming for efficient time utilization. Department Heads hold this responsibility. Pupils must study at home, take advantage of after-school aid for both their daily work, and, when necessary, for study leading to the college entrance board examinations. No child on split session need to suffer academically. Work during class time will be more intense, and the pupil and parent must share responsibility for completion of work during out-of-school hours.

The School Committee has authorized the Superintendent to hire replacement candidates for teaching positions during the school year without the Committee personally interviewing the candidates. This confidence in the Superintendent has aided immeasurably in securing good teachers, for time between the initial contact with a prospective teacher and employment has been shortened. This is not only desirable but imperative. For initial September applicants and tenure appointments, the School Committee reviews all credentials and recommendations and is the legal hiring authority. According

to law, only the School Committee can hire and discharge

The PTA organizations of all schools has changed to PTO (no National or State affiliations). Their council has not been as active as the previous year. I would like to urge the council to meet at least two or three times a year and study the problems of the school system for a clear concept and understanding. The Willis Report has many implications, and each executive PTO committee should be familiar with its contents.

Recommendations:

Secure more space for pupils.

Secure sites for future buildings while property is available.

Study on-the-job training possibilities for selected high school pupils.

Introduce to a greater degree vocational skills and concepts related to the electronic industry.

Program into the curriculum magnetically taped lessons for reinforcement purposes.

Expand the library of audio-visual materials.

Reorganize the duties at the central office level.

Evaluate and increase opportunity for in-service training for teachers.

Employ phychologist or a guidance counselor for the elementary level.

Locate space for the central office personnel.

My sincere appreciation is extended to those citizens that have contributed of their time and talents to

enrich the educational experiences of boys and girls. So many do so much, and I am confident that children appreciate these efforts in their behalf.

Mrs. Lillian Hutchings has retired from her position in the High School Mathematics Department after many, many years of excellent service. Bless her in her well-deserved retirement. Mr. John Corrigan, Vice-Chairman of the School Committee has been recognized as "Man of the Year" by the Burlington Junior Chamber of Commerce, Inc. A fine tribute for many, many hours of time plus talent in aiding the development of our community.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

Herewith is the Annual Report of the Burlington High School for the Calendar Year 1964.

The Calendar Year of 1964 was one of progress and growth for the Burlington High School.

There were many activities carried on during the year which aided in the educational climate of the school. In January, Burlington hosted the annual meeting of Pi Lambda Theta, a professional organization in education, whose president is Mary Dooley, a teacher at the Burlington High School. This conference was attended by over four hundred persons despite the fact that adverse weather conditions prevailed on the day of the meeting.

The Science Department conducted its annual Science Fair in March. The Burlington Rotary Club took an active part in this Fair by providing plaques to be awarded as prizes. The Fair was very successful with students exhibiting in five areas: Physics, Chemistry, Biology, General Science, and Mathematics. Winners were invited to participate in the Lowell Technological Institute Fair held in April. In addition to the Fair, The Science Department was selected by the Department of Education to sponsor a seminar for students in the surrounding towns in "Meteorology". This program brought speakers from many of the industries of Burlington and nearby communities to assist in the fifteen weeks course.

The English, Art, and Music Departments again joined forces to produce for the Senior class another outstanding musical. "The King and I" was the selection for 1964. The students and the faculty received many fine critical notices about the quality of the production.

With the assistance of the Audio-Visual department the entire score was taped and later a recording was made and distributed to the cast.

The English department also produced "Our Town" for the Dramatic Club. This also was a successful production. Here again, the Art Department was of invaluable assistance in preparing settings.

Reading tests were administered to all students in grades 8 through 11 and are now being analyzed in order that specific recommendations may be presented to the School Committee. Another testing program involving eighth and ninth grade students was the California Achievement Tests. This test is helpful in placement of students and recommendations for particular courses to be taken throughout the high school years.

All departments carried out a number of field trips which enriched the development of the students. Some of these were to museums, theaters, industry, and other business firms. Field trips have a vocational as well as an educational advantage.

In the class of 1964, Burlington had one semi-finalist and one certificate winner in the National Merit Scholarship Tests. The present senior class has one semi-finalist and three certificate winners.

As in past years, the growth of enrollments was a major factor to be considered in making plans for the high school. Only one new position was created for this school year. This was the addition of an art teacher at the eighth grade level.

Besides the study of Reading which was noted above, the staff is currently investigating the marking system employed at the high school and each department is involved in the preparation of the two-year report of the Evaluation conducted by the New England Association of Colleges and Secondary Schools in 1963.

Once again Burlington cooperated with several colleges in training new teachers. We have had practice teachers from Boston State College, Bridgewater State College, Boston College, Tufts University, and Lowell State College. Departments having these practice teachers were English, Social Studies, Science, Mathematics, and Music. Plans are underway to have additional practice teachers in the Foreign Language and Business departments also.

The major changes in personnel occurred with the resignation of Miss Elizabeth Grey, Head of Social studies, and Mrs. Patrick Granfield, Head of Science. Mr. Victor Loukas, a staff member, was appointed Head of Social Studies, and to date, no replacement has been made in Science.

I should like to make the following recommendations for the consideration of the School Committee:

1 — Positive steps be taken to include the use of data-processing equipment both for the use of the staff and for teaching business students.

2 — The appointment of a department head in both the Art and Home Economics areas.

Respectfully submitted,

JAMES HORTON,

Principal

ANNUAL REPORT OF THE DIRECTOR OF GUIDANCE FOR THE YEAR 1964

Submitted to the Superintendent of Schools,
Dr. Herman J. Dunseith:

General Description of Guidance and Counseling Services

Guidance is an integral part of the educational system and not an isolated service. I have endeavored to conduct the program so that it is consistent with the philosophy of the school system.

The key to a successful guidance program is individual counseling. This year as in the past these services were made available to all pupils in Grades 7 through 12. Each counselor was assigned a group of counselees and scheduled interviews were arranged. Students have been encouraged to visit counselors voluntarily and discuss their educational, personal and vocational problems in a relaxed atmosphere with no pressures. Parents have also been encouraged to visit the Guidance Office to discuss anything pertaining to their children's interests. It is by such cooperation that our young people can be helped to make wise and intelligent choices in preparing for a successful future.

Standardized Testing Services

Both individual psychological and group tests have been administered during the year. Results aid in the interpretation of interests, aptitudes, intelligence potential, and achievement in subjects in both verbal and quantitative areas.

During this past year we have also participated in national programs such as the National Merit Scholarship Testing Program, National Guidance Testing Program, Selective Candidate Tests for Service Academies, the Betty Crocker Knowledge and Attitude Test, and the Preliminary Scholastic Aptitude Test.

Pupils from the Honors section of Grade 10 and all college bound students in Grades 11 and 12 have been helped in making application for the different series of College Entrance Examinations. Results of these exams were interpreted to each student and any necessary counseling was given as needed for admission to the particular college chosen.

The standardized testing programs in the elementary grades was under the direction this year of the Coordinator of Elementary Education and the Guidance Director acted in an advisory capacity.

Information Services

A library of up-to-date information is always maintained in the Guidance office. This includes university, college, and other school catalogues and brochures. Scholarship and financial aid information is always available. Also in this library area is literature describing opportunities and programs offered by the different branches of the armed services. A complete file of occupational information is kept for student perusal. Pupils have availed themselves of all this information and counselors have helped in furthering any necessary explanations.

To further the interests of students and to give them more information concerning occupations today, a program of conferences on careers has been held on the first Wednesday of each month with the cooperation of the Northeastern University Occupational and Informa-

tional Service Center. Representatives from industry, the professions, and the colleges have willingly given of their time to explain to groups of interested students the requirements needed to enter the various fields.

In addition, films and film strips were shown to groups and included information on such topics as "What's New in Careers", Difficulties Encountered in the Job Market for the Drop-Out", "Programs Available in the Navy" (Army and Air Force also), "The Engineer and the Technician", "Effect of Automation" and similar topics.

Job Placement

Any Senior who wished to enter the world at work had our services available in job placement. The Office of the Division of Employment Security in Woburn was a valuable source in helping us. We are also grateful for the splendid cooperation given us by the Commercial Department under the supervision of Miss Mary Cronin.

Referral Agencies

Since we are not set up as a psychological clinic, on our most severe problem cases we must use the services of mental health clinics, specialized guidance centers, and sometimes hospital psychological units. During this past year we have worked closely with the Mental Health Clinic at Lowell, the Catholic Boys Guidance Center, The Adolescent Unit at Children's Hospital Medical Center and the Massachusetts General Hospital Unit. In addition, the Walter Fernald State School was a source of information for some educable and trainable cases.

Follow-up Services

This past year a follow-up study was made of the Class of 1963 and the following statistics were obtained:

<i>Enrolled</i>	<i>Girls</i>	<i>Boys</i>	<i>Total</i>
4 yr. College	9	15	24
Jr. College	3	1	4
2 yr. College	0	6	6
Nurses Training	4	0	4
Business School	2	0	2
Other Schools	0	4	4
Armed Services	0	8	8
Work	22	15	37
Marriage	3	0	3
Failed to graduate	1	0	1
	—	—	—
	44	49	93

Recommendations

1. Since the pupil load is so great, it has become increasingly difficult to cover completely the needs of the elementary schools. The most difficult referral cases have been evaluated and recommendations made, but there is a definite need for more counseling in these grades.

2. The recommendations by the Massachusetts Department of Education, Office of Guidance and Placement to comply with Title V of the National Defense Education Act is to have one counselor for each 300 pupils in Grades 7 through 12. At present, we have a much larger ratio. Therefore, if we are to comply with the act, we should have more counselors.

3. There is a definite need of some type of ungraded opportunity class if we are to lessen the potential drop-

outs. With such a class a curriculum could be established where the student would spend part of the day in the classroom with related subjects and the remainder in shops or, if opportunity presented itself, in an on the job training program. Since we are not in a large city set-up, opportunities for the latter are not too available in the area.

At this time, I should like to express my appreciation to the School Committee, the Administration, Principals, Teachers, and Parents for the splendid cooperation given the Guidance Department. I have appreciated such rapport and understanding and feel that without cooperation from these sources our guidance program could not have met with any degree of success.

Respectfully submitted,

MARY L. BILLINGS,

Director of Guidance

REPORT OF THE COORDINATOR OF ELEMENTARY EDUCATION

It is with pleasure that I submit my third Annual Report to the Superintendent of Schools, to the School Committee, and to the Citizens of the town of Burlington. This is a joint report of the elementary principals and the coordinator.

We have experienced progress this year in the accelerated improvement of the instructional program. Many new beneficial changes in the curriculum have perpetuated more educational benefits than ever before for each child. These changes have been realized only after careful study by the administrative and teaching staffs.

The following constitute some of the major areas of study and revision in the total program during the past year.

READING

That wide differences occur among children is a fact acknowledged in life outside the classroom. The schools recognize this very important aspect of each child and realize wide variations in rates of learning exist among children. All these facts are constantly considered in classrooms, differentiation of instruction, based upon individual needs, will follow. Reading difficulties can be reduced to a minimum with the introduction of diversified teaching techniques and materials.

Many improvements have been realized in this most important facet of our curriculum. Basal readers which were introduced in the elementary grades last year were

extended through the third grade this year. This new adoption will be completed through the sixth grade during the next school year. Continuity in the basic skills of reading instruction through the use of the basal approach in the elementary grades has now become a reality for each child in the system. The child will also experience various supplementary reading materials upon completion of his basal program.

Levels of Reading which require that all children complete each reading level satisfactorily as determined by a standardized reading test before being advanced to the next level has been instituted in the elementary grades this year. Each child's progress in reading will now be recorded on his own reading progress card. Strengths and weaknesses will be determined and immediate steps taken to correct difficulties. The reading progress card will remain with the child throughout his stay in the elementary grades.

In addition to the basal approach to reading instruction, supplementary readers are a most important aspect of the total reading program. Upon completing his basal readers, a child must be provided with additional reading material if he is expected to reinforce learning that has taken place in those readers.

SRA Reading Laboratories are being utilized quite extensively from grades four through eight. These "labs" are designed to provide individualized reading materials to fulfill the needs of each child. They consist of graded stories that are of high interest level, the stories becoming increasingly difficult as the child progresses from one reading level to the next. The stories are designed to challenge each child to his fullest potential.

Another supplementary aid to the improvement of reading instruction has been the introduction of three minute speed tests or lessons given children three times

weekly. These lessons are designed to assist the child increase his speed in reading and comprehension. They have been introduced in grades 6 and 7 this year and will be extended down to grades 4 and 5 next year.

The teaching of phonics concerns the acquisition by the child of instruction in the use of auditory or sound characteristics of words in improving word perception and independence in word recognition. Phonics is basic to the teaching of reading for all elementary children in our system. New approaches to teaching phonics are being evaluated by members of our staff. We are presently experimenting with SRA Phonics Laboratories with some second grade children in order to evaluate the effectiveness of this new instrument.

Reading Spectrums, an instructional aid designed to reinforce reading skills already taught in the first three grades, is being experimented with at the fourth grade level. Two fourth grade classes in each building are trying this new material at the present time.

The reading program in the elementary grades has been completely re-evaluated during the past few years. This evaluation has resulted in the revision of some reading material, and through the introduction of many new media, we have already observed better reading performance by the children. We will continue to evaluate our reading program each year and make changes when necessary.

PROGRAMMED TAPES

Another area being developed to reinforce reading phonic skills is through use of programmed tapes. Programmed tapes are becoming increasingly important in many areas of the curriculum. The use of tapes to reinforce phonics learning in the reading program is pres-

ently being experimented with in the elementary grades. This program will be evaluated each year following its use in the classroom.

Programmed tapes and programmed work sheets on which children record their responses as they listen to the taped lessons have been prepared by our remedial reading teaching staff. Children listen to the taped phonics lessons through the use of headphone sets attached to a tape recorder.

The committee developing all the material on programmed tapes consists of Mr. Francis Gaudet, coordinator and chairman; Mr. Ernest DeMartinis, audio-visual specialist, Mrs. Marian Howard, Mrs. Jennie Flaherty, Mrs. Doris Green and Miss Hope Barker who has left us, remedial reading teachers; Mrs. Mary Gagan, principal of the Memorial School and Mrs. Edith Mesheau, former principal of the Meadowbrook School. This committee was organized under the direction of Dr. Herman J. Dunseith, superintendent of schools.

NEW MATHEMATICS

The trend toward a more meaningful, dynamic, exciting, instructional program in mathematics in the elementary field is now well established and is gaining more and more momentum as time goes on. The modern aspect of the new mathematics is that of discovery. It represents a way of thinking and reasoning, a systematized body of knowledge.

Children at the first and second grade level were introduced to the new mathematics last year following its adoption by the school committee. This year, all third grade children were exposed to modern mathematics for the first time. All fourth grade pupils will experience the new mathematics next year and it will become a

reality for all Burlington children through the sixth grade in another two years.

Since the complete program is not destined to reach all children in some grades for another year, or two, children not having been previously exposed to the full program are presently gaining insight into this new area with the use of special booklets especially designed to explore the terminology and actual concepts of the new mathematics. All elementary children in the Burlington Schools, therefore, are being exposed to the new mathematics.

LIBRARIES

The elementary school libraries have been developed to meet the needs of children and those teachers interested in enriching further their classroom teaching through use of a wide variety of books and materials. The book collections have been carefully selected by the librarians and members of the teaching staff to fulfill the curriculum requirements and to maintain literary standards.

Each building has a number of library books which are selected weekly by all elementary and junior high children. The selection in the libraries is being implemented each year with new titles. One has but to visit the children when they are selecting their library books each week to observe their enthusiasm in reading.

The librarians assist children to enjoy reading new books by describing different stories to them each week.

Many parents have assisted the Librarians with the library program. Their generous efforts and assistance are greatly appreciated by all school personnel.

The library is another important adjunct to our reading program.

REPORTING PUPIL PROGRESS

A close relationship must exist between the home and the school if the child is to accrue the greatest benefits from his school experiences.

Progress has been made in our school program to provide all parents with as many opportunities as possible to discuss their child's progress with school personnel.

Parent-teacher conferences are scheduled at the time of the first report card each year. The parent is personally given this report card and each area is carefully explained by the teachers. This procedure assures the parent first hand recognition of any problem the child may have and allows both the school and the home three more marking periods in which to correct the problem of the child.

Parents are also invited to attend an "Open House" two mornings in February each year in the elementary and junior high grades. Parents whose children require additional help are again invited to discuss their child's progress with his teacher in April.

Parents are always invited to discuss their child's progress after school hours on Tuesdays, Wednesdays and Thursdays by simply calling the school for an appointment with the teacher. Any problem is reason enough to call the school for an appointment.

IN-SERVICE WORKSHOPS

Workshops are an integral part of the total instructional program of any school. Burlington's elementary teaching staff experienced several excellent workshop sessions this past year.

A four hour workshop in art sponsored by American

Crayon Company and conducted by one of their art consultants was extremely beneficial and most appreciated by members of the teaching staff. Staff members experienced many of the art media that their children are expected to work with in the classroom.

Other workshops were equally well received. Workshops in reading, art, audio-visual equipment, speech therapy and library skills accounted for some of the fine programs experienced by the teachers.

TESTING

A change of testing programs was recommended by the administrative staff following the evaluation of several test series now available. The test series recommended is the California Achievement and Intelligence Testing Program.

The California Tests are comprehensive and are designed for the dual purpose of facilitating educational measurement and individual diagnosis. They indicate the level of performance of each child in the attainment or basic curriculum objectives.

The tests were used for the first time this fall in grades 3 through 9.

SAFETY

Safety rules and regulations preoccupy many of the activities of our school program. In addition to regular health and safety units taught by members of the teaching staff, Officer Roy Thorstenson, Safety Officer for the Burlington Police Department, is conducting a more formal safety program in each elementary building through regularly scheduled visits.

In the fall Officer Thorstenson discusses bus safety. This is followed by talks on winter safety during the winter season. In the spring bicycle and summer safety talks occupy Mr. Thorstenson's itinerary.

Each visit to a classroom is generally preceded by having children view a film on safety. Periodic safety literature is also distributed to the children by both Officer Thorstenson and school personnel.

OTHER

Other areas of the instructional program were the objective of careful study by members of the teaching and administrative staffs.

Creative writing is being developed to a greater degree in all of the grades. Free courses for twenty-seven Burlington staff members are offered by Northeastern University each semester as a gesture of good will. Overhead projects have been added to our audio-visual equipment. Professional meetings in the form of grade level and building meetings are scheduled every first and third Monday of each month after school hours for all members of the staff. These meetings are designed to allow teachers time to study and discuss different areas of the instructional program. The development of new cumulative record folders and reading progress cards for each elementary school child has been completed.

May I express my sincere thanks and appreciation to the School Committee, the Superintendent of Schools, the Principals, Members of the Teaching Staff and Citizens for their fine cooperation extended me in my work in Burlington this year.

Respectfully submitted,

FRANCIS GAUDET,

Coordinator of Elementary Education

REPORT OF THE SCHOOL PHYSICIAN

Burlington School Committee
Burlington, Massachusetts

Honorable Members of The School Committee:

The physical examinations of the pupils for the year 1964-1965 have just about been completed. Physical examinations, chest x-rays and Wassermanns have been completed on all the cafeteria personnel. The only remaining physicals are some of the students in the elementary grades. These will be completed within the next few weeks, thereby completing the whole school system.

I am most gratified to see that the program for a progressive school health regime has been instituted as evidenced by the establishment of a hockey team, a track team, field sports and weight lifting. My only hope is that some attention be given to the physically handicapped and the intermediate groups, as noted in my report of 1963-1964. The intermediate group, as defined, by me, in that report, includes those with poor muscle development and the obese.

I very highly recommend the purchase of a small whirlpool bath for use in those cases of sprained wrists, ankles, elbows and other contusions of the extremities. An otherwise excellent record for personal injuries was marred by one football game in which three moderate to severe concussions were sustained. Incidentally, all three of these boys were top notch athletes in good physical condition. In my personal opinion these injuries were caused, not by the failure on the part of the athletes to maintain themselves in good physical condition, but,

rather being outclassed by a team much stronger and experienced than they were. I believe that a revision in the classification of high school teams should be high on the agenda at the next Superintendent of Schools Association meeting, or that this matter should be referred to whatever authority assigns these classifications.

I wish to thank Dr. Dunseith and his administrative staff, the faculty and the school nurses for their excellent cooperation.

Respectfully submitted,

ANTHONY C. GIANGRECO, M.D.,

School Physician

REPORT OF THE SCHOOL NURSES

To the Superintendent of Schools, School Committee
and the Citizens of Burlington:

We hereby submit our report as School Nurses of
the Burlington Public School system for the year 1964.

In accordance with the Department of Public Health
acting under the authority of Section 57, Chapter 71 of
General Laws of the Commonwealth of Massachusetts;
the students had physical examinations by the School
Physician or Family Physician. Defects were recorded
and referrals were made.

REPORT OF THE SCHOOL PODIATRIST

To the Superintendent and the School Committee:

I hereby submit my report as School Podiatrist for the year 1964.

As of this date the foot examinations have been completed in the High School, Center School, Union School, Meadowbrook School, Memorial School and the Wildwood School. The Pine Glen School children will be examined as soon as the double sessions end.

This year there was an increase in fungus conditions among students in grades 7 through 12. It must be remembered though, there are more students in these grades than ever before. Percentage wise, the ratio has declined slightly.

The physical education instructors are to be complimented for their cooperation in keeping the students afflicted with this condition out of the showers so others would not be infected. Treatment of this condition is the parent's responsibility. If the condition does not respond to care promptly, a doctor should be consulted before complications arise.

Again this year, it was noted that girl students in grades 2, 3, and 4 are developing bunions because of pointed shoes. The shoes may be "cute", but I still can't see anything "cute" about a deformed foot that will be a source of discomfort.

It has been noted that the students in the elementary schools who wear the stretch leotards during cold weather

usually end up with cold feet. This defeats the parents purpose of keeping the child warm.

The reason for the cold feet is because the stretch leotards are made from a plastic fiber and will not absorb normal perspiration. Means of overcoming this problem are to use an absorbent powder or to have the child put on a light mercerized cotton sock under the leotards that will absorb the perspiration.

I want to thank the Superintendent of Schools, the School Physician, the principals and the teachers for their cooperation. A very sincere thank you to the School nurses who make possible the solution to the problem of coping with the ever increasing number of students to be screened by their full cooperation and assistance.

Respectfully submitted,

JOHN L. CASEY, JR., D.S.C.

School Podiatrist

REPORT OF SUPERVISOR OF ATTENDANCE

To the Superintendent and School Committee:

I hereby submit my report as Attendance Officer for the year 1964.

Daily visits were made to every school and the names of all students absent noted. It is the responsibility of the parents of High School students to call the school prior to 8:30 A.M. and notify the Assistant Principal of the absence. Those students not reported will be checked by a phone call or a visit from the Attendance Officer.

Illness was the excuse in most cases of absence, except for several truants.

3. In the event of inclement weather deemed not sufficiently bad to cancel school, it is the parents prerogative to decide whether or not the child should attend school.

Any and all school functions scheduled for the evening of a day that school is called off are automatically cancelled.

Employment Certificate

Employment certificates are issued during office hours at the office of the Superintendent of Schools. Under rules and regulations of the Department of Labor and Industries, an employer should have on file a permit or certificate for any employee under eighteen years of age. In order to obtain a certificate, it is necessary, when applying to produce evidence certifying to date of birth.

Age of Admissions

Pupils entering the first grade in September, 1965 must be six years of age on or before January 1, 1966. In other words a child entering Grade One next September will have reached his sixth birthday on or before January 1 of the year 1966.

Vaccination

The state law requires all pupils attending public schools to be vaccinated. Exception will be made for a

child presenting a certificate signed by a registered physician stating that he has personally examined the child and found his physical condition such that his health would be endangered by vaccination.

Attendance

Regular attendance is necessary to do satisfactory work. A written excuse from the parent or guardian is required for every tardiness or dismissal. No pupil is allowed to leave school during the session without permission from the Principal or Superintendent. Unless the pupil brings with him a written request for dismissal from his parents or guardian, he is permitted to leave only in case of emergency.

Teachers may require pupils to attend extra afternoon session if it is necessary for success in their work or for discipline reason

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen and the
Citizens of Burlington:

I herewith submit my report as Chief of the Fire
Department and Forest Warden for the year 1964.

During the year, this Department answered 973
calls as follows:

Ambulance	402
Fire Truck to Accident	17
Rescue	37
Miscellaneous	76
Grass	58
Brush and Woodland	131
Building	22
Rubbish	37
Automobiles	40
Trucks	15
Electrical	30
False	16
Accidental	16
Oil Burners and Heaters	8
Chimney	2
Out of Town	40
Gas Leaks	5
Smoke Scare	21

The following equipment was used:

56,000 feet of $\frac{3}{4}$ inch hose

10,000 feet of $1\frac{1}{8}$ inch hose

9,300 feet of $1\frac{1}{2}$ inch hose

6,150 feet of $2\frac{1}{2}$ inch hose

74,120 gallons of water from booster tanks

272 feet of ladders

51 acres of brush and woodland burned

18 acres of grass burned

New Ambulance, Engines 1, 3, 4, 6, and New Ford Pick-Up Truck are in good condition. The old Ambulance and Engine 2 are in fair condition. Engine 5 is in very poor condition and must be replaced.

The manual force consists of 25 permanent and 18 call men. The permanent force is composed of a Chief, 1 Deputy Chief, 3 Lieutenants, 20 Firefighters and 2 Chaplains.

In the year 1964, the Fire Department has extended the Fire Alarm system, and 19 new fire alarm boxes have been installed in various parts of the town. The Union School Sprinkler system has been completed and in operation since April 22, 1964. The new fire alarm board at the Fire Station was completed and in operation on January 4, 1964.

I am again asking the citizens of Burlington for a new ladder truck, chief's car, and an addition to the present fire station for storage and to garage the two ambulances.

I wish to express my appreciation to the residents of the Town of Burlington for their cooperation in fire

prevention, the permanent firefighters who have responded to alarms when off duty, and to members of other Town Departments for their assistance and cooperation. I wish to express my appreciation to all the Call Firefighters who have responded to the alarms unfailingly during the year, and the Auxiliary Fire Department who gave so much of their time and talent.

Respectfully submitted,

HERBERT W. CRAWFORD,

Chief of the Fire Department
and Forest Warden

REPORT OF THE PLUMBING INSPECTOR, GAS INSPECTOR AND AGENT FOR THE BOARD OF HEALTH

To the Honorable Board of Health
Burlington, Mass.

Dear Members:

I herewith submit my report as Inspector and Agent for the year 1964.

Applications for Permits to install or repair private sewerage disposal systems numbered 212, the revenue of which amounted to \$1,346.00.

Permits issued or denied were judged on the basis of visual inspections and the report and recommendations of the Engineers who designed the particular systems. Some were turned down because they could not be legally designed for the particular plot of land.

We had numerous complaints of faulty systems which had to be corrected and we had to go to Court to have the stubborn ones remedied.

All V.A. and F.H.A. Papers for Systems approved by me were signed.

There were about twenty complaints of rodents in different neighborhoods and rat-bait was carefully placed in the different localities.

There were complaints of people dumping in different spots in the Town. There is no legal place in the Town of Burlington where dumping is allowed and the Board, having set up the collecting of heavy household rubbish three times a year, believes the people should

store these (stoves, refrigerators and washing machines) for these special pick-ups.

There were 251 Permits issued for the installation of gas appliances. The fees collected were \$630.00. All installations were inspected and certified when inspected in the presence of the Inspector.

At this time, I would like to ask the people to be very careful and to insist upon the Installer to call the Inspector to have installations inspected as several appliances have been found to be defective. If these were not inspected and the trouble found, there would be a possibility of a fire or explosion.

There were 214 Plumbing Permits issued and the fees collected amounted to \$1,444.00. Upon completion, these installations were all inspected.

Respectfully submitted,

VINCENT F. HOWARD,

Plumbing Inspector
Gas Inspector
Agent for the Board of Health

REPORT OF THE BOARD OF HEALTH

January 1, 1965

To the Citizens of Burlington:

In March 1964, Mary E. Bennett was elected to the Board of Health.

Meetings are held the second and fourth Mondays of the month with special meetings at the call of the Chairman. Kenneth Morrison was elected Chairman of the Board of Health in 1964.

We have had various public health programs, polio clinics, chest x-rays and Well Child Clinics for the townspeople, which reports are more thoroughly covered in the Public Health Nurse's report.

We request that you read our various reports from the Assistant, Food and Milk Inspector, Animal Inspector and Public Health Nurse to better understand the complete functions of the Board of Health.

The Board of Health wishes to thank the Board of Selectmen, Planning Board, the various doctors in the Town and the residents of the Town for their cooperation and interest in our efforts over the past year.

Respectfully submitted,

KENNETH MORRISON, Chairman

MARY E. BENNETT

REPORT OF THE CIVIL DEFENSE DEPARTMENT

To The Citizens of Burlington:

The year 1964 was one in which the Burlington Civil Defense Department made great and definite strides in the emergency planning and disaster control of our town.

A new lighting and rescue vehicle was purchased for the Auxiliary Fire Department. Burlington received a 50% federal reimbursement from the total cost of the truck. This unique vehicle is on a constant 24 hour emergency stand-by. The auxiliary power and lighting facilities on this truck leave nothing to be desired. The truck, when fully equipped, will be a great supplement not only to Civil Defense, but the Police and Fire Department's as well.

In February, I signed Burlington's first public fall-out shelter license for the High school. With over 341 spaces, the school will be stocked and maintained by the Army Corps of Engineers. A re-survey for local industrial shelters, is currently underway.

Burlington Civil Defense, and the Auxiliary Fire Dept., in particular, received state wide recognition during the summer months by participating in the Governor's Highway Safety Program. During major holiday weekends, we maintained a patrol of four emergency vehicles on the span of Route 128 from Lexington to the Woburn line.

During the past year, the group of volunteer workers from the Auxiliary Fire Department, gave over 2800 man hours of public service to the townspeople. Their "can do" attitude for CD and the public welfare, is indeed encouraging. The energetic manner in which each

member performed their tasks, is deserving of the highest in praise for a job "well done."

Members of the Burlington Amateur Radio Association (CD Communications) have also made great progress on a state and international level. Made up of 25 local residents, this department has gained world wide attention for their efforts in the complex field of radio communications. Working with Comm. Officer Jack Sieg, Civil Defense has acquired a facility located at the Winmere Nike Site. This building will be used as Burlington's first permanent Communications Base Station. Plans have also been formulated to use this center as a training base for youngsters that have an interest in amateur radio.

1964 has been a year of progressive accomplishment, a year that has seen rapid strides in the Civil Defense program of Burlington. I feel that a direct result of this progress is due to the fact of the outstanding assistance given me by our State Sector Director, Douglas Forbes. His cooperation with me in administrative matters during the past year, has made the state and other communities sit up and take notice of Burlington on the move. Doug has been instrumental in giving Burlington fast action on our many projects that involve state and federal participation.

My thanks is also extended to Assistant Director Dick Brown for his intensive application and assistance. He has made an invaluable contribution toward the promotion of public awareness of Civil Defense and disaster control training.

It is with pleasure that I sign this report of progress, for the members of Burlington Civil Defense, 1964.

STEPHEN F. COADY,

Director

FROM THE FINANCE COMMITTEE

March 2, 1964

To the Taxpayers of Burlington:

Turning from the patient, the doctor sadly stated "It's very serious but there is still hope." The Finance Committee made a similar remark after a careful study of the Town's financial condition. Our diagnosis indicates that the Town has many serious complications. For example:

1. An increasing requirement to service residential needs without a corresponding increase in industrial growth.
2. Demands for increased appropriations by town departments without a coordinated study of the town as a whole .
3. Placement of long term obligations without firm policies to meet the future consequences.
4. A continued population explosion without adequate controls to drastically retard residential construction.

To many, these problems have been apparent for some time. Town officials and department heads nod their agreement that these are serious problems. But who is doing anything about them? The Town is in drastic need of leadership. Except for articles promoted by a few civic minded organizations in town and the Finance Committee, there just hasn't been any progressive legislation proposed in Burlington for some time.

The Finance Committee has set out to search for the action necessary to resolve some of these problems. Areas undertaken consist of a study of the assessing practices of the town. The advisability of a consolidated public works and methods of curtailing residential growth are under study. The advantages and cash savings resulting from the establishment of a stabilization fund is under consideration. Reports will be made public as these studies are completed.

What has the Finance Committee done during the past year? (1.) A Personnel Board has been established to study and install a salary and wage classification plan for the town. Although the board was established late in 1963, it has provided information and has made recommendations in certain areas. These recommendations have been used by us in the suggested budget amounts. (2.) The Finance Committee has obtained a listing of equipment in all town departments. These listings are valuable for exercising control and provide a basis for future equipment planning needs. (3.) The Burlington Finance Committee has joined with surrounding towns to organize a regional group of finance committees. This group can now discuss problems of a local nature and review the result and effect of recent legislation.

Many heavy financial burdens lie ahead for the taxpayers of Burlington. Items such as sewerage, schools, and water needs must be properly planned and financed. The town must modernize its thinking and reconsider its outdated fiscal policies. The time has come when all the citizens of Burlington must unite, face the problem squarely, and lick it. Let 1964 be a year when the crusade for better government began; 1965 a year of progressive legislation; and 1966 a year to be proud of our town's progress. Remember, if we continue to play, we continue to pay.

THE BUDGET

As in the past, the Committee is reporting a budget that we feel is designed to produce maximum results at minimum costs. We have changed the format of the booklet to show 1963 expenditures, 1964 requests, and our recommended 1964 budget. As you vote on these budgets, remember we have spent many many hours investigating and discussing the items. We have tried to be equally fair to all departments while maintaining a watchful eye on the financial impact.

In conclusion, we sincerely thank those department heads and town officials who so graciously acknowledged our requests and endured our aggressiveness.

PERSONNEL BOARD REPORT

The Town of Burlington Personnel Board, since their appointment, have met weekly or bi-weekly in order to make a careful study of the 1963 Wage Scales of twenty (20) towns. The towns selected were adjacent, of approximate population or had a comparable cross-section.

The Study was made in four areas:

1. Police and Fire Departments
2. Clerks
3. Laborers-regular, Truck Drivers-laborers,
Heavy Equipment Operators-laborers, Mechanics
4. Fringe Benefits

The Personnel Board came up with the following recommendations:

Recommendations on Wages

1. All members of the Police and Fire Departments receive a 5% increase in pay.
2. The Board voted not to recommend an increase in clerical salaries at this time. Clerical positions will be evaluated for the 1965 meeting.
3. The Board voted to recommend:
 - a. Two per cent (2%) increase for Laborers-regular.
 - b. Three per cent (3%) increase for Truck Drivers-laborers and Heavy Equipment Operators-laborers.
 - c. Ten per cent (10%) increase for Mechanics.

Recommendations on Fringe Benefits

Jury Duty—regular pay less jury fee should be paid by the Town.

Military Leave—regular pay less military pay should be paid by the Town for a period not to exceed two (2) weeks.

Vacation Period—employees be given two (2) weeks vacation after they have worked a full fifty-two (52) weeks. The rest of the vacation schedule remaining the same.

Sick Leave—one day per month, with a total of sixty (60) accrued days.

Article 38. To see if the Town will vote to amend Section XI of the Zoning By-Law so as to read as follows:

"SECTION XI. INDUSTRIAL DISTRICTS

In an Industrial District, no building or land shall be used for any other purpose than one or more of the following:

1. Any use or accessory use permitted in Section VIII, IX or X.
2. Lumber, fuel, or ice establishments and establishments for the repair of motor vehicles.
3. Research Laboratories or light manufacturing employing electricity or other unobjectionable motive power, machinery and processes.
4. Motels or Motor Hotels, subject to conformity with the following provisions and requirements:
 - (a) For the purposes of this section, Motel or Motor Hotel shall mean a structure or structures containing dwelling units of one or more rooms attached to each other, and intended to be rented for brief periods of time for the accommodation of travelers or tourists with or without dining facilities.
 - (b) Any such Motel or Motor Hotel shall comply with all applicable building laws of the Town.
 - (c) The minimum lot size for any such Motel or Motor Hotel shall be 120,000 square feet.
 - (d) Not more than 40 per cent of the lot area shall be covered by buildings.
 - (e) No living floor area shall be less than 20,000 square feet.
 - (f) No sleeping rooms shall be located below the mean finished grade of the ground adjoining the buildings nor above the second story of any building.
 - (g) No building shall exceed two and one-half stories in height, with a maximum height of 40 feet, exclusive of cellars.
 - (h) There shall be parking space for automobiles provided on the lot sufficient to furnish one and one-half reasonably accessible automobile spaces per sleeping unit, plus reasonably adequate provision for persons dining or attending functions in the building or buildings.
 - (i) Front Yard—There shall be provided a front yard of not less than 100 feet in depth on each street on which the lot abuts. Within such 100 feet from each street, there shall be permitted only (1) green areas of grass, plants, shrubs and trees, (2) walks, driveways and parking facilities occupying not more than 25 per cent of the front yard area, and (3) gates or security stations.
 - (j) Side Yard—There shall be provided a side-yard of not less than 50 feet in width which may include a driveway.
 - (k) Rear Yard—There shall be provided a rear yard of not less than 35 feet in depth.
 - (l) Frontage—There shall be provided a frontage of not less than 200 feet upon the frontage street.

5. Any use accessory to the foregoing, as defined in Section VII. No use shall be permitted under this Section XI which would be offensive because of noxious or injurious noise, vibration, smoke, gas, fumes, odors, dust or other objectionable features that would be hazardous to the community on account of fire or explosion or any other cause.

No permit shall be granted under this or any other section for any purpose that would prove injurious to the safety of the neighborhood into which it proposes to go, or destructive of property values because of excessive nuisance qualities, or do or act anything in relation thereto.

No recommendation from this Committee.

Article 39. To see if the Town will amend Section 10 of Article IV of the By-Laws of the Town so as to read as follows:

Section IX A

The By-law adopted as Article 16 at the Special Town Meeting on October 3, 1955 is amended to read as follows:

The erection of multi-family buildings is prohibited except for the following purpose:

Garden Type Apartments being defined as a multi-dwelling building consisting of not less than four nor more than twelve dwelling units.

A dwelling unit being defined as a unit having independent cooking and sanitation facilities and containing no less than one nor more than two bedrooms.

No new building or part thereof shall be constructed or used as a Garden Type Apartment and no building or part thereof shall be altered, enlarged, re-constructed or used as a Garden Type Apartment unless the following conditions and restrictions are met:

1. All existing zoning regulations pertaining to Front Yard, Side Yard and Rear Yard shall be met.
2. Minimum lot size shall be 20,000 square feet.
3. No more than one building containing living quarters for every 20,000 square feet shall be allowed.
4. Maximum area for buildings living quarters shall not exceed 25 per cent of the lot area.
5. No building shall contain more than 3 floors with a maximum height of the building above the mean finished grade of the ground adjoining the building not to exceed 40 feet.

6. All Buildings shall be first or second class buildings as defined in the building By-laws.
7. No living quarters shall be located below the mean finished grade of the ground adjoining the building.
8. Parking spaces for automobiles shall be required off street on said lot but shall not be within twenty-five feet of any street line, nor in the Front Yard of any building unless within an underground or basement garage not opening directly onto the frontage street. All parking facilities so provided are to be used for exclusive use of the residents of the property or their guests. Such accessible and useable spaces plus space for entrances, exits and driveways in said off street parking area shall be provided at the ratio of one and a half parking space, open or covered, for each dwelling unit in each structure.
9. A parking space for automobiles shall mean an area available for parking one motor vehicle and having a width of not less than ten feet and an area of not less than two hundred square feet exclusive of passageways and driveways appurtenant thereto, with free and unimpeded access to a street over an unobstructed passageway or driveways.
10. A buffer strip of not less than ten feet shall be provided between any driveway or parking area and any abutting property line. Said buffer strip shall be provided with opaque fences for visual protection of abutting properties. The afore-said fence shall not be less than three and a half feet in height. Provided they meet the height requirements of fences, as set forth in said paragraph, suitable dense shrubbery may be used in lieu thereof, or do or act anything in relation to same. (Submitted by Planning Board).

Article 49. To see if the Town will vote to amend the Zoning By-law by adding thereto the following: Section IX B Garden Type Apartment Districts. In Garden Type Apartment Districts no building or premises shall be used and no building or structure shall be erected which is intended or designed to be used in whole or in part for any industry, trade, manufacturing or commercial purpose or for any other than the following specified purposes:

1. Any building or use permitted in Residence A and B Districts.
2. Garden Type Apartments as defined in Section IX A or do or act anything in relation to same (Submitted by Planning Board).

Article 50. To see if the Town will vote to hear and take action upon the recommendations of the Planning Board, pursuant to the vote of the Town at the 1964 Annual Town Meeting regarding the subject matter of Article 42 of the Warrant for the said Town Meeting and more specifically to vote to install such fencing and/or accomplish landscaping and grading that may be necessary along both sides of the existing drainage ditch along the rear of Lots 29 to 38 inclusive on Ronald Road, or do or act anything in relation to same. (Submitted by Planning Board).

Article 51. To see if the Town will vote to amend Section VII of the Zoning By-law by striking therefrom paragraph (7) and substituting therefor the following paragraph:

(7) — Lot in a single or joint ownership, occupied or which may be occupied by a building and its accessory buildings, and including the open spaces required by this ordinance, or do or act anything in relation to the same. (Submitted by Building Inspector).

Article 52. To see if the Town will vote to amend Section VII of the Zoning Laws by adding the following paragraph:

13. Frontage — The property line adjacent to a Public way or way shown on a plan approved in accordance with the subdivision control law, or a way previously constructed of material sufficient to support vehicular traffic incident to residential use and said way or ways shall be at least 20 feet in width, or do or act anything in relation to same. (Submitted by Building Inspector).

Article 53. To see if the Town will vote to add to Section 10, Article IV of the Building Regulations the following:

(Submitted by Inspector of Buildings).

Article 54. To see if the Town will vote to amend Section XVII of the Zoning Laws of the Town of Burlington by adding the following paragraphs:

In determining the area and frontage of a lot there shall not be included any land within the limits of a street upon which such lots abuts, even if the fee to such street is in the owner of the lot, except that if a corner lot has its corner bounded by a curved line connecting other bounding lines, which, if extended, would intersect the area and frontage shall be computed as if such bounding lines were so extended.

No lot, upon which is then located any building or

with respect to which a permit has been issued and is then outstanding for the erection of any building, shall be subdivided or reduced in area in any manner unless said lot shall thereafter be of sufficient area and width to meet the requirements of this By-law and unless such lot so altered, and any building or buildings thereon, shall meet all the other requirements of this By-law. If land be sub-divided, conveyed, devised or otherwise transferred in violation hereof, no building or other permits shall be issued with reference to any of the land so transferred or to the lot(s) retained until all of such land and lots meets the requirements of this By-law. Any land taken by eminent domain or conveyed for a public purpose for which the land could have been or was taken by eminent domain shall not be deemed to be transferred in violation of the provisions hereof.

When a lot in one ownership is situated in part in the Town of Burlington and in part in an adjacent town or city, the provisions, regulations, and restrictions of this By-law shall be applied to that portion of such lot as lies in the Town of Burlington in the same manner as if the entire lot were situated therein, or do or act anything in relation to the same. (Submitted by the Building Inspector).

Article 55. To see if the Town will vote to strike Section III Zoning Laws of the Town of Burlington and substitute the following section.

Section III — Occupancy Permits — of Zoning Laws of the Town of Burlington. SECTION XXIII.

SIGNS AND ADVERTISING DEVICES

PART A. PURPOSE

This section is adopted by the Town for the regulation and restriction of billboards, signs and other advertising devices within the Town.

PART B. DEFINITIONS

For the purpose of this section the following words and terms used herein are hereby defined:

(1) Sign: The Word "sign" shall include any letter, word, symbol, drawing, picture, design, device, article and object that advertises, calls attention to or indicates any premises, person, or activity, whatever the nature of the material and manner of composition or construction.

(2) Accessory sign: Any billboard, sign, or other advertising device that advertises, calls attention to, or indicates the person occupying the premises on which the sign is erected or the business transacted thereon, or advertises the property itself or any part thereof as

for sale or to let, and which contains no other advertising matter.

(3) Non-Accessory Sign: Any billboard, sign, or other advertising device that does not come within the foregoing definition of an accessory sign.

(4) Standing Sign: The term "standing sign" shall include any and every sign erected on or affixed to the land and any and every exterior sign that is not affixed to a building.

(5) Zoning By-law: The Zoning By-Law of the Town of Burlington as from time to time in force and effect.

(6) Inspector of Buildings: The Inspector of Buildings appointed under the provisions of the Building Regulations of the Town of Burlington as now or hereafter in force and effect.

(7) Board of Appeals: The Board of Appeals established or operating in the Town of Burlington under the Zoning Enabling Act, or any amendment thereof, or addition thereto.

(8) Business Area: Any area within a district zoned primarily for business or commercial purposes under the Zoning By-Law. It does not include any area within a district zoned for residential purposes under said Zoning By-Law, as hereinafter defined, regardless of whether the area is being lawfully used or is available for such use through a special permit or a variance granted by the Board of Appeals or through a non-conforming use or by any other means.

(9) Residential Area: A residential area is any area situated within a district zoned primarily for residential purposes under the Zoning By-Law. It includes Residence A Districts and Residence B Districts.

(10) Parking Area: A public parking area or a

private parking area that is open to the parking of motor vehicles by customers of the store.

(11) Store: A "store" shall include any establishment, office or place of business.

(12) Street: Any public way or private way that is legally open to public use.

(13) Size: In applying the maximum height, width and area limitations prescribed in this section for signs, any intermediary removable surface to which a sign is affixed shall be deemed to be a part of the sign.

(14) Erected: The word "erected" shall include the words attached, built, constructed, reconstructed, altered, enlarged, and moved.

(15) Person: The word "person" shall include one or more individuals, a partnership, an association and a corporation.

PART C. REGULATIONS AND RESTRICTIONS

Subpart 1. Residential Areas.

No non-accessory sign shall be erected or maintained in a residential area.

Subpart 2. Business Areas.

a. Accessory Signs.

1. In business areas accessory signs that comply with the provisions hereinafter set forth are permitted. All other accessory signs are expressly prohibited.

a. Location. A sign shall be affixed to a building except as hereinafter provided. A sign affixed to a building shall be securely affixed to one of the walls or a roof of the building. If affixed to a wall and parallel to said wall, it shall be parallel with and not project more than twelve (12) inches from such wall and shall

not project beyond the face of any other wall of the building. If affixed to a roof and parallel with the front wall of the store, it shall not project beyond the face of any wall of the building. No sign, whether affixed to a wall or a roof of a building, shall project above the highest line of the main roof of the building, provided however, that if a sign is attached to a wall having a parapet extending above the highest line of such roof, then the sign may reach but may not project above the top of such wall.

b. Size. A sign not parallel to a wall of a building shall not exceed twelve (12) square feet in area. A sign parallel to one wall of a building shall not be more than three (3) feet overall in height. A sign on the exterior wall of the first floor of a building may extend across the full width of the store wall. The width of signs of stores occupying other than the first floor of a building shall not exceed six (6) feet.

c. Number. There shall be not more than (1) exterior sign for each store, except that if the store has a direct entrance into the store in a wall other than the store front, there may be a secondary sign affixed to such wall, and if the store has a wall, other than the store front, that faces upon a street or parking area, there may be a secondary sign affixed to such wall whether or not such wall contains an entrance to the store. The secondary sign or signs shall not exceed in the aggregate fifty (50) percent of the maximum permissible width of the sign on the store front. In addition to the foregoing sign or signs there may be one directory of the occupants or tenants of the building at each entrance to the building. Such directory shall not exceed an area determined on the basis of one (1) square foot for each occupant or tenant of the building.

d. Special signs. In particular instances the Board of Appeals may permit more than the number of signs hereinabove permitted or signs of a maximum size or in

a location other than hereinabove specified, if it determines that the architecture of the building, the location of the building with respect to the street or the nature of the use being made of the store is such that additional sign or signs of a larger maximum size should be permitted in the public interest. However, any such sign shall not exceed one hundred fifty (150) square feet in area; or twenty (20) feet in any dimension, or thirty (30) feet in height from the ground. No such sign shall be within fifteen (15) feet of any property boundary line.

e. Construction. No sign shall be painted or posted directly on the exterior surface of any wall, including windows and doors. All signs must be painted, posted or otherwise securely affixed to a substantial intermediary removable surface and such surface shall be securely affixed to a wall of the building. The foregoing, however, shall not prevent the installation of a sign by individual letters, or devices cut into or securely affixed to the exterior wall of a building, provided that such letters have a minimum depth or projection of one fourth ($\frac{1}{4}$) of an inch. The material of the sign and intermediary surface and the manner of affixation of the sign to the intermediary surface and of the intermediary surface to the wall of the building shall be subject to the approval of the Inspector of Buildings for the purpose of protecting the safety of the public.

f. Illumination. Moving and flashing lights are prohibited. No red or green lights shall be used if, in the opinion of the Inspector of Buildings, such a light would create a driving hazard.

The provisions of this paragraph shall apply not only to exterior signs but also to interior signs that are designed or placed so as to shine through windows or doors of a building.

g. Movement. No sign, any part of which moves

or is designed to move shall be permitted, except such portions of a sign as consist solely of indicators of time or temperature.

h. Standing Signs. Standing signs are prohibited, except as follows:

(1) In particular instances the Board of Appeals may permit standing signs if it determines that the nature of the use the premises, the architecture of the building, or the location of the building with reference to the street is such that a standing sign or signs should be permitted in the public interest. However, any such sign shall not exceed one hundred fifty (150) square feet in area; or twenty (20) feet in any dimension; or thirty (30) feet in height from the ground. No such sign shall be within fifteen (15) feet of any property boundary line. In granting such permission, the Board of Appeals shall specify the size, type and location of the sign and impose other terms and restrictions as it may deem to be in the public interest.

(2) During the construction of a building a standing sign may be erected on the premises identifying the building, the owner, the contractors, the architects or the engineers but such sign shall not exceed twenty (20) square feet in surface area nor ten (10) feet in any dimension. Such sign shall be removed promptly upon completion of the building.

i. Gasoline Filling Stations and Garages. Gasoline filling stations and garages may, if they elect to do so, divide the one exterior sign affixed to the front wall of the building, to which they are entitled as hereinabove provided, into separate signs affixed to and parallel to such wall and indicating the separate operations or departments of the business, provided however that the total of the widths of the separate signs shall not exceed the maximum width permitted under this By-Law for a single exterior sign on such wall. In addition, one sign,

standing or otherwise, indicating the company whose gasoline is being sold may be erected of such type, in such location, and in such manner as the Board of Appeals may permit. However, any such sign shall not exceed one hundred and fifty (150) square feet in area; or twenty (20) feet in any dimension, or thirty (30) feet in height from the ground. The standard type of gasoline pump bearing thereon in usual size and form the name or type of gasoline and the price thereof shall not be deemed to be in violation of this section. Temporary or movable signs of any kind and every type are specifically prohibited.

j. Maintenance. All signs whether erected before or after the effective date of this section shall be maintained in a safe condition to the satisfaction of the Inspector of Buildings.

b. Non-Accessory Signs.

No non-accessory sign shall be erected or maintained in a business area except as permitted under a permit lawfully issued and remaining in full force and effect, by the Outdoor Advertising Board, or by any board or official succeeding to its authority in the administration of Sections 29 to 33 inclusive of Chapter 93 of the General Laws, or any act in addition thereto or in amendment thereof.

PART D. ADMINISTRATION

No sign shall be erected on the exterior of any building or on any land unless and until an application for the erection of such sign has been filed with the Inspector of Buildings, with such information and drawings as he may require, and a permit for the erection of the sign has been issued by him. The fee for such permits shall be determined by the Board of Selectmen of the Town. The provisions of this subpart shall not apply to:

a. In residential areas — to permitted signs except such as by the terms of this section or any other section of the Zoning By-Law are permitted only with specific permission from the Board of Appeals.

b. In areas other than residential — one real estate sign of not over six (6) square feet in total area advertising the sale or rental of the premises on which it is located.

Subpart 2. Appeal.

A person aggrieved by the refusal of the Inspector of Buildings to issue a permit for the erection of a sign or by any order of the Inspector under this section may appeal to the Board of Appeals. The provisions of the Zoning By-Law as to the time for taking such appeal and as to the notice of and hearing thereon to be held by the Board of Appeals shall apply to appeals under this section.

Subpart 3. Enforcement.

The Inspector of Buildings is hereby designated and authorized as the officer charged with the enforcement of this section and the provisions of the Zoning By-Law in reference to the enforcement of the Zoning By-Law shall apply also the enforcement of this section.

PART E. MISCELLANEOUS

Subpart 1. Non-conforming Signs.

Signs legally erected before the adoption of this section that do not conform to the provisions of this section, except that all signs must be made to form to the provisions of this section must be made to so comply within five (5) years after the effective date of this section, except that all signs must be made to comply with paragraph (f) Illumination of Subpart 2. a. I of

Part C within one (1) year after the effective date of this section, and that temporary or movable signs must be made to conform to this section within one (1) year after the effective date of this section.

Subpart 2. Penalty for violation.

Whoever violates any provision of this section shall be punished by a fine not exceeding one hundred and fifty dollars (\$150.00) for each offense.

Subpart 3. Severability.

The invalidity of any part or provision of this section shall not invalidate any other part or provision thereof.

And you are directed to serve this Warrant, by posting up attested copies thereof at the billboard at Town Hall, one on the billboard at Wilmington Road, one on the billboard at Winnmere, and one on the billboard at Wood's Corner, in said Town, Seven days at least before the time of holding said meeting.

HEREOF FAIL NOT, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meetings, as aforesaid.

Given under our hands this 3rd day of January in the year of our Lord, one thousand nine hundred and sixty-five.

MAUD S. GRAHAM,

Town Clerk

PROCEEDINGS AT ADJOURNED TOWN MEETING

March 8, 1965

Meeting called to order by the Moderator at 8:25 P.M. with a quorum present. By unanimous vote of the assembly it was decided to waive the reading of the Constable's return and that no new business be taken up after 11:00 P.M. and when the meeting adjourned it be adjourned to Wednesday evening, March 10, 1965, 8:00 P.M. at the High School. Non-voters were asked to sit in the center rear of the hall and voters were invited to move forward in the auditorium.

Article 2. The Moderator called for the report of town officers and committees of which he mentioned that a majority of the same were reproduced in the town report.

Report of progress was read by the Moderator regarding the Regional Vocational School District Planning Committee — the committee comprising Harold Dulong, Chairman, Wallace Haigh and Howard Bettinson, School Committee Member. Report of progress is on file with the Town Clerk. The Committee hopes to complete its study and make recommendations by submitting a report of same to the Board of Selectmen by March of 1966, or sooner, if possible.

Article 3. Unanimously voted that the Town authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1965, and January 1, 1966, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period

of less than one year in accordance with Section 4, Chapter 44, general laws.

Article 4. Item 1. (Selectmens' Department). Motion made and seconded that the town vote to raise and appropriate the sum of \$10,349.00 for the Selectmens' department — amended to read \$10,889.00: \$1,500.00 for the salary of the Board; \$450.00 for Selectmens' expenses; \$450.00 for Recording Secretary; \$500.00 for Executive Secretary — amended to read \$1,040.00; \$7,449.00 for two pool clerks — same to be spent under the direction of the Board of Selectmen. The amendment was carried.

Item 2. (Town Accountant's Department). Unanimously voted that the town raise and appropriate the sum of \$9,430.00 for the Accountant's Department: \$8,580.00 for the Accountant's salary; \$850.00 for expense — same to be spent under the direction of the Board of Selectmen.

Item 3. (Legal Department). Voted that the town raise and appropriate the sum of \$8,000.00 for the Legal Department: \$7,750 for fees and expenses; \$250.00 for claims — same to be spent under the direction of the Board of Selectmen.

Item 4. (Elections and Registrations). Voted that the town raise and appropriate the sum of \$11,800.00 for Elections and Registrations: \$200.00 for salaries of members; \$100.00 for salary of Clerk; \$11,500.00 for expenses — same to be spent under the direction of the Selectmen. Amendment was asked to have salaries raised to \$200.00 for each member but was lost.

Item 5. (Town Hall Maintenance). Unanimously voted that the town raise and appropriate the sum of \$11,362.00 for town hall maintenance: \$4,362.00 for the salary of the Custodian; \$7,000.00 for expense — same

to be spent under the direction of the Board of Selectmen.

Item 6. (Board of Appeals). Unanimously voted that the town raise and appropriate the sum of \$300.00 for the Board of Appeals: \$250.00 for the salary of the Clerk; \$50.00 for expense — same to be spent under the direction of the Board of Appeals.

Article 4. Item 7. (Treasurer's Department). Voted that the town raise and appropriate the sum of \$17,920.00 for the Treasurer's department: \$7,540.00 for the salary of the Treasurer; \$3,900.00 for the salary of the Clerk; \$1,680.00 for the salary of a part-time clerk; \$4,200.00 for expense; \$400.00 for out of state travel; \$200.00 for a typewriter — same to be spent under the direction of the Treasurer.

Item 8. (Tax Collector's Department). Voted that the town raise and appropriate the sum of \$15,688.00 for the Tax Collector's department: \$2,000.00 for the salary of the tax collector; \$4,173.00 for the salary of clerk; \$3,965.00 for the salary of second clerk; \$1,000.00 for the salary of a temporary part time clerk; \$2,800.00 for expense; \$1,750.00 for the change of plates for 100% assessment — same to be spent under the direction of the Tax Collector.

Item 9. (Assessors Department). Motion as an amendment to postpone and take up after articles 19 and 20 are acted upon (dealing with authorization of full-time assessor). So voted.

Item 10. (Town Clerk's Department). Unanimously voted that the town raise and appropriate the sum of \$11,653.00 for the Town Clerk's department: \$5,980.00 for the salary of the Town Clerk; \$4,173.00 for the salary of the clerk; \$1,500.00 for expense — same to be spent under the direction of the Town Clerk.

Item 11. (Planning Board). Motion made and

seconded that the town raise and appropriate the sum of \$4,365.00 for the Planning Board: \$2,990.00 for the Salary of the Inspector; \$300.00 for the salary of the Clerk; \$300.00 for the Inspector's auto expense; \$775.00 for Planning Board expenses — same to be spent under the direction of the Planning Board.

There was some discussion on this item and amendment was made to have the Inspector's salary increased to \$6,272.50 — on count vote this was carried in favor 163 — those opposed 150.

Voted that the sum of \$7,647.50 be raised and appropriated for the Planning Board: \$6,272.50 for the salary of the Inspector; \$300.00 for the salary of the Clerk; \$300.00 for the Inspector's auto expense; \$775.00 for Planning Board expense — same to be spent under the direction of the Planning Board.

Item 12. (Moderator). Voted that the town raise and appropriate the sum of \$75.00 for the office of Moderator: \$50.00 for the salary of the Moderator; \$25.00 for expense — same to be spent under the direction of the Moderator.

Item 13. (Finance Committee). Voted that the town raise and appropriate the sum of \$1,525.00 for the Finance Committee: \$550.00 for the salary of the Clerk; \$225.00 for the salary of the Executive Secretary; \$750.00 for expense — same to be spent under the direction of the Finance Committee.

Item 14. (Personnel Board). Voted that the town raise and appropriate the sum of \$650.00 for the Personnel Board.

Amendment that all dogs be leashed or restrained at all times.

Motion that the amendment be dismissed.

Voted by count of 319 in favor and 291 opposed that this article be referred to the By-Law Committee for further study that they report their findings at the next annual meeting.

Article 60. (Land formerly known as Crawford Farm). To see if the Town will vote to rezone from Residence B District to either Business District or Industrial District the land of Bertha Geisler situated on Beacon Street, formerly Lowell Street, and formerly known as the Crawford Farm, containing Twenty-two (22) acres, more or less: all as more fully shown on a plan on file with the Town Clerk, or do or act anything in relation to the same.

The Planning Board unanimously voted that unfavorable action be taken on this re-zoning from Residence "B" District to either Business or Industrial District Land situated on Beacon Street containing twenty-two (22) acres more or less at this time.

Mr. Taylor one of the representatives of this land requested to be heard and he was allowed to outline the reasons for so rezoning and stated facts as he knew them. Mr. Stern, another representative was not allowed to speak on the re-zoning. A great discussion followed and motion to stop debate was unanimous.

Those in favor of re-zoning from Residence B District to either Business or Industrial was these — a count vote of 249 and 348 opposed and the motion was lost.

A motion made by Mr. Tarpey was that we reconsider article 60 at the next adjourned meeting.

Motion made and seconded that we adjourn this meeting until next Monday evening, April 5, 1965 at the High School at 8:00 P.M. Immediately a motion was

made and seconded that we adjourn until 11:10 P.M. The Moderator announced that a quorum being present the town meeting will be in order to re-consider at this time. A motion was made and seconded that we adjourn at 11:10 P.M. March 31 in this hall. There was great discussion at this point and motion was made that we have the reading of the Town Clerk's minutes of last meeting which was lost.

Mr. Ward wished to be recorded as stating that the adjourned meeting was illegal because it was not posted according to by-law.

At 11:15 P.M. a motion was that we reconsider article 60. After much more debating the Moderator moved to previous question after a vote by voice 350 in favor and 11 opposed to stop the debate. By voice vote motion was lost for reconsideration.

The Chair entertained a motion that we adjourn until Monday evening at 8:00 P.M. in this hall, April 5, 1965. So voted.

PROCEEDINGS AT ADJOURNED TOWN MEETING

April 5, 1965

Meeting called to order by the Moderator and he announced there was a quorum present. Non voters were asked to sit on the stage. The chair asked the consent of the voters in waiving the reading of minutes of the previous meeting and the constable's return of same. So voted. Also no new business taken up after 11:00 P.M. and that when we adjourn we adjourn until Wednesday evening, April 7 at 8:00 P.M. in this hall.

Article 50. Was the first article to be taken from the table — regarding fencing and grading on existing drainage ditch — this article was dismissed.

Article 60. (Voted to take from the table regarding Macadam Pavement). Unanimously voted that the town raise and appropriate the sum of \$12,000.00 and authorize the Treasurer to borrow the sum of \$48,000.00 under the authority of General Laws, Chapter 44, Section 7, said sums to be spent for labor and material incidental to the purchase and construction of macadam pavement or other road materials, or for the re-surfacing with such pavement or other road materials, of Town Highways; same to be spent under the direction of the Board of Selectmen.

Motion made at this time to reconsider article 60. Motion made and seconded to postpone reconsideration until the conclusion of articles 61-62 and 63. Motion to postpone is lost. There was a great deal of debate on article 60 when a motion was made to have previous question acted on. At which point article 60 for reconsideration was lost.

At this time motion was made and seconded that we take article 48 from the table. This motion was lost.

Article 61. (To rezone land of Pimentel, Turco, DaFonte, Fredette and Meaney). Motion made and seconded that the town rezone the land or any part thereof of Pimentel, Turco, DaFonte, Fredette and Meaney at Arlington Road and Cambridge Street, in Burlington, from Residence B District to Business District; said premises are more fully shown on a plan on file with the **Town Clerk**.

There was a great deal of discussion on this article and a unanimous vote stopped debate.

By a count vote of 419 in favor and 186 opposed the town voted to rezone the land or any part thereof of Pimentel, Turco, DaFonte, Fredette and Meaney at Arlington Road and Cambridge Street in Burlington from Residence "B" district to Business district.

Article 62. (Land in the westerly part of Burlington containing 2.9 acres more or less). Motion made and seconded that the town rezone from Residential land to Industrial land, a parcel of land situated in the westerly part of Burlington containing 2.9 acres (more or less) bounded as follows:

NORTHERLY: By Warrenton Corporation 250 feet
(more or less)

EASTERLY: By Middlesex Turnpike 510 feet
(more or less)

SOUTHERLY: By Pattison Road 220 feet (more
or less)

WESTERLY: By Kendall Road, 190 feet Warren
Corporation 385 feet (more or less)

A motion was made and seconded and voted that the town discuss articles 62 and 63 together but vote

on separately. After lengthy debate article 62 was voted on.

By a count vote of 488 in favor and 127 opposed the town voted to re-zone from Residential land to Industrial land, a parcel of land situated in the westerly part of Burlington containing 2.9 acres (more or less) bounded as follows:

NORTHERLY: By Warrenton Corporation 250 feet (more or less)

EASTERLY: By Middlesex Turnpike 510 feet (more or less)

SOUTHERLY: By Pattison Road 220 feet (more or less)

WESTERLY: By Kendall Road 190 feet Warrenton Corporation 385 feet (more or less)

Motion was made that we reconsider article 62 at next meeting. The Moderator explained to the voter that he was out of order because of an affirmative vote.

At this time article 63 was acted on — Motion made and seconded that the town re-zone from Residential Land to Industrial Land, a parcel of land situated in the Westerly part of Burlington containing 30 acres — bounded as follows:

WESTERLY: By the Middlesex Turnpike 1475 feet (more or less)

NORTHERLY: By land of Graham Associates 1570 feet (more or less)

EASTERLY: By other land of Graham Associates 560 feet (more or less)

SOUTHERLY: By Terrace Hall Avenue 1810 feet (more or less)

Jon Graham explained the land involved and answered many questions regarding same.

By a count vote of 481 in favor and 142 opposed the town voted to rezone from Residential Land to Industrial Land, a parcel of land situated in the Westerly part of Burlington containing 30 acres — bounded as follows:

WESTERLY: By the Middlesex Turnpike 1457 feet (more or less)

NORTHERLY: By land of Graham Associates 1570 feet (more or less)

EASTERLY: By other land of Graham Associates 560 feet (more or less)

SOUTHERLY: By Terrace Hall Avenue 1810 feet (more or less)

Motion made and seconded and voted that we adjourn until Wednesday night, April 7, 1965 at 8:00 o'clock P.M. in this hall.

PROCEEDINGS AT ADJOURNED TOWN MEETING

APRIL 7, 1965

The adjourned town meeting was called to order at 8:35 P.M. and the Moderator announced there was a quorum present. The non-voters were asked to sit in the rear center of the hall.

Motion made and seconded and voted that Article 48 (apartment houses) be taken from the table. The amendments as presented by the Fire Chief at a previous meeting were discussed at length when a motion was made and seconded that we table this article at this time. The motion was carried to table same.

Voted at this time to table Article 49.

Article 64. Motion made and seconded and voted that articles 64 and 65 be discussed together but voted on separately.

The Moderator at this time read articles 64 and 65.

Article 64. Moved and seconded that the town authorize the Selectmen to acquire by eminent domain proceedings the following described parcels of land as a site for a new elementary school:

A. Approximately 24 acres of land owned by Murray Hills, said land being shown as portion of the land contained on a Plan of Land in Wilmington and Burlington by James Bancroft, dated January 15, 1921, recorded in Plan Book 142 as Plan 36, Middlesex South Deeds, said 24 acres being comprised of 16.84 of Pushee on said Plan, and approximately 8 acres of Swain on said Plan.

B. Approximately 7 acres of land owned by Miller,

being Tract 4 described in a deed recorded in Middlesex North Deeds Book 1219 Page 569 — and that the town appropriate the sum of \$38,000.00 for this purpose; that to raise this appropriation the sum of \$12,000.00 shall be included in the 1965 tax levy, and the Treasurer, with the approval of the Selectmen, is authorized to issue \$26,000.00 Bonds or notes of the town under Chapter 645 of the Acts of 1948 as amended or under Section 7 of Chapter 44 of the General Laws.

Article 65. Moved and seconded that the sum of \$1,223,000.00 be appropriated for the purpose of acquiring a site and for constructing originally equipping and furnishing a twenty-eight classroom Elementary School; that to raise this appropriation the sum of \$12,000.00 be included in the 1965 Tax Levy and the Treasurer, with the approval of the Selectmen, is authorized to issue \$1,211,000.00 bonds or notes of the Town under Chapter 645 of the Acts of 1948 as amended and that the Standing School Building Committee is authorized to take all action necessary to carry out this project_ and that \$38,000.00 of this sum be allocated for acquiring by Eminent Domain as a site for said school the land described in Article 64 of this warrant.

At this point a suspension of rules was asked for that article 65 be taken up for consideration now — This was unanimously voted.

Article 65. Unanimously voted that the sum of \$1,223,000.00 be appropriated for the purpose of acquiring a site and for constructing, originally equipping and furnishing a twenty-eight classroom Elementary School; that to raise this appropriation the sum of \$12,000.00 shall be included in the 1965 Tax Levy and the Treasurer, with the approval of the Selectmen, is authorized to issue \$1,211,000.00 Bonds or Notes of the Town under Chapter 645 of the Acts of 1948 as amended and that the Standing School Building Committee is

authorized to take all action necessary to carry out this project; and that \$38,000.00 of this sum be allocated for acquiring by Eminent Domain as a site for said school the land described in Article 64 of this warrant.

Article 64. The original motion under article 64 was unanimously amended by striking all reference to money.

Article 64. Voted unanimously that the town authorize the Selectmen to acquire by Eminent Domain proceedings the following described parcels of land as a site for a new Elementary School:

A. Approximately 24 acres of land owned by Murray Hills, said land being shown as portion of the land contained on a Plan of Land in Wilmington and Burlington by James Bancroft, dated January 15, 1921, recorded in Plan Book 142 as Plan 36, Middlesex South Deeds, said 24 acres being comprised of 16.84 acres of Pushee on said Plan, and approximately 8 acres of Swain on said Plan.

(Submitted by the Standing School Building Committee).

To see if the Town will vote to adopt the following By-Law:

Article 16. (Salary Administration and Classification Plan).

Section 1. Classification Plan.

The positions of all officers and employees in the service of the Town (whether full time, part time, seasonal, casual, special, Civil Service, or others) other than those positions filled by popular election and those under the direction and control of the School Committee, are hereby classified by titles in the groups listed in Schedule A entitled "Job Classification by Group" which is made a part hereof.

Section 2. New or Changed Positions.

Whenever a new position is established or the duties of an existing position are so changed that in effect a new position is created, upon presentation of substantiating data satisfactory to the Personnel Board, the

Board shall allocate such new or changed position to its appropriate Group.

Section 3. Titles of Positions.

No person shall be appointed, employed or paid as an employee in any position subject to the provisions of the Classification Plan, under any title other than those of the Classification Plan, or under any title other than that of the job duties of which are actually performed. The job title in the Plan shall be the official title for all purposes having to do with the position and shall be used to designate the position in all payrolls, budget estimates and official reports, and in every other connection involving personnel and fiscal processes.

Section 4. Reclassification of Employees.

No employee may be reclassified to a job in another group, either higher or lower until the Personnel Board shall have determined such a reclassification will be consistent with the Classification and Salary Plans. There shall be only one reclassification in any twelve-month period for any employee except in unusual circumstances.

Section 5. Job Descriptions.

The Personnel Board shall maintain written job descriptions of the jobs, or positions, in the Classification Plan (such descriptions to be prepared by cognizant department heads and approved by Personnel Board) same describing the essential characteristics, requirements and general duties of the jobs. The descriptions shall not be interpreted as complete or limiting definitions of any job, and employees shall continue in the future as in the past, to perform any duties assigned by department heads, supervisors or other administrative authority.

Section 6. Salary Plan.

A Salary Plan is to be established by vote of the

Town in Town Meeting to provide minimum and maximum salaries, or single rate salaries, for the groups and positions in the Classification Plan. The salary range, or rate, of a group shall be the salary range, or rate, for all positions classified in the group.

Section 7. Amendment to Plans.

The Classification Plan may be amended in the same manner that these by-laws may be amended. The Salary Plan may be amended by vote of the Town at a regular or special Town Meeting. No amendment of either plan shall be made until it has been presented by signed petition to the Personnel Board and acted upon by the Board. Upon receipt of such a petition, the Board after giving the petitioners, the heads of the departments and employees affected at least three days' written notice, shall hold a hearing of the parties interested to consider the proposed amendment. If the Personnel Board shall fail to act on an amendment so presented within fifteen days after the hearing thereon, the Board shall be deemed to have disapproved the amendment and shall so notify the petitioners. The petition may then be presented to the Town Meeting, if so desired. The Board may, of its own motion, after a similar hearing of the parties interested, propose an amendment to either Plan.

Section 8. The Personnel Board.

Adjourned Special Town Meeting, October 22, 1963,

Article 24.

Unanimously voted that the Town establish a Personnel Board to administer such classification and salary plans as it may adopt, said Personnel Board to consist of five members as follows: Two members to be chosen by the Finance Committee, one member to be chosen by the Moderator and two members to be chosen by the Board of Selectmen. Upon adoption of this by-law, one

member appointed by the Finance Committee and one member appointed by the Selectmen shall serve until May 15, 1965, the member appointed by the Moderator shall serve until May 15, 1966, and the second member appointed by the Selectmen shall serve until May 15, 1967. Thereafter, all appointments shall be for terms of three years. The Town Accountant shall act as Executive Secretary for said Board, the members of which shall not be Town Officers or salaried employees.

Section 9. Duties of the Personnel Board.

A. The Personnel Board shall administer the Classification and Salary Plans, and shall establish such policies, procedures and regulations, consistent with said Plans, as it deems necessary for the administration thereof.

B. A personnel record of all Town Employees shall be kept by the Town Accountant in his office. Said record shall contain all the vital statistics and other pertinent data of each and every person employed by the Town. It shall be the duty of each Town officer and employee to furnish to the Town Accountant forthwith, upon his request, all data needed for the completion of this record, and such personnel records and reports as the Personnel Committee may require.

Each department head shall submit to the Town Accountant on Monday of each week, in such form as the Personnel Committee shall prescribe, a report of all officers and employees of the department absent from duty during the calendar week immediately preceeding, specifying in each case whether the Officer or Employee was absent on vacation leave, on leave of absence, on occupational sick leave, on non occupational sick leave, on bereavement leave, on court leave, or on military leave, or specifying the nature of his absence if it was not for one of the foregoing reasons. Such record shall be available to Personnel Board.

C. The Personnel Board, from time to time, shall

review the work of all positions subject to the Classification Plan. Such reviews shall be so scheduled as to cover all such positions at intervals of not more than three years. In case of necessity, the Personnel Board may tentatively add a new position to the Classification Plan or reclassify an existing position to a different group, subject to the subsequent ratification of its action by a formal amendment of the Classification Plan at the next Town Meeting.

D. The Personnel Board shall, from time to time, review the Salary Plan. It shall keep informed as to pay rates and policies outside the service of the Town, and shall recommend to the Town any action which it deems desirable to maintain a fair and equitable pay level.

E. Upon recommendation of a Department Head, supported by evidence in writing of special reasons and exceptional circumstances satisfactory to the Personnel Board, said Board may authorize an entrance rate higher than the minimum rate for a position, and such other variances in the Salary Plan as it may deem necessary for the proper functioning of the services of the Town. Section 10. Civil Service Law.

Nothing in this By-Law, or in the Salary Plan, shall be construed to conflict with Chapter 31 of the General Laws.

THE SALARY PLAN

The Salary Plan shall consist of the salary schedules in Schedule A, appearing later in this Report, and the administration policies as shown below, shall be effective as of November 1, 1965.

Pay rates are shown on a yearly and weekly basis for presentation purposes only. All employees will continue to be paid on an hourly, weekly, monthly, etc. basis as at present.

Administration Policies

1. Installing the Plan.

A. All present employees in the Classification Plan who are rendering satisfactory service in the opinion of their Department Head, and who are under the maximum of their rate range, shall be eligible for consideration for an increase as provided by the Salary Plan, provided (a) they have been in the full time continuous service of the Town for at least six months, or, (b) have not had an increase for at least one year. The making of these adjustments shall be subject to the approval of the Department Head and the Personnel Board.

B. No pay shall be reduced as a result of the installation of this Plan. Any existing rates above the maximum shall become PERSONAL RATES and apply ONLY to the present incumbent. SUCH rates are not subject to increase. When the incumbent leaves the employ of the Town, or is transferred to another job, the rate shall disappear. No other employee assigned to, or hired for, the job shall advance beyond the maximum of the job.

2. Adjustment Policies.

Employees in the continuous full time service of the Town, who have a satisfactory performance record, shall be eligible for an advance of one step-rate per year (the year to be counted from the date of the latest increase or hiring date) but not more, until the maximum for their job is reached, subject to the approval of their Department Head and the Personnel Board. Any employee denied such an increase has the right of appeal to the Personnel Board, which will confer with both the employee and the Department Head. All adjustments shall be approved in advance by the Personnel Board.

3. Transfers and Promotions.

When an employee is promoted to a higher rated job, he shall enter at the minimum of the job rate range or at his own rate, whichever is the higher. He may also receive a one step-rate increase at the time, if the Department Head feels that qualifications and performance warrant it, and the Personnel Board approves.

If an employee should be transferred to a lower rated job, he shall enter it at his own rate or at the maximum of the job, whichever is the lower.

4. New Personnel.

A. The hiring rate shall be the minimum of the rate range of the job for which the new employee is hired, unless otherwise authorized by the Personnel Board.

B. The first six months of employment shall be probationary period, at the end of which the employee may advance one step-rate, provided the Department Head and the Personnel Board decide a salary inequity exists. Otherwise, he shall come up for consideration after one year of continuous full time service.

C. Before any individual is hired by the Town, he or she will satisfactorily pass a pre-employment physical examination, to be administered without charge to the individual by a physician designated by the Town (unless performed by the State Civil Service Commission). This requirement is applicable to individuals employed for or transferred to full time jobs.

5. Fringe Benefits.

A. Vacation with Pay.

The following annual vacations with pay shall be granted to all employees who are on the payroll April

1, and who complete the following periods of full time continuous employment during the calendar year.

Service Period:

Vacation:

a. six months employment	September 15 — 1 week
b. one year employment	September 15 — 2 weeks
c. five years employment	September 15 — 3 weeks
d. ten years employment	September 15 — 4 weeks

In no case shall an employee take his vacation until he has been on the payroll six months. Vacations shall be granted by Department Heads at such times as, in their opinion, will cause the least interference with the performance of the regular work of the Department, but taking into account as far as possible the preference of the individual employee. Vacations must be taken in the year in which they are due. Should an emergency exist (as agreed upon by Department Heads and Personnel Board) carry-over vacation will not exceed 50% of the vacation allotted. Salaries shall not be paid in lieu of vacations. If a holiday falls within the vacation period of an employee, he shall be granted an additional day of vacation.

If the employment of a person, who has become entitled to an annual vacation but has not taken it, is terminated by dismissal through no fault or delinquency on his part, by resignation, written notice of which was received by the Department Head at least two weeks prior thereto, by retirement or by death, he shall be paid for his vacation period. In exceptional cases where circumstances prevent the giving of two weeks' notice, excluding cases where the employee resigns to take other employment, the two weeks' notice requirement may be waived and vacation pay be allowed by the Department Head with the approval of the Personnel Board. Upon the death of an employee entitled to a vacation allowance, the allowance shall be paid to the persons to who unpaid salary is payable.

If a former employee of the Town returns to the service of the Town and completes at least five years of continuous full time service following such return, the amount of continuous full time service immediately preceding the interruption of his work for the Town shall be added to the five or more years of current full time service to give total service for computation of vacation. Service in the Armed Forces shall not be considered an interruption of work for the purpose of computing total service credit.

B. Holidays with Pay.

All regular full time employees shall receive time off without loss of pay on the following state legal holidays — New Year's Day, Washington's Birthday, Patriot's Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving and Christmas; provided they are observed on a regularly scheduled work day.

C. Jury Duty.

Full time Town employees shall be entitled to leave with pay while serving on jury duty, such pay to be regular salary less jury fee.

D. Military Leave.

Full time Town employees shall be granted a maximum of two weeks leave per year with pay for annual military obligation, such pay to be regular salary less military pay.

E. Sick Leave

Full time Town employees shall accrue sick leave at a rate of one day per month, up to a maximum accrual of sixty days.

1. In the case of exceptional circumstances additional allowances may be granted on recommendation of the Department Head and approval by the Personnel Board. In determining whether such extended allowances shall be granted, the past absence of the employee, the length of continuous service with the Town and the quality of the employee's performance and record shall be taken into account. Consideration shall also be given as to what portion of the allowance shall appropriately be at full pay and what portion at part pay. Vacation period shall not be substituted for sick leave except in unusual circumstances and with the prior approval of the Personnel Board.

2. Employees shall notify their Department Head on the first day of absence due to non-service connected sickness or injury, stating the nature of the sickness or injury, time expected to be incapacitated and when they expect to return to work.

3. Department Heads shall be responsible to check on all such absences not later than the second day. If a doctor has been called by the employee, the Department Head shall also check with the doctor. A doctor's certificate shall be required after the seventh day. If deemed in the interest of the Town, the Department Head and/or the Personnel Board shall have an independent doctor make an examination and report.

4. Department Heads shall fill out an Absence Report, one copy for the department files and shall send one copy to the Town Accountant who shall maintain a Town absence File. All Absence Pay shall be so designated on the pay rolls.

5. This Program shall be administered by the Personnel Board, who shall interpret the provisions of the Program, and establish the details of administrative policies and procedures. Department Heads and employees shall furnish to the Personnel Board any information which the Board may request.

F. Overtime.

Overtime pay at a rate of time and one-half regular hourly rates shall be paid to all hourly rated permanent highway, cemetery, and park department employees for all approved time worked in excess of forty hours in any one week or in excess of eight hours in any one day.

ADJOURNED SPECIAL TOWN MEETING

November 9, 1965

The Special Town Meeting was called to order by the Moderator at 8:00 P.M. at High School, Winn Street, and motion was entertained by the Chair, that we adjourn same until Wednesday, November 10, 1965 at the High School Auditorium, Winn Street — 8:00 P.M. which motion was seconded and unanimously voted. (There was a power failure over New England which blacked out all activities.)

Attest:

MAUD S. GRAHAM,

Town Clerk

ADJOURNED SPECIAL TOWN MEETING

November 10, 1965

Meeting called to order by the Moderator, Thomas F. Murphy at 8:25 P.M. and it was unanimously voted that the reading of the minutes of the meeting November 9, 1965, the posting of the warrant and constable's return be waived.

The Moderator explained to the voters that he, the Town Clerk and the Selectmen were all present when the Special Town Meeting was called at 8:00 P.M. at the High School Auditorium November 9, 1965 and adjourned until November 10, 1965, Wednesday evening at 8:00 o'clock P.M. at the High School Auditorium on account of the Blackout that evening. He also informed the assembly that in all fairness to the people we should take up Article 1 only at this meeting as there was so much confusion regarding the adjourned meeting date.

At this time it was unanimously voted that when we adjourn this meeting we adjourn same until Monday evening, November 15, 1965 at 8:00 P.M. at the High School Auditorium, Winn Street, Burlington.

Article 1. It has been moved and seconded by the Regional School Committee that the town accept the Provisions of Sections Sixteen to Sixteen I, inclusive, of Chapter Seventy-One of the General Laws providing for the establishment of a Regional School District, together with the Towns of Bedford, Billerica, Tewksbury and Wilmington, and the construction maintenance and operation of a Regional School by the said District in accordance with the provisions of a proposed agreement filed with the Selectmen.

Messrs. Haigh and Bettinson explained the advantages of the Regional School for Burlington and what they thought it would mean to the town

Tellers were appointed and sworn by the Moderator to distribute the paper ballots to the voters and after they were marked the same were deposited in the ballot box. After they were taken from the box the tellers proceeded to canvass and count the same. The result of the vote was 177 in favor and 44 opposed with one blank. The number of ballots cast numbered 222.

At this juncture a motion was made, seconded and unanimously voted to adjourn this meeting until Monday, November 15, 1965 at the High School Auditorium at 8:00 P.M. Time 9:30 P.M. 230 checked in at this meeting.

MAUD S. GRAHAM,

Town Clerk

ADJOURNED SPECIAL TOWN MEETING

November 15, 1965

The Moderator called the meeting to order with 112 as checked in for the same, at 8:25 P.M. With the unanimous consent of the voters the minutes of the last meeting, November 10, 1965 and the constable's return were omitted as being read. The Moderator kindly asked the non-voters to sit in the center of the rear of the hall, and when this meeting adjourned it adjourn until Wednesday evening, November 17, 1965 at High School Auditorium, 8:00 P.M.

Article 2. (Transfer from School Salary Account and Expense Account to Future Land Sites Ac. Account) Voted that the town transfer the sum of \$5,000.00 from the School salary and expense account to the Future land Sites Acquisition Account, same to be spent under the direction of the Future school buildings needs and sites committee.

Article 3. (Saw Mill Brook Piping Account — to Temporary Loan Interest Account). Voted unanimously that the town transfer the sum of \$16,481.46 from the Saw Mill Brook Piping Account to the Temporary Loan Interest Account, same to be spent under the direction of the Treasurer.

Article 4. (Transfer from Saw Mill Piping Account to Police Station Needs Committee Expense Account). The Finance committee made a motion that this article be dismissed. Amendment made by Chief McCafferty that \$2,000.00 be transferred from the Saw Mill Piping Account to the Police Station Needs Com-

mittee expense account for the purpose of obtaining drawings and necessary information relative to the construction of a Police Station and or Town Hall, same to be spent under the direction of the Police Station Building Needs Committee. There was much discussion on this article after which it was voted to dismiss the article.

Article 5. (Transfer from Saw Mill Piping Account to the Fire Department Expense Account). Voted that the town transfer the sum of \$1,500.00 from the Saw Mill Brook Piping account to the Fire Department Expense account same to be spent under the direction of the Fire Chief subject to the Board of Selectmen.

Article 6. (Transfer from the Insurance Account to the Police Expense Account). Moved and seconded that the town vote to transfer the sum of \$3,000.00 from the Insurance Account to the Police expense account, same to be spent under the direction of the Board of Selectmen.

Amendment that we transfer \$4,000.00 instead of \$3,000.00, etc., was discussed and an amended motion was to the effect that we transfer the sum of \$4,000.00 from the Insurance Account to the Police Expense account, same to be spent under the direction of the Board of Selectmen. This was unanimously voted.

Article 7. (Transfer sum from Saw Mill Brook Piping Account to Roads Account). Voted that the town transfer the sum of \$2,931.59 from the Saw Mill Brook Piping Account to the ROADS account, same to be spent under the direction of the Board of Selectmen.

Article 8. Transfer from Asst. Eng. Acct. (salary) to ROADS Acct. — for Installation of Drainage). Finance committee made motion and seconded same to

have this article dismissed. A great deal of discussion on same. Motion that the town vote to transfer the sum of \$4,000.00 from the Asst. Eng. Account to the ROADS account for the installation of drainage piping and the construction of a road's surface on Hart Street, same to be spent under the direction of the Board of Selectmen. Voted to dismiss this article.

Article 9. (Transfer of money from Out of State Travel Account to Cemetery Labor Account). Motion made by the finance committee that articles 9, 10 and 11 be dismissed. An amendment to the motion was that we take up articles 9, 10 and 11 collectively and vote on same separately — so voted. Much discussion followed.

Article 9. Voted that the town transfer the sum of \$200.00 from the cemetery out of state travel account to the Cemetery Labor account, same to be spent under the direction of the cemetery commissioners.

Article 10. Voted that the town transfer the sum of \$140.08 from the cemetery dump truck account to the cemetery labor account, same to be spent under the direction of the cemetery commissioners.

Article 11. Voted that the sum of \$943.90 be transferred from Rubbish and Garbage account to the cemetery labor account to be spent under the direction of the Cemetery commissioners. Total amount of transfers amounting to \$1,283.98.

Article 15. After article 11 was disposed of Mr. Slowey asked to have article 15 acted on — this was unanimously voted.

It was moved and seconded that the sum of \$200,000.00 be appropriated in addition to the sum previously appropriated for the acquisition of land and for

constructing, originally equipping and furnishing an elementary school; that to raise this appropriation the treasurer with the approval of the Selectmen is authorized to borrow \$200,000.00 under Chapter 645 of the Acts of 1948 as amended.

Much discussion followed after which a motion was made and seconded that this article be dismissed — at this juncture previous question was asked for and it was unanimously voted to stop debate. Tellers were appointed by the Moderator and those in favor of dismissing the article for the additional funds numbered 71 — those opposed 83. The motion to dismiss was lost.

The main motion was now taken up which required a two-thirds vote for passage. Those in favor 96, those opposed 72. The motion was lost. Immediately Mr. Nazzaro wished to be recorded as asking for reconsideration at the next adjourned town meeting, November 17, 1965.

Motion made, seconded and voted to adjourn the meeting at this time, 11:15 P.M. until Wednesday evening, November 17, 1965, 8:00 P.M. at the High School Auditorium. Those checked in numbered 216.

ADJOURNED SPECIAL TOWN MEETING

November 17, 1965

The adjourned town meeting called to order by the Moderator with a quorum present. The Moderator asked the non-voters to sit in the rear of the hall and entertained a motion from the Chair that the minutes of the last meeting, posting of the warrant and constable's return be waived, which was voted. Unanimously voted by the assembly that when we adjourn this meeting it be adjourned until Monday, November 22, 1965 at 8:00 P.M. at the High School Auditorium.

Article 12. (Transfer from Recreation Director Salary Account to Assistant Director Salary Account). Voted that the sum of \$540.00 be transferred from the Recreation Director's salary account to the Assistant Director Salary Account, same to be spent under the direction of the Park Commissioners.

Article 17. (Restricting Use of Park Department). Unanimously voted that the town restrict the use of that part of the Park Department land known as the "Common", bound by Bedford Street Center Street and Cambridge Street, and including the Veterans' Memorial as constructed, for the purpose of beautification; and that no form of athletic facilities and or athletic use shall be constructed thereon or shall any existing athletic facility remain thereon in the final draft and implementation of said land.

Article 13. (Transfer sum from Recreational School Land Improvement Account to the Park Common Improvement Account). Voted that the town transfer the sum of \$1,500.00 from the Recreational School Land Improvement account to the Park Common Improvement Account for drawings, surveys and archi-

tectural fees, for the beautification of the Simonds Park Common, same to be spent under the direction of the Park Commissioners.

Article 14. (Transfer from Recreational School Land Improvement Account to Park Land Acquisition Account). Voted that the town transfer the sum of \$1,000.00 from the Recreation School Land Improvement account to the Park Land Acquisition account to obtain options on land for recreation purposes, same to be spent under the direction of the Park Commissioners.

After article 14 was disposed of it was unanimously voted that article 15 be taken up for reconsideration at this time.

Article 15. It was moved and seconded that the sum of \$200,000.00 be appropriated in addition to the sum previously appropriated for the acquisition of land and for constructing, originally equipping and furnishing an elementary school; that to raise this appropriation the treasurer with the approval of the Selectmen is authorized to borrow \$200,000.00 under Chapter 645 of the Acts of 1948, as amended. There were 169 in favor and 52 opposed. The motion carried.

Article 16. (Salary and Classification Plan). The Personnel Board explained article 16 regarding salary administration and classification plan to the people making amendments to different plans during the time of explanation. Unanimously voted to accept the plan with the various amendments — copy of same on file in Town Clerk's office.

Article 18. (Increase Number of Selectmen from 3 to 5). Voted to increase the number of Selectmen from three members to five members in accordance with General Laws Chapter 41, Section 2 with the increase in number to be elected at the March 1966 Annual Town Meeting — one for one year, and one for two years and

each year thereafter to be elected for a three year term.

Article 19. (To Establish Conservation Commission). Voted that the town accept the provisions of General Laws Chapter 40, Section B-C, as amended, and establish a Conservation Commission of the Town of Burlington for the purposes and with the rights and duties provided by law, to be composed of 5 residents of the Town appointed by the Selectmen for terms of three years except that initial appointments shall be 1 for one year, 2 for two years and 2 for three years and there be established a Conservation Fund.

Article 20. (Establish a Committee to Study the revaluation of the Town). Voted that the town establish a committee to study the feasibility of hiring a professional assessing firm to reevaluate the town of Burlington. Said committee to consist of 9 members to be appointed by the Moderator, and shall consist of at least one member of the Board of Assessors and one member of the town finance committee; this committee to report back their findings and recommendations to the Town at the Annual Town Meeting 1966.

Article 21. (Police Department Members To Live Out of Town). Voted that the town adopt Section 99A of Chapter 41 whereby members of the regular police department of said town who have been members of said department for at least five years may reside outside said town; provided they reside within the commonwealth and within ten miles of the limits of said town.

Motion was made at this time, seconded and voted to adjourn this meeting until Monday evening, November 22, 1965 at High School Auditorium at 8:00 P.M. Time 11:05 P.M. So voted. 260 voters checked in.

ADJOURNED TOWN MEETING

November 22, 1965

The adjourned town meeting was called to order by the Moderator at 8:35 P.M. and declared a quorum present. By unanimous consent of the voters it was agreed to waive the reading of the minutes of the previous meeting and also the constable's return.

Article 22. Was the first on the agenda. Motion was made and seconded that the town should build a new high school, and was suggested that we discuss articles 22 and 23 together but take up each article separately.

There was a great deal of controversy on this subject and Mr. Rogers explained the situation as he saw it. Dr. Dunseith showed slides for a 4 year high school based on Marshall's Projection, after which Mr. Field and Valenti discussed their views.

Article 22. It was unanimously voted that the town build a High School.

Article 23. Unanimously voted that the town authorize the Board of Selectmen to apply for and accept an interest free advance from the United States through the Housing and Home Finance Agency, Community Facilities administration, in an amount not to exceed \$200,000.00 for the purpose of financing the cost of engineering and architectural services as necessary to prepare plans and specifications for the construction of a High School and to obtain bids for the proposed construction, such advance to be spent under the direction of the Standing School Building Committee; and to request an appropriation at the Annual Town Meeting

immediately following the receipt of bids, or at a Special Town Meeting, from which to return the United States funds and to pay for the proposed construction.

Article 24. Unanimously voted to amend the vote taken under Article 5 of the Special Town Meeting of December 18, 1962 relating to the description of land to be acquired by the exercise of Eminent Domain, so that the said description shall read as follows:

A certain parcel of land situated on the Southwesterly side of Cambridge Street, both sides of South Bedford Street, the Southeasterly side of Blanchard Road, and the Easterly side of Muller Road, Burlington, Middlesex County, Massachusetts, known as the Cummings' Estate, being further bounded and described as follows:

Beginning at a point on the Southwesterly side of Cambridge Street at land of Alan Gray, Inc., thence turning and running,

SOUTHWESTERLY by and with a stone wall and by land of Alan Gray, Inc., one hundred twenty-five (125) feet, more or less, to a corner in said wall; thence turning and running,

NORTHWESTERLY again still by said stone wall and by land of said Lanni Trust, one hundred fifty (150) feet, more or less, to a corner in said wall; thence turning and running,

SOUTHWESTERLY again still by said wall and by Lanni Trust, eighty-five (85) feet, more or less, to a corner in said wall; thence turning and running,

NORTHWESTERLY again still by said wall and in part by said land of Lanni Trust, and in part by land of Irving M. and Gertrude B. Fernald, five hundred thirty (530) feet, more or less, to a corner in said wall at land of Houghton-Mifflin Co. Inc.; thence turning and running,

SOUTHWESTERLY again by said stone wall and said land of Houghton Mifflin Co. Inc., three hundred fifty-five (355) feet, fore or less, to a corner in said wall on South Bedford Street; thence turning and running,

SOUTHWESTERLY again diagonally across said South Bedford Street to a point in the Southerly sideline of Blanchard Road and a stone wall where said Blanchard Road forms an intersection with said South Bedford Street; thence turning and running,

SOUTHWESTERLY by said Blanchard Road and said stone wall by several courses respectively measuring, seven hundred (700) feet, more or less; twelve hundred twenty (1220) feet, more

or less; two hundred sixty-seven (267) feet, more or less; three hundred ten (310) feet, more or less; one hundred sixty (160) feet, more or less; two hundred seventy-three (273) feet, more or less; and two hundred fifty (250) feet, more or less, to Muller Road at the intersection of said Blanchard Road; thence turning and running more,

SOUTHERLY still by said stone wall by the intersection of said Blanchard Road and Muller Road, and by said Muller Road, by several courses respectively measuring, one hundred (100) feet, more or less; one hundred seventy (170) feet, more or less; seven hundred forty (740) feet, more or less; and three hundred ninety (390) feet, more or less, to land of Thorstensen & Parker, Inc.; thence turning and running,

SOUTHEASTERLY by said land of Thorstensen & Parker, five hundred forty-seven (547) feet, more or less, to a point, thence turning and running,

SOUTHWESTERLY again still by said land of Thorstensen & Parker, two hundred forty-five (245) feet, more or less, to a point at land of Richard D. and Dorothy Hamilton; thence continuing in the same direction by said land of Hamilton by several courses respectively measuring, fifty-six and $78/100$ (56.78) feet, more or less, thirty-nine and $59/100$ (39.59) feet, more or less; twenty-seven (27) feet, more or less, sixty-seven and $58/100$ (67.58) feet, more or less; and seventy-nine and $96/100$ (79.96) feet, more or less; to land of Parkwood Construction Corporation; thence turning and running,

EASTERLY by said land of Parkwood Construction Corporation, two hundred ninety-six and 25/100 (296.25) feet, more or less, to a corner; thence turning and running,

SOUTHEASTERLY in part by land of said Parkwood Construction Corporation and in part by land of William McDevitt, nine hundred (900) feet, more or less, to the boundary line between the Town of Burlington and the City of Woburn; thence turning and running,

NORTHEASTERLY by said boundary line and by other land of the City of Boston in a straight line and an indefinite distance to a stone bound in said boundary line, which stone bound is shown at Location No. Nine (9) on Sheet 25 in a volume entitled "Atlas of Boundaries of the Cities of Cambridge, Somerville, Waltham, and the Towns of Belmont, Burlington, Lexington and Watertown" by the County Commissioners of Middlesex County, dated 1903, which volume is on file with the Engineering Office for the Town of Burlington; thence turning and running, more

EASTERLY still by said boundary line by land of City of Boston, one hundred sixty-five (165) feet, more or less, to said Cambridge Street; thence turning and running,

NORTHWESTERLY by said Cambridge Street, one hundred five (105) feet, more or less, to the point of beginning.

Meaning and intending to take herein so much of the premises as are situated within the limits of the Town of Burlington as were devised to the City of Boston by the late Mary P. C. Cummings under the provisions of the fourth clause of her will, and "The Blanchard Lot", so-called, situated at the intersection

of Blanchard and Muller Roads, devised under the eighth or residuary clause of said will by the said City of Boston, see Middlesex Probate Docket No. 165472.

Saving and excepting herefrom however, so much of said premises as was taken by the Burlington Water District, see Plan No. 1674 of 1958 and Record Book 9294, Page 28.

Excepting herefrom also so much of said premises as were conveyed by the United States of America to Northeastern University, see Book 10286, Page 25.

Saving and excepting herefrom also so much of said premises as has been retained by the United States of America on South Bedford Street and Blanchard Road, which premises were acquired by Condemnation Proceedings by the United States of America versus the City of Boston, the record of which having been duly recorded with the Middlesex South District Registry of Deeds, and subject to easements established and reserved therein.

Subject also to street layouts by the County Commissioner of Middlesex County and the Commonwealth of Massachusetts.

Subject also to an easement to the Northeastern Gas Transmission Company, see Book 7822, Page 482.

Article 25. Voted to rezone from residence zone to business zone a parcel of land owned by Robert U. Johnsen and Elizabeth E. Johnsen, said parcel of land being situated at 209 Cambridge Street. All as more clearly shown on a Plan on file with the Town Clerk. 139 in favor; 23 opposed.

Article 26. Unanimously voted that the Town rezone from Residential Zone to Business Zone, the land of Murray Hills, Incorporated, and Albert R. Ross, lo-

cated at 378 Cambridge Street, Burlington, consisting of the rear portion of lots 4 and 5 and all of lots 6-7-8 and 9, Bungalow Park, Burlington, Massachusetts, containing 40,000 square feet of land more or less. All as shown more fully on a plan with the Town Clerk.

Motion made, seconded and voted that this meeting be adjourned — 10:00 P.M. Total number checked in — 188.

MAUD S. GRAHAM,

Town Clerk

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen and the
Citizens of Burlington:

I herewith submit my report as Chief of the Fire
Department and Forest Warden for the year 1965.

During the year, this department answered 934
calls as follows:

Ambulance	280
Fire Truck to Accident	6
Rescue	30
Miscellaneous	43
Grass	78
Brush and woodland	147
Building	45
Rubbish	42
Automobiles	55
Trucks	7
Electrical	28
False	39
Accidental	39
Oil Burners and Heaters	12
Chimney	3
Out of Town	45
Gas Leaks	3
Smoke Scare	22
Scuba Divers	3
Bomb Scare	7

The following equipment was used:

640,000 feet of 3/4" hose
15,500 feet of 1 1/8" hose
10,100 feet of 1 1/2" hose

7,250 feet of 2 1/2" hose
85,947 gallons of water from booster tanks
348 feet of ladders
84 acres of brush and woodland
22 acres of grass burned

New Ambulance, Engines 1, 3, 4, 6, and New Ford Pick-up Truck are in good condition. The old Ambulance and Engine 2 are in fair condition. Engine 5 is in very poor condition and must be replaced.

The manual force consists of 27 permanent and 15 call men. The permanent force is composed of a Chief, 1 Deputy Chief, 4 Lieutenants, 21 firefighters and 2 Chaplains.

This year the Fire Department has continued to extend the Fire Alarm system. Seventeen new fire alarm boxes have been installed in various parts of the town. A new loop around Mill St. to Skilton Lane has been completed. With the return of good weather, new street fire boxes will be installed on this loop. The new modern fire detection system has been completed at the Memorial School. The Center School has a modern Flex Alarm Cabinet installed this year. We hope to install a fire Detection System in the entire building in 1966. This school is only partially covered by fire detectors. The Center School will be the last school to be covered by these detectors, as all the other schools are entirely covered. The Highway garage has been completed with fire detectors and connected to the fire department. We would like to see this building have a sprinkler system installed. A new underground cable has been installed and completed to the Fire Station. The old cable had to be removed due to the expansion of the First Federal Bank.

I would suggest that a Fire Station be erected near the Industrial Park and the new complex of stores that

are to be constructed near Middlesex Street. The station should be built and manned before the completion of the stores, to provide fire protection to this area, which consists of Industry, Stores and Homes. It requires five (5) minutes for the fire trucks to get to this area in normal weather from the Central and *only* station.

I am again asking the citizens of Burlington for a new ladder truck, and a cab and chassis to replace engine No. 5.

I wish to express my appreciation to the residents of the Town of Burlington for their cooperation in fire prevention, the permanent firefighters who have responded to alarms when off duty, and the members of other Town Departments for their assistance and cooperation. I wish to express my appreciation to all the call Firefighters who have responded to the alarms unfailingly during the year, and the Auxiliary Fire Department who gave so much of their time and talent.

Respectfully submitted,

HERBERT W. CRAWFORD,

Chief of the Fire Department
and Forest Warden

REPORT OF THE FUTURE SCHOOL BUILDING NEEDS AND SITES COMMITTEE

To the citizens of Burlington:

Toward fulfilling its responsibility to study school building needs on both a near and long range basis and to recommend action in this respect, the committee has in the past year:

- . . . proposed the need for and supported the SSBC in their drive to win approval for a 28 room elementary school;
- . . . worked with educational consultant, John E. Marshall in regularly scheduled meetings to effect early in July the publication and distribution of the Marshall Study of School Building Needs in Burlington — a study which made recommendations for meeting these needs and set down guide lines for immediate and future action as well as estimated costs for each of the building programs recommended;
- . . . sponsored a general meeting of all town officials and committees and boards affected and considered interested on July 27, 1965 for the purpose of discussing the recommendations made in the Marshall Study, Dr. Marshall being present to answer any questions anyone might have concerning the study and its recommendations, and to discuss procedural plans for implementing these recommendations;
- . . . recommended at the above meeting that priori-

ty be given to acquiring a site for the proposed four year high school and that action for the construction of the proposed high school be initiated at the special town meeting in the fall;

- . . . secured from the school committee and the school administration approval of and support for the acquisition of a site for a four year high school and the initiation of action to effect the construction of the proposed school as soon as possible;
- . . . sponsored article for initiating above action, special town meeting, November.
- . . . secured the cooperation of both the PTO council and the Jaycees in conducting a school census to keep abreast of the population picture either in late spring or early fall of 1966 should efforts fail to promote a single yearly town census which would include needed school information.

Toward fulfilling its responsibility to acquire sites for school buildings, the committee has in the past year:

- . . . submitted an article on the annual town meeting warrant in March for the purchase of a site on Westwood Street at the end of Fox Hill Road for the 28 room elementary school, this site, in the opinion of the committee, being the best of the eleven in the area subjected to exhaustive study;
- . . . undertaken an evaluation of the following sites as possible locations for the new large high school — the 48 acre Breen-Sleeper property,

the 60 (or more) acre City of Boston land, the 200 acre United Carr Fastener property, the 60 acre Dobbins property, the 45 acres or more remaining of the Quinn property, and a piece of land on Mountain Rd. of undetermined acreage;

- . . . undertaken an investigation of a site on Chandler Road as a possible location for the proposed third middle or junior high school as recommended by the Marshall Study and an investigation into the available land adjacent to the Center School for expansion of that facility for another elementary school.

Having decided on this procedure for the selection of the site for the proposed four year high school — to weigh development cost against acquisition cost while taking into consideration such other aspects as access, traffic hazards, safety, legal and zoning status, transportation costs, and the availability of sewer (considered a MUST for a school of this size) the committee plans to present its recommendation for the high school site purchase at the annual town meeting in March.

The committee has expended in 1965 \$180 for aerial photographs of certain specific sites, \$968 for test borings on the Breen-Sleeper property, and \$87 for committee expenses, a total of \$1235. The School Committee underwrote the \$5500 for the Marshall Study, of which the state will reimburse 50%. A transfer of \$5000 from the school committee to the needs and sites committee was made in November to make possible certain evaluative studies deemed necessary for the ultimate selection and recommendation of the site for the proposed four year high school.

On November 24, 1965 William Sunderland submitted a letter of resignation to the committee which

was accepted by the committee on December 7, 1965, and the Planning Board was informed of the resulting vacancy by letter dated December 8, 1965.

To accomplish those things included in this report, the committee has met on an average of three times a month and on Saturdays and Sundays on a number of occasions to tour each of the sites reported here to be under investigation as possible future school sites.

The committee extends its thanks to the School Committee in particular for its understanding and cooperation and to all other town boards and officials who have been helpful in certain specific instances throughout the year.

Respectfully submitted,

REPORT OF THE BOARD OF HEALTH

January 1, 1966

To the Citizens of Burlington:

In March 1965, Kenneth C. Morrison was re-elected to the Board of Health.

Meetings are held the second and fourth Mondays of the month with special meetings at the call of the Chairman. David G. Piper was elected Chairman of the Board of Health in 1965.

We have had various public health programs, polio clinics, chest x-rays, measles clinics, mantoux tests, Well Child Clinics, etc. for the townspeople, which reports are more thoroughly covered in the Public Health Nurse's report.

We request that you read our various reports from the Assistant, Food and Milk Inspector, Animal Inspector and Public Health Nurse to better understand the complete functions of the Board of Health.

The Board of Health wishes to thank the Board of Selectmen, Planning Board, the various doctors in the Town and the residents of the Town for their cooperation and interest in our efforts over the past year.

Respectfully submitted,

DAVID G. PIPER, Chairman

MARY E. BENNETT

KENNETH C. MORRISON

REPORT OF THE ASSISTANT TO THE BOARD OF HEALTH

To the Honorable Board of Health
Burlington, Massachusetts

Dear Members:

I herewith submit my report as Assistant to the Board of Health for the year 1965.

There were 173 permits issued for new installations and repairs to old private sewerage disposal systems. For these permits the sum of \$1,201.00 was collected as fees.

There were numerous complaints to be investigated relative to rodents, odors in neighborhoods, water in cellars or on land, rubbish discarded or allowed to accumulate, mosquitoes bothering sections of the Town and other nuisances which were adjusted to the best of our ability.

There were 264 plumbing permits issued, the revenue from which amounted to \$1,727.00. All of these which have been completed have passed my inspection.

There were 320 permits issued for gas installations for which the Town received \$804.50. At this time I would like to again caution any resident who has any gas appliance installed to be positive that a licensed gas fitter or plumber installs it and that there is an inspection. A test must be placed on these installations to make sure that the installation is not defective.

Respectfully submitted,

VINCENT F. HOWARD,

Assistant to the Board of Health

REPORT OF THE BOARD OF HEALTH NURSE

January 24, 1966

Board of Health
Burlington, Mass.

Honorable Members of the Board:

I hereby submit the Board of Health Nurses annual report for the year 1965:

Home Visits: 1102 visits to 379 persons for bedside nursing; 115 visits for maternal and child health guidance.

Tuberculosis Screening Programs: Chest X-ray Mobile Unit: 487 residents x-rayed. Tuberculin Tine Test: 1153 students tested in grades 1, 7, 11 and 12; 76 faculty and other school employees.

Polio Immunization Clinics: 237 doses administered in three clinics.

Measles Immunization Clinics: 496 doses administered in two clinics.

Well Child Conferences: 119 infants and pre-schoolers examined by Dr. Leach in twelve clinics.

I wish to take this opportunity to thank the Board members, and all the local physicians, nurses and volunteers who so willingly gave of their time and skills to help carry out our health program for the year. Also, many thanks to all our local newspapers, The Burlington News, Times-Union, Lowell Sun and Woburn Daily Times for their excellent coverage and cooperation in all our health programs.

Respectfully submitted,

EILEEN M. GAUTHIER, R.N.,
Board of Health Nurse

REPORT OF THE BOARD OF HEALTH DENTIST

To the Board of Health:

I hereby submit my report as Board of Health Dentist for 1965.

As in the past years, two Department of Public Health cards were issued. This year a greater number of cards were returned, showing an increased parental interest in dental care.

Although the number of children affected by dental caries (decay), has not decreased, there is an ever larger number of children receiving dental care, especially to the deciduous teeth.

The Board of Health gave its whole hearted approval to the clinical research work on Flouride and non-flouride type dentrifices, now being conducted by Dr. M. Michael Cohen of the Department of Oral Pediatrics of Tufts University School of Dental Medicine. Oral hygiene during school hours is being stressed, and some of the lessons being learned are "rubbing off" on other members of the involved families. It is hoped that two or three years after the termination of this program, a re-evaluation of the children involved, can be made to see what lasting and real progress has been accomplished.

I want to thank the Board of Health, the School Committee, the Superintendent of schools, and all the principals and their secretaries, the Public Health Nurses and all school nurses for their wonderful co-operation and assistance.

Respectfully submitted,

MERTON S. BRANDES, D.M.D.

REPORT OF SANITARIAN

Board of Health
Burlington, Mass.

To the Honorable Chairman:

I again have the honor to present the report of the Sanitarian for the year ending, December 31, 1965.

There were two hundred sixty-four samples of milk and cream taken at random from delivery trucks and retail outlets which were examined for conformance of State Standards on butterfat, coliform, total solids, bacterial count and phosphatase.

Four hundred thirty-two bacterial swabs were taken of eating and drinking utensils at those establishments serving food or drink.

Complaints received in regard to quality of product were thoroughly investigated.

One thousand seventy-five pounds of meats, flour, sugar, peanuts and fifty gallons of canned fruits were found unfit for human consumption and were destroyed.

Samples of water were taken and examined for evidence of sewerage in several "problem areas".

I completed an extensive training course given to Food and Drug Officials by the United States Department of Public Health in Washington on emergency preparedness.

I wish to express my appreciation to your board and other town officials and departments for their co-operation in the administration of my duties.

Respectfully submitted,

ROBERT W. RIMBACH, R.S.,
Sanitarian

REPORT OF PARK AND RECREATION DEPARTMENT

To the Townspeople of Burlington:

This year's budget proposal of the Park and Recreation Department is an attempt to bring the Department's facilities and Programs more in a line with the needs of the Town.

As we look back over the past 6 years, we can see a marked contrast between the Park Budget and those of other departments. The Park Department's budget has been kept low as contrasted to the total budget. Last year's budget, including capital expenditures, has been 1.8% of the total. Considering that well over half of the population are children and that, according to the Marshall Report, there are more children not in school than there are presently enrolled, we can look for a school population of 9,000 in 6 years.

The Park and Recreation Department of Burlington has accomplished many goals in 1965. This report will deal with each area of the department separately. (1) Youth Center (2) Summer Program (3) Major Improvements (4) Future Plans (5) Long Range Planning.

Youth Center

The Center in 1965 has a membership of over 500 young boys and girls in grades 7-12. The members participated in many scheduled programs as well as numerous special events.

The scheduled programs included, first girls,

- (1) Cake Decorating classes.
- (2) Sewing.
- (3) Cooking.
- (4) Arts and Crafts

(5) Liquid Embroidery.

Boys:

(6) Boxing Classes.

(7) Weightlifting Classes.

(8) Game Rooms open 6 days per week.

In addition to our regularly scheduled Youth Center programs, a Flag Football program was held at Simmonds Park, Center School, and on the Common for over 125 4th and 5th grade boys which comprised a six team Midget League division. At Marvin Field two nights per week, 60 boys enjoyed a Junior Division Flag Football program in grades 6-7-8.

In Basketball over 130 boys of 4th and 5th grade age made up a Midget league of eight teams which played on Friday nights at Center School and at the Pine Glen. Boys in grades 6-7-8 comprised a Junior League division which has over 50 boys who played each Friday night at the Memorial School.

On Saturday mornings over 40 girls enjoyed a basketball program at the Pine Glen School.

Now in addition to all this many special events took place at the Youth Center through the year as follows:

- (1) Christmas Dance
- (2) New Year's Party
- (3) Valentines Dance
- (4) Skiing, Skating and Tobogganning
- (5) Irish Nite
- (6) Swimming at Woburn Boys Club
- (7) Basketball Banquet
- (8) Fashion Show
- (9) Cake Decorating Contest
- (10) Youth Center Float
- (11) Hawaiian Night
- (12) Reception of New Members

- (13) Back to School Dance
- (14) Halloween Party
- (15) Flag Football Banquet

Summer Program

In 1965 the department summer program expanded into the largest endeavors it has ever undertaken. There were five areas in operation (1) Simmonds Park (2) Wildmere Ave. (3) Youth Center (4) Wildwood School (5) Pine Glen, and an excellent staff of 10 men and women. The activities that were conducted included: archery, baseball, tennis, volleyball, kickball, football, arts and crafts, horseshoes, checkers, badminton, basketball, golf, softball, special events, and physical fitness. Our attendance at these areas was very high due mainly to the fine leadership and the excellent program which was offered the children. The attendance averaged about 440 per day on the combined areas.

Major Improvements

(1) Installation of lights at Marvin Field enabling for maximum year around use at this facility.

(2) Installation of lights on three tennis courts and a basketball court at Simmonds Park which enabled the full use of our excellent facilities.

(3) The addition of three new baseball diamonds, two at Memorial School and the other at Center School.

(4) The black-topping of the roadway at Simmonds Park and also along the walks at the 3 Tennis Courts and the Basketball Court.

(5) The hiring of a full time Recreation Director.

(6) The equipping of the bulk of the Youth Center Facility.

(7) The addition of new playground equipment on our summer areas.

Future Plans — 1966

(1) Building of an enclosed — year around swimming pool at the Youth Center.

(2) Expansion of our summer program to include 8 areas so that we may better serve the population of the town. This will be done by the purchase of more land.

(3) The purchase of a school bus to facilitate increasing the attendance at the Youth Center and for use at the summer areas.

(4) Expansion of our Youth Center program to include: ceramics, girl keep fit classes, tumbling and gymnastics for both boys and girls, wrestling and judo for boys and additional special events.

(5) On our outside programs, plans call for the expansion of our flag football leagues, creation of new programs to include an Easter Egg Hunt and a Golden Age Club for our elder citizens.

(6) A brochure to be drawn up dealing with Recreation to better help our people to know what services we are offering in the way of recreation.

(7) The painting of the interior and exterior of all the Youth Center Buildings.

(8) The purchase of more equipment to better serve our program needs in the recreation areas.

(9) The purchase of steel bleachers, outfield fence and permanent hockey rink for Marvin Field.

(10) The building of a combination basketball and skating area for Simmonds Park.

(11) The purchase of a $\frac{3}{4}$ ton Dodge Dump body pick-up truck.

(12) Addition to Simmonds Park building to enable us to have adequate storage area and provide more space for town groups to meet.

(13) The beautification of the Town Common in its entirety.

Long Range Planning

(1) The purchase of more land for both recreation use as play areas and also as passive recreation as (picnic, hiking, etc.)

(2) The development of additional recreation areas for skating and tennis playing in varied parts of town.

(3) The building of a gymnasium to better serve our Youth Center programs.

(4) The addition of baseball areas to better serve the needs of our growing organizations, such as Little League, Connie Mack, and Babe Ruth.

In summary we, the Burlington Park and Recreation Commissioners would like to wholeheartedly thank each and every tax-payer, organization, and interested individuals who have so graciously supported our program in the past year. Undoubtedly without your support nothing could have been accomplished. In closing may we ask once again for your support in our plans for the year 1966.

Respectfully submitted,

James W. Bird, Chairman

Thomas J. Flaherty, Vice-Chairman

Whitney H. Coleman

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen :

I herewith submit my report as Tree Warden for the year 1965.

I have answered numerous calls as to the reason for dead and dying trees and for the reason for early fall coloring and leaf shedding. The continued drought has caused most of this, oaks, maples, beeches, and other species are really suffering. Maples were one of our first trees to fall victim to road salt, now pine and ash trees are feeling the effects of it. If winter is dry and windy this could seriously weaken trees further, a winter drought could kill many trees outright and without soil moisture, the danger of roadside injury would be aggravated, the salt would be concentrated near roots of roadside trees, lacking the dilution that comes when soils are subject to leaching rains.

Respectfully submitted,

RALPH E. KNOWLES,

Tree Warden

REPORT OF SEALER OF WEIGHTS AND MEASURES

January 3, 1966

Honorable Board of Selectmen
Burlington, Mass.

Gentlemen:

I hereby submit my report as Sealer of Weights and Measures for the Town of Burlington for the year ending December 31, 1965.

The following pieces of apparatus have been tested by me:

74 Gas Pumps

14 Grease Pumps

50 Scales

1 Vehicle Tank

Respectfully submitted,

PHILIP PULEO,

Sealer of Weights and Measures

REPORT OF VETERAN'S GRAVES OFFICER

To the Citizens of the Town of Burlington:

All known Veteran's Graves in the Burlington Cemeteries were properly cared for and marked. A geranium and an American flag were put on every known Veteran's grave for Memorial Day.

At the present time a filing system is being instituted for the keeping of adequate records.

I wish to take this opportunity to thank all of the Veteran's organizations of the Town for their cooperation during the year.

Respectfully submitted,

CHARLES P. CASASSA,

Veteran's Graves Officer

REPORT OF DOG OFFICER

14 Stoneybrook Road
Burlington, Mass.
December 31, 1965

Board of Selectmen
Town Hall
Burlington, Massachusetts
Att: Mr. Charles L. Shea, Chairman

Gentlemen:

The following is my report as Dog Officer for the Town of Burlington, for the year ending December 31, 1965:

Dogs, injured and destroyed	3
Dogs, lost and found	132
Dogs, destroyed at request of owners	5
Dogs, killed by motorists	155
Dogs, strays, turned over to Mass. Medical Society	101
(with resultant reimbursement to town of \$3.00 per dog)	

Upon receipt of the Dog Warrant signed by the selectmen, there were 545 notices typed and mailed to delinquent licensees of dogs. Second notices were necessary in 232 cases.

There were 1699 licenses issued by the Town Clerk at the close of business December 31st. Current numbers will run to March 31, 1966, with new 1966 tags due on April 1st, 1966.

Respectfully submitted,

THOMAS K. SHORT,
Burlington Dog Officer

REPORT OF THE CEMETERY COMMISSIONERS

To the Citizens of the Town of Burlington:

The year 1965 was again a year of progress for your Cemetery department.

The stone pillars at the main entrance to the Cemetery were moved and reset to allow for a wider entranceway into the Cemetery. The older pillars were far too narrow for the cars of today and were considered to be a hazard.

No trespassing and no dumping signs were erected on the Raymond Road side of the Cemetery.

Approximately forty feet of cement drain pipe was installed at the rear entrance of the Cemetery, Raymond Road. This was done to drain the gully area, so as to remove a dangerous hazard, and to eliminate a mosquito breeding area. Children of the neighborhood were playing in the water. It is hoped that this action will solve these two problems.

In regards to the City of Boston land, Town Counsel has advised this Board that the case was to come before the Courts in October, 1965. To date, December, 1965 there has been no action. Upon further inquiry we were advised by the Town Counsel that the matter will come before the courts sometime in January 1966. In view of the pending litigation, your Commissioners did not feel it advisable to proceed with the survey, borings and land contour layouts of this land, which is desperately needed. If the Boston land was made available to us in 1966, it is estimated that it would take at least two or three years before it would be ready for interment purposes. The need for more land is rapidly becoming acute. Your Cemetery Department is currently in the process of making land in the gully area, far rear of the Cemetery.

Written permission was secured from a Mr. Ernest Jones, Carey Avenue, whose rear boundary line abuts the cemetery, to bulldoze a sizeable hill into the beginning of the gully, thereby saving the town the cost of hauling considerable fill. It is estimated that this action, along with additional fill, and the clearing of trees and stumps, that about one acre, more or less, of land can be made available for interment purposes. The estimated cost of the entire project is in the vicinity of ten thousand dollars, and will provide approximately 600 more interment lots. The cash return over a period of a number of years will be about sixty thousand dollars; thirty thousand for the sale of the lots and thirty thousand dollars to the perpetual care account. It is planned to seek the transfer of eight thousand dollars from the sale of graves account (which will not add one penny to the tax rate) to commence this project. It is planned and hoped that this project can be completed without any appropriation that would add to the tax burden.

The adoption by the town of time and one-half for over forty hours, and Saturdays, has necessitated our asking for an increase in the Labor account this year. There have been fifteen interments on Saturdays this past year. Effective as of January 1, 1966, there will be an increase in the cost of interments on Saturdays and holidays to off set the increased labor costs. This increase was decided upon after a survey of other municipal cemetery practises.

A sizeable increase in the theft of flowers from the graves was noted this year. The thefts were very noticeable just prior to Mother's Day and Memorial Day. It is hard to believe in this day and age that there are people low enough and despicable enough, to do this sort of thing. But unfortunately the condition exists, not only in the Town of Burlington, but all cemeteries in the surrounding towns report the same condition.

Complaints were lodged with Police Chief McCafferty and investigations were made.

Plans are being discussed for further improvements for the front of the Cemetery and the side and rear of the garage area. Your Commissioners feel that they have a very progressive program for the year 1966 and solicit your support and approval.

It was with sincere regrets that the Commissioners learned that Mr. George Ganley, Chairman of the Board, had submitted his resignation to the Board of Selectmen, effective as of December 1, 1965.

At a regular meeting of the Board on December 13, 1965, Mr. Harold B. Locke of 128 Bedford Street, was nominated to fill the unexpired term of Mr. Ganley. On December 15, 1965, Mr. Locke's nomination was unanimously approved at a regular meeting of the Board of Selectmen.

During the year there were 56 interments in Chestnut Hill Cemetery. This is an increase of 14 in 1964. The sum of \$7991. has been turned over to the town for the following accounts:

Annual Care	\$ 346.00
Perpetual Care	3,175.00
Sale of Graves	2,470.00
Interments	1,695.00
Miscellaneous	305.00
	<hr/>
Total	\$7,991.00

The Commissioners wish to thank all town departments for their help and cooperation during the past year.

Respectfully submitted,

Charles P. Casassa, Chairman
John H. Peterson
Harold B. Locke

REPORT OF LIBRARY TRUSTEES

Several years ago we realized the need of a new library. Articles regarding this were voted on in 1963.

We will anticipate the report of the Library Building Committee and trust no further delays will keep the library from being started. We cannot do anything to expand our program under present crowded conditions.

We have interviewed several people in anticipation of a full-time administrator. This position will be filled prior to the completion of the new building.

The Summer Book Worm Club met with enthusiasm by the young people. At the close of this program we were pleased to award books to five young readers. Our sincere thanks are extended to Houghton and Mifflin Company for giving these books to the children. Working on this program along with their regular work certainly crowded the busy days of our two assistants Mrs. Phillippy and Mrs. Sherwood.

Hours to accommodate Junior High students are under advisement. Temporary new hours have been added on a trial basis for two months.

The library was closed for four days in October in order to facilitate the work regarding the extra weight strain on the floor timbers. This work involved removal of old wooden bookcases upstairs, teleposts were installed in the basement and replacement and centering of metal bookshelves in the main library. The librarians were most helpful in supervising replacement of the books and straightening out the library after this task was completed.

We now meet twice a month on the first and third

Mondays. Mrs. Harvey's report will give statistics on library use.

This year, as in the past, our lovely Christmas tree was the work of Explorer Post 531 under the direction of Mr. Norman DaFonte.

REPORT OF THE LIBRARIAN

To the Board of Trustees
Burlington Public Library

I herewith submit my report for the year ending December 31, 1965. During the year 1965 the circulation increased by more than 19,000. The total circulation for 1965 was 63,384 as compared to 1964 which was 44,195. There were 2,585 new volumes added during the year with 55 volumes added to our reference collection which now numbers approximately 670 volumes. A recount of volumes in the library shows a total of approximately 15,985 volumes. There were 1,500 new borrowers registered in 1965, bringing the total of active borrowers to 6,000.

Our grateful acknowledgement goes to the officers of the Middlesex County National Bank for the \$50.00 gift ribbon presented to the library for the purchase of books April 30, 1965, at the opening of the new bank in Burlington.

Respectfully submitted,

REPORT OF THE SCHOOL COMMITTEE

Citizens of Burlington:

Nineteen hundred and sixty-six finds us more than ever tax-conscious. Our school budget, though it may seem astronomical, is pared to the lowest figure if we are to say, "The quality of education is not strained," and to stay in a competitive field of progression with latter day trends. The year 1965 has been a fruitful one in relation to the development and progress of your schools.

The continuing student population growth necessitated that emergency action be taken in order to minimize double sessions. To assist in solving the problem, portable buildings were authorized. They were occupied in February 1965 by children of the Pine Glen district who had been placed on double sessions. This temporarily solved the problem, but in September of 1965, grades 6, 7, and 8 shared the high school building together with grades 9, 10, 11, and 12. It is anticipated that with the opening of the new Junior High School and the elementary school, all children will be attending a full day. The School Committee recognizes the need for a large senior high school in the immediate future, with the present high school scheduled to serve as a second junior high school.

Recognizing that the problems of continuous growth had to be solved, the School Committee co-operated with the Future School Building Needs and Sites Committee by authorizing school funds to be used in a study of the anticipated student population growth and housing problem. The State School Building Assistance Commission had requested such a study to be made and participated by partially offsetting the total cost of

the survey. Copies of the study were widely distributed in the community. Copies were also placed in the Public Library as future reference for interested citizens.

Accompanying increased enrollments is the need to study the administrative organizational pattern of the school system. Boston College had been retained for the study. Several meetings were held with the survey team and their report was received during the summer months. The report calls for additional administrative personnel. The School Committee has reviewed the organizational pattern that has been proposed but has not officially adopted the program as presented. As the school population continues to increase, positions will be phased into the administrative pattern after thorough study has been made of the duties, qualifications, and various work loads. After careful thought, an Assistant Superintendent was authorized and has been employed.

The central administrative offices have been moved to a more efficient and desirable location. The planning and construction of the new quarters was accomplished by our own personnel. In these new offices at the Center School, we have ample space for School Committee meetings and joint meetings with other town boards, including the Burlington Teachers' Association.

October 13, 1965 marked a red-letter day in Burlington's annals — the ground breaking for our first Junior High School.

November 27, 1965 saw the contract signed and the ground-breaking ceremony for our new elementary school.

The need for continued upkeep and safeguard of our capital outlay for buildings is recognized. This year, in addition to the routine upkeep, major projects were undertaken. Painting of the exterior of Union School; tuck-pointing, waterproofing of brick, and replacement of deteriorated stone windowsills at Center School; ex-

panding the leaching field of Pine Glen School; and the upkeep of school lawns.

Federal funds have been used to reduce the budget and the Assistant Superintendent has been assigned the responsibility of following Federally-subsidized programs to reassure the Committee that our district is participating fully in all programs for which we may be eligible.

On November 3, 1965, the Committee adopted the following "Leaves of Absence" policy.

"Leaves of absence are recognized as in the best interests to the school system, contributing to the development of a higher standard in academic preparation for staff members and recognizing superior services rendered to the children of the community.

All leaves shall be administered according to clearly defined rules designed to provide equitable treatment for all contractual employees."

For those of you who have not received "The Burlington Banner," I know of no better media to enlighten you as to how your tax dollar is expended. The following is a percentage breakdown of the estimated school budget:

Salaries, All Personnel	80.9%
Instruction	5.9%
Services, I.B.M., Community Service	5.7%
Maintenance, Operation of Plant, and New High School Field	5.2%
Capital Outlay	.6%
Athletics	.6%
Vocational	.4%
Cafeteria	.3%

Adult Education	.3%
School Committee	.1%
	<hr/>
	100.0%

May I extend my personal appreciation, as well as the appreciation of the School Committee, for the fine cooperation of the total staff and the public in contributing their support and confidence in the School Committee.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

Shortage of classroom space for children in the 6th through the 12th grades has proven itself to be an undesirable situation in many instances. Absence has increased and is a cause of concern. Class periods have been curtailed, and teachers are experiencing difficulty in providing the depth of knowledge that can only be gained by additional time with the students. Also of great concern has been that of children being transported home on busses in the dark. Discipline has been difficult to maintain on the late afternoon school busses, and the lurking danger of walking along narrow streets in the dark is always present. Fortunately, we have had no serious accidents or incidents this year. On the positive side, many children are working, and this should provide a financial resource for their future education.

Happily, there are now two buildings under construction (Junior High and Elementary), which are scheduled for completion in January, 1967. Though this is the scheduled completion date of both buildings, experience dictates not to become too optimistic on projected completion dates of large building projects. Therefore, plans are being formulated with many alternatives, so that full advantage might be gained in the utilization of this much-needed space. These plans will become public knowledge well in advance of the opening of the buildings.

Our attractiveness to well-qualified teachers has been encouraging, and we have been able to attract highly competent and capable teachers. As a new competitive salary schedule becomes effective in September, a concerted effort will be made to bring to Burlington a

larger percentage of experienced teachers, as well as additional men teachers at the elementary and junior high level. This should bring a desirable balance to our staff. It is extremely encouraging to learn that experienced teachers are being urged to apply for teaching positions in Burlington by members of our faculty. This is truly significant and reflects the spirit and enthusiasm of the staff in the stimulating work that is challenging the faculty.

The cost of operation of the schools will continue to rise. This past year the Legislature has been debating additional state taxes, with the anticipation that some funds would be diverted to reducing the real estate tax burden. Under some of the proposed plans that have been rejected, the Town of Burlington would have received approximately \$500,000. This sum would be significant and effective in providing some relief to local property tax. Additional teachers, opening and operating needed school buildings, increased number of busses for transportation, and increased salaries all reflect in continuing the increase of operating costs.

The administration is aware of the Federal Government's impact on education, especially as it is reflected in financial assistance to certain programs. One staff member has been assigned the responsibility of keeping abreast on Federal grants and Burlington's eligibility for financial aid. The Assistant Superintendent attends meetings held by the State Department of Education and Federal officials to learn first-hand all information pertinent to the various programs. We are taking advantage of all sources of income. Currently, the emphasis of the Government is on poverty areas, and fortunately Burlington does not qualify for any substantial amount of funds. However, in other areas of Federal assistance we are taking advantage of the aid programs.

As the various reports are reviewed, the citizens

can be proud of the continued progress and dynamic development of the program. Parents continue to praise our Summer School enrichment offerings; the fine foundation their children receive in the elementary school; compliment teachers for exhibiting concern over each child's progress and problems; show amazement at the depth of program in each subject at the secondary level. Parents recognize that an outstanding academic program is available — a program that will allow any student who is capable and highly-motivated to compete most successfully for entrance to any college. Burlington has the program, as well as extremely-capable and highly-skilled teachers. These people are dedicated to serving not only during school hours, but they schedule at least one day per week for special help after school. Also, for those who plan to take college board examinations, special tutoring is held after school on a regularly-scheduled basis. Students should take advantage of this special help, for which there is no cost to the student.

Our curriculum is under constant evaluation, and research is carried on to investigate, confirm or refute suppositions. Our staff is continually alerted for necessary changes. With this type of constant investigation and with a dynamic teaching staff, our community can look with pride to its educational accomplishments.

Recommendations:

1. Encourage site procurement by the Needs and Sites Committee for future high school.
2. Encourage procurement of additional land at Center School for future expansion.
3. Encourage securing an additional site for an elementary school that will be held for future need. Large tracts of land are being dissipated by homes and industrial development. To pur-

chase vacant land now will be more economical than future acquisition.

4. Redistrict boundaries of elementary schools.
5. Program magnetic tapes at the elementary school in phonics, spelling, literature and music: at the secondary level in music, literature and social studies.
6. Develop a five-year plan of enrollment projections, building and staff needs, and curriculum development.
7. Provide assistance to secure part-time jobs for at least those students in the business education department.
8. Affiliate with a child guidance clinic to provide this needed service.
9. Implement phases of the Boston College Administrative Organizational Report on a scheduled basis.
10. Continue developing the area behind the high school to provide sorely-needed additional physical education and athletic space.
11. Study current record-keeping procedures for possible transition to data processing.
12. Develop system for apprehension of vandals.
13. Continue to rewrite policies of School Committee.
14. Reinitiate the utilization of highly-skilled citizens in bringing to students their wealth of practical experience and training.
15. Increase public awareness of current programs and academic progress of the school system.

My sincere appreciation is extended to the teaching staff, administrators, Custodial Association and Teachers Association for their cooperation and support in our numerous programs, the medical staff, the cafeteria personnel, the office staff, and to the School Committee for their sincere and dedicated efforts in providing leadership to the total educational complex.

Mrs. Mary Gagan has retired as principal of the Memorial School, and the staff and I wish her every happiness and good health.

Respectfully submitted,

HERMAN J. DUNSEITH,

Superintendent of Schools

SENIOR HIGH SCHOOL ANNUAL REPORT

The early months of 1965 were spent in planning for the double sessions at the High School occasioned by the increased enrollments. The plan was put into effect in September with grades 9-12 comprising the Senior High and grades 6-8 making up the Junior High School. Staff needs were determined, schedules prepared, and reassignments of teachers involved a great deal of time. New teachers were interviewed and candidates were recommended to the School Committee.

During the Spring months interviews were conducted to fill the position of Science Department Head. This vacancy existed because of the resignation of Mrs. Priscilla Granfield. Mr. Rodney Mansfield, formerly at Wheelock College was chosen for this position. Later, we were faced with replacing the heads of two other departments. Mrs. Marion Wadsworth of the Foreign Language Department and Mr. Charles Nugent of the Mathematics Department both resigned to accept positions in other communities. Mrs. Ann Jellison, a long-time Burlington teacher was selected to replace Mrs. Wadsworth and Mr. Alfred Perry, in his fifth year at Burlington, replaced Mr. Nugent. Other new personnel to be employed at the High School are Mrs. Loretta Henry, Miss Alice Aghababian, and Mr. Carl Stasio in the Social Studies Department; Mr. Frank Furey and Mrs. Ann DerMaderosian in the Guidance Department; Miss Maureen Aherne in Foreign Languages; and Mr. Thomas Vento in Music. Mr. Samuel Gualtieri had joined the Mathematics staff earlier in January, 1965.

Many meetings were held within each Department and several were held with the Heads of Departments. Some of the items covered in these meetings involved continuing curriculum development, a report to the New England Association of Colleges and Secondary Schools

concerning the two-year follow-up of the evaluation conducted in 1963, proposals for a five year projected study, reports of accomplishments within the past three years, and preliminary work toward organizing specifications for a proposed new high school building to be erected within the next five or seven years.

Specific items of interest include the Science Fair which was held in March. Included in this exhibit were approximately 200 projects many of which were truly outstanding. Teachers of the Science Department each visited a specific school in order to compare Burlington's program with other systems and also to investigate any new approaches which might justify further study. The Science Department also prepared a project under the National Defense Education Act which was approved in full by the State Department of Education.

The Business Department continued its work with the Skill Building Center which was added in 1964. A survey conducted by the Department indicated that students who used those listening stations were able to increase their efficiency by ten words per minute. Equipment added to this Department included ten manual typewriters, a demonstration stand, an overhead projector, and a set of bookkeeping transparencies.

Within the Home Economics Department the program was strengthened considerably by the opening of electives to more girls who were not primarily enrolled in the Practical Arts Course. Topics included in this expanded offering were the study of foods and nutritions, meal planning and preparation, child care, health and personal appearance, marriage and personal relationships, constructions of garments for family and self, and wise use of leisure time.

As in all areas, the Music Department has been hampered by the tight schedule caused by the double sessions. However, they aided in the production of the

Senior play, at Graduation, and in the production sponsored by the Burlington Teachers Association.

The Industrial Arts program has shown continued growth and the effects of the Technical Course Adopted 4 years ago are beginning to become really apparent with several of the students enrolled here already accepted at Technical Schools for next year. Here again, the dire effects of double session are a detriment to the planning within the Department.

Members of the Foreign Language Department also spent a visiting day similar to the one mentioned above in the Science Department. Although no new courses or equipment have been added, the Department has progressed with the adoption of the use of more audio-visual materials and the scheduling of more classes for the language clubs had the opportunity to attend various plays and operas as well as dine in restaurants specializing in Foreign types of foods.

The Mathematics Department introduced a new text for the use of the students who take Business mathematics and a new approach to mathematical Analysis for College bound seniors. As in the past years, Burlington participated in the Mathematics League and made a creditable showing by finishing in the top ten of a thirty school league. In addition, because of the showing of several students, Burlington was presented a Certificate of Merit by the Mathematics Association of America and the Society of Actuaries.

A new text was also adopted within the Social Studies Department for the use in the Honors section of the Problems of Democracy classes. In addition much supplementary materials were added for use in United States History, World History and Problems of Democracy. Social Studies teachers conducted several field trips with their Students and had outside guest speakers in their classes. In addition they attended several con-

ferences, both with students and with other adult leaders.

The major change in the English Department which was effected in 1965 was the installation of the Reading program. This is developmental in nature and is offered to seniors and juniors to assist them in preparing for their College Board examinations. It is also offered to students in grades nine and ten to assist these students to improve their speed and comprehension and to help them in vocabulary building. The publication of the Arrowhead, the senior class annual, is a major function of the English Department. We have been informed by the company that publishes the material for us that the 1965 edition is being used by them as an example of an outstanding yearbook. With the cooperation of other Departments, i.e. Music, and Art, the English Department under the direction of Mr. Fogelberg produced the 10th Annual Senior Class Play, "Lil Abner" was the vehicle chosen and its performance caused many accolades to be showered upon the students and faculty who produced it. Since the Annual Convention of the National Council of Teachers of English was held in Boston this year, many of the teachers were able to participate in several of the sectional meetings. The study of the linguistic approach is continuing. Reports of this program are still controversial and the evaluations of the total program is spotty and inconclusive for various reasons. The literature on the subject is still sparse.

The Art Department continued to contribute much to the life of the school. They assisted in the Senior Class production of "Lil Abner" and the Teachers Association's "South Pacific". They also aided in preparations for the Proms and the publication of the Arrowhead. Again, the students in the Art program exhibited entries in the National Scholastic Art Awards with three gold keys won and one exhibit being selected for National competition.

Although the library remains open for the High School students in the afternoon, the double sessions have had a detrimental effect as shown by the attendance averages. From January to June we averaged 737 students per week in the library. From September through December, the average dropped to approximately 200 students per week. Out total circulation for the year amounted to 4,660 volumes used. This figure does not include reference works which are on the reserve list nor does it reflect the many magazines which may be taken out overnight. This total reflects an average of more than four books per student per year.

The Physical Education program continued to emphasize the individual tests promoted by the President's Council in Physical Fitness. Score for both boys and girls based on the AHPER norms were considerably higher than in previous years.

The Audio-Visual Department, in its third year, continued to grow. Invaluable assistance was given to all other Departments in the use of films, film-strips, overhead projections, transparencies, and tapes. Mr. DeMartinis also organized and conducted an in-service program open to all faculty members many of whom availed themselves of this opportunity.

The Guidance Department was busy with counseling services, group dynamics, and in assisting students to enroll and register at schools of higher education. Testings were conducted at various levels in many areas. Conferences were planned and carried out with leaders in industry and colleges speaking to groups. The Guidance Department also cooperated with the Division of Employment Security in planning students in employment as well as dealing directly with many of the firms who employ our students upon completion of school.

Athletics continued to be a major part of the functioning of the school. We played Football, Basketball

and Baseball in the Merrimack Valley League and introduced both Hockey and Cross-Country schedules. Work has progressed in the development of the Athletic Field.

All Academic Departments had practice teachers during the year. Altogether these totaled 20 individuals from seven different colleges. Most of these students spend five days per week for about eight to ten weeks with us.

Mr. Mohan, Mrs. Jellison, and Mr. Horton served as team members in assisting the New England Association of Colleges and Secretary Schools in its evaluations of member schools. Many conferences were attended by all members of the staff.

Our major concerns for the coming year are to finalize plans for the new high school and to utilize data-processing in scheduling classes.

Respectfully submitted,

JAMES M. HORTON

ANNUAL REPORT OF THE JUNIOR HIGH SCHOOL PRINCIPAL

December 31, 1965

Submitted to the Superintendent of Schools
Burlington, Mass.

Since Burlington's first junior high school officially opened on September 8, 1965, this report necessarily deals with a brief period of time.

Organizational procedures prior to opening day included an introductory letter to each pupil, preparation of a student handbook, and assembly of the new faculty for direction and acquaintance with the policies and procedures for the new school.

The program of studies and classroom schedules, prepared by the high school administrators, have functioned smoothly with some minor adjustments.

Space was found for such necessary programs as extra class help, remedial groups, library services, and instrumental music classes.

A system of supplementary warning notices was established to provide parent and student with advance notice of unsatisfactory academic progress and some possible remedies. A grading system and report card had to be designed.

Within the limited scope of time and space available in an afternoon session, the students and faculty have engaged in activities which have enriched the program and developed the unity of the school.

Many boys and girls have participated in intramural sports during the morning hours, supervised by our physical education department. A performing choral

group practiced Saturday mornings and sang at our Christmas assemblies. Members of the school band meet two mornings a week. Competitive entries in an art contest produced a design for a junior high school emblem, which was approved by the school committee.

Our junior high school teachers have evidenced keen interest in overall improvement of the school. Many of their contributions have resulted in smoother operations and improved programs. Faculty committees are currently working on curriculum development in each subject area.

In December a social studies workshop was conducted by a committee of teachers. The inter-relationship of social studies with all subject areas was the central theme. Dr. Edna McGlynn, from Salem State College, was our guest speaker.

We have had one student teacher training in the junior high school English classes.

Two faculty changes have occurred during our brief existence. Mr. Joseph Golec, physical education teacher, resigned and was replaced by Mr. Roger Maloney. In the science area Miss Joan Schor filled the position vacated by Miss Roberta DiSalvo.

A "Parents Information Night" presented the school organization and program to the public. Presentations included line teaching demonstrations and a review of the scope and purpose of a junior high school.

Guidance services are available to the pupils. Since we have no sixth grade counselor, problems from this level are handled on a referral basis by the seventh or eighth grade guidance person or by the principal or assistant principal.

An experimental approach is underway in eighth grade science classes. Class assignments are rotated

each term. Each science teacher is assigned that portion of the curriculum for which he or she is best prepared academically. All eighth grade students thus receive more intensive, better qualified instruction than could normally be provided by a single teacher covering the entire field.

Several other projects have been initiated for completion during this school year. A faculty committee is preparing plans for a student association. Liaison with the local public library has been established. We are organizing a book distribution system which will enable our students to make greater use of the public library facilities. At present, the afternoon session creates a time problem for pupils who wish to use the library resources. People from various local and Boston business and educational organizations have been scheduled to present material in our classrooms. In the immediate future a student and faculty group will begin the organization of a school publication.

We look forward to the completion of a successful and fruitful first year of operation.

Respectfully submitted,

GORDON J. McRAE,

Principal

ANNUAL REPORT OF THE DIRECTOR OF GUIDANCE FOR THE YEAR 1965

Submitted to the Superintendent of Schools,
Dr. Herman J. Dunseith:

General Description of Guidance and Counseling Services

The purpose of the total guidance program is to assist each pupil in understanding himself so that he may become a better individual and a happy, successful member of society. Professional counseling helps him to learn to utilize his strengths to the utmost and to understand his weaknesses, which he must try to improve, wherever possible.

Each counselor is assigned a group of counselees and these students are encouraged to visit their counselors voluntarily to discuss their educational and vocational plans and also any personal problems which they may wish to talk over.

Parents are also encouraged to visit the counselor to discuss any problem pertaining to their child's welfare. Faculty members are likewise urged to be part of the "Guidance Team." It is only by such coordinated efforts that the counselors can be successful in the Guidance program. Guidance is not an isolated service, but an intrinsic part of the total educational process.

Standardized Testing Services

In February time was set aside to administer the annual group testing program to students in grades 8 through 11 in the high school. Results of these tests were interpreted to pupils so that they could have a better understanding of their interests, aptitudes, intelligence potential and how such ability correlated with

their achievement in both verbal and quantitative subjects.

During the year we have also participated in such national testing programs as: National Merit Scholarship Program, Preliminary Scholastic Aptitude Test, Betty Crocker Knowledge and Attitude Test for Scholarships, National Guidance Program, Selective Candidate Tests for Service Academies, College Entrance Examination Board Series. In addition the office of Employment Security in Woburn aided the Guidance Department in administering test batteries to seniors who will seek jobs upon graduation.

All college bound students have been advised for correct procedures in making out applications for the different series of College Entrance Examinations. Results of these examinations were interpreted to each student and any necessary counseling for admission to the particular college chosen was given as needed.

The standardized testing program in the grades was under the direction of the Coordinator of Elementary Education and the Guidance Director acted in an advisory capacity. Intelligence tests were administered in alternate grades and achievement tests were given in every grade.

At all levels individual psychological tests were administered when case studies were required in problem cases or when there was a question of the validity of results of tests previously given.

Information Services

A library of up-to-date information is always maintained in the Guidance office. This includes catalogues, brochures, leaflets, and tapes with information on the following:

Universities, colleges, technical schools, and all types of institutions of higher learning.

Scholarship and financial aid programs.

Material about all branches of the armed services.

Occupational information file.

Directories for vocational and professional training.

Information on proper study habits.

Peace Corps and job corps information.

Pupils make very good use of all these various sources of information and with the aid of their counselors they have the opportunity to be well informed about opportunities that are available to them.

To add to the above information sources, a program of vocational and career conferences has been conducted with the cooperation of Northeastern University Occupational and Informational Service Center. Representatives from industry, the professions, the armed services and colleges have willingly given of their time to speak to groups of interested students from time to time. Some of these programs were augmented with films.

Job Placement

Seniors who wished to be employed immediately upon graduation were given assistance in job placement by the Guidance Department. The Office of the Division of Employment Security in Woburn was a valuable source in helping us. We are also grateful for the splendid cooperation given by the Commercial Department under the supervision of Miss Mary Cronin.

Use of Referral Agencies

Severe problem cases were referred to special clinics for further evaluation. The insufficient number of such

agencies and the long waiting lists are constant sources of frustration in referrals. However, we have utilized the services of Lowell Mental Health Clinic, Cardinal Cushing Hall, Adolescent Units at both Children's Medical Center and Massachusetts General Hospital, Walter Fernald State School, Home for Little Wanderers, and Metropolitan State Hospital. At present, there is a great need for more such agencies since the existing ones have such long waiting lists.

Group Meetings

The following group meetings were held during the year:

Orientation meetings of students in grades 6, 7, and 8 with the cooperation of the Junior High School Principal, the Guidance Director, and the Counselors from the Junior High — Mr. Jay and Mrs. Johansen.

Assembly programs for grades 11 and 12 to introduce the vocational and career information program — Director.

Two orientation meetings grade 11 — Mr. Furey.

Two orientation meetings grade 10 — Mr. Mullaney.

One orientation meeting grade 9 — Mrs. Der Merdrosian.

One meeting on the importance of being realistic in choice of goal — Mr. Furey.

Two assemblies for grades 10 and 12 — panel discussion type — questions answered and suggestions made — panel composed of 2 present college juniors, 1 secretary, 1 post graduate student, and 1 college freshman enrolled in a collegiate nursing program — Director and Mr. Mullaney.

Smaller structured group sessions were held in

classrooms to discuss such subjects as study habits, job interviews, information on testing programs, interpretation of test results, explanation of choice of programs, tape recordings on careers, over all College Board information, college applications, training, and apprenticeship programs.

Professional Conferences and Meetings Attended

Annual convention of American Personnel and Guidance Association in Minneapolis.

4 meetings of the Greater Boston Personnel and Guidance Association.

Annual meeting of the Massachusetts Women Deans and Counselors in Boston.

2 meetings of the Merrimack Valley Guidance Association.

Dinner meetings and Open Houses at Northeastern University, Merrimack College, Wentworth Institute, University of Massachusetts, State Teachers' College at

Salem, Suffolk University, Wheelock College, Bentley College of Accounting and Finance, Babson Institute, Bryant and Stratton, and Salem Hospital School of Nurses' Training.

Meeting at Walter Fernald State School to discuss the 750 law for the emotionally disturbed.

Meeting at Wellesley High School on additional funds made available by federal legislation.

Meeting at Burlington High School with leaders of industry in the community to interchange suggestions for improvement in the employment of our graduates.

In addition, I served as a panelist at a guidance conference in Woburn High School during National Education week. In April I represented Burlington at a Regional College Night in Wakefield High School.

Recommendations

1. Some consideration be given to additional counselors, particularly at the elementary level. Mere numbers alone are indicative of this need at this level and also at the junior high level.

2. A direct telephone line be installed to the Guidance Office with an extension at each counselor's desk or at least within each area where counselors are working. At present outside of my own office, one telephone is available for the secretary and all counselors. This service operates from the main office switchboard with four incoming lines also used by and for the entire senior and junior high schools. This recommendation was made by the evaluative committee of the N.E. Association of Colleges and Secondary Schools three years ago, but to date no action has been taken.

3. Counseling cubicle space at present is inadequate as was noted by the same evaluation committee.

4. There is a definite need for some serious consideration to be given to the youngster who has reached

the saturation point in academic learning as the curriculum is at present set up. Retaining such pupils year after year or "advancing" them is definitely not the answer. Such students will be either potential drop-outs or school "hangers-on" not able to achieve, yet not being in the category of school leavers either. If these young people are to remain in a school situation, an on-the-job program or an opportunity ungraded class might be considered in future planning. Special Educable retarded classes, as they are presently set up, are certainly not the answer for this particular group of pupils.

5. With the cooperation of the Chairman of the Board of Health, the facilities of Mental Health Clinics should be studied more in detail to see if better facilities can be procured in the case of school referral cases of disturbed problem youngsters. In my opinion the addition of school or clinical psychologists can only help the situation, if cases can be followed up by consulting well qualified psychiatrists who can attain some type of worthwhile end result for follow-up treatment. This would involve, I'm sure an exorbitant addition to the budget. Mental Health Clinics have long waiting lists and apparently are understaffed. However, this seems to be our only answer at present for referral unless the family can afford the services of a private psychiatrist.

I should like to express my deep appreciation to the members of the School Committee, the Administration, Principals, Teachers, and Parents for the splendid cooperation that has been given to the Guidance Department. I have certainly been grateful for the rapport and understanding which has been so necessary for the smooth operation of our guidance program.

REPORT OF THE SCHOOL PHYSICIAN

January 28, 1966

Burlington School Committee
Burlington, Massachusetts

Honorable Members of the School Committee:

It gives me great pleasure to inform you, that, in all my years as school physician I have never seen the prospective candidates for football in such excellent physical condition.

This was not accomplished by mere wishful thinking. It was accomplished by hard, determined, supervised efforts on the part of Mr. James Long, the football coach and members of his staff. The results were self evident — a team with fighting spirit and a season free of serious injuries. Continuing this program of physical fitness will eventually lead to a winning team in one to two years.

Physical examinations, chest x-rays, and Wassermanns have been completed on all cafeteria personnel. Physicals have been completed on the Varsity and Junior varsity football players, the freshman football players, the cross country track team, the girls field hockey team, both basketball teams, the hockey teams, and the elementary grade students.

Since the middle of December 1965, I have been handicapped by a back injury which caused me to become totally disabled for the month of January. This coupled with the split session, at the high school, was the reason for the Junior High physical examinations not being completed, as yet. I hope to complete these physicals as soon as I return to practice.

In conclusion, I recommend that a sum of \$500. be set aside yearly, in the medical budget, for the purchase of new equipment. Of immediate need is a small whirlpool bath tank for use in the treatment of sprained wrists and arms, elbows, ankles, etc. and an infra red lamp.

At this time, I would like to thank the Superintendent of Schools, the teachers, coaches and the fine nurses for their cooperation during the school year.

Sincerely yours,

ANTHONY C. GIANGRECO, M.D.,

School Physician

REPORT OF THE SCHOOL PODIATRIST

To the Superintendent and the School Committee:

I hereby submit my report as School Podiatrist for the year 1965.

The foot examinations have been completed in the Senior High School, Center School, and the Union School. The students absent at the time of examination in the Junior High have not been completed. The Pine Glen and Meadowbrook Schools' exams are ninety per cent completed. The Wildwood and Memorial have not been started. All schools will be completed by the end of March.

The number of fungus conditions in Grades 7 through 12 decreased. This is due to the vigilance of the physical education department in keeping those infected out of the showers, and the care the custodians give to shower and locker room floors.

Bunions (a deformity of the Great Toe) can be found among the girls in the elementary schools. There is no need of this. All children's shoes do not have pointed toes. This deformity is caused by pointed toe shoes.

Many injuries suffered by the football athletes to the foot and ankle will be prevented when the disgraceful condition of the athletic field is remedied. If it were not for the excellent conditioning given the athletes by the athletic staff, the injuries would be more serious, and their response to treatment would be slower.

While on the subject of football athletes, the athletes' footgear in many cases is passed on by the school from one athlete to another. This is like wearing another persons dentures or eyeglasses. It is against

all principles of good foot health. The shoe molds to the foot of the first person wearing it. The so-called reconditioning of the football shoes consists of cleaning and replacing the insole. This does not make the shoe fit for another person to wear.

I wish to thank the Superintendent, the School Physician, the School Nurses, Principal and the Teachers for their cooperation. Without this inspection it would nearly be impossible to keep up with growing school population.

Respectfully submitted,

JOHN L. CASEY, JR., D.S.D.,

School Podiatrist

REPORT OF ATTENDANCE OFFICER

To the Superintendent and School Committee:

I hereby submit my report as attendance officer for the year 1965. Daily contact was made with every school and the names of all pupils absent were noted. It is the responsibility of the parents of High School students to notify the principal's office by 8:30 a.m. each and every day of absence. Students not reported will be checked by phone in the evening or a home visit made when the situation warrants this.

If a student willfully absents himself or herself from school without knowledge of parents or school officials, this is considered truancy and disciplinary action will be taken. If this condition continues, suspension is in order. Three suspensions in one school year warrant the student's removal from the Burlington School System permanently. Every parent is made aware of a student's truancy.

Tardiness has become quite a problem throughout the school system. I feel it is a very important part of a student's training to be on time. Constant tardiness instills a sense of irresponsibility in the student. In the elementary grades, it is the parents' responsibility to see the student arrives at school on time. High School students are able to take this responsibility themselves.

An absence and tardy note is required of every student. If a student is out 10 days or more, a doctor's note is required by the State for readmittance to school. Illness and death in the immediate family are legitimate excuses for being absent from school. There are occasions when extenuating circumstances prevent school at-

tendance, with proper explanation they will be accepted. In most cases sickness was the reason for absence, with the exception of several truants.

REPORT OF THE SCHOOL NURSES

To the Superintendent of Schools, School Committee and the Citizens of Burlington:

We hereby submit our report as School Nurses of the Burlington Public School System for the year 1965. All statistical numbers quoted are based upon the 1964-1965 school year.

In accordance with the Department of Public Health acting under the authority of Section 57, Chapter 71 of the General Laws of the Commonwealth of Massachusetts; the students had physical examinations by the School Physician or Family Physician. Defects were recorded and referrals were made to parents.

Physical Examination:

	<i>School Physician</i>	<i>Family Physician</i>
Grade 1	26	645
Grade 4	44	322
Grade 7	59	297
Grade 8-12	374	108
	<hr/> 503	<hr/> 1,372

There were 3 referrals.

Vision and Hearing:

Vision and Hearing screening tests were conducted by the nurses and the audio and vision testers throughout the school system. Defects were reported to parents via mail and telephone conferences.

<i>Vision</i>		<i>Hearing</i>	
Tested	5,255	Tested	5,251
Failures	274	Failures	185
Eye Specialists	214	Ear Specialists	120
No Care	60	Family Physician	12
		No care	57

Height and Weight:

The height and weight of each student was taken and recorded. — Total 5255.

Podiatrist:

Dr. John Casey, School Podiatrist assisted Dr. Anthony Giangreco by examining the student's feet, grades one through twelve.

Total 5180

Referrals 57

Dentists:

Dr. Merton Brandes conducted the Dental Examination Clinic under the auspices of the Burlington Board of Health for grades one through five.

Programs:

1. *Dental Research Program*

The Nurses cooperated and worked with Dr. M. Michael Cohen, D.M.D. and his Dental Hygienist, Mrs. Adele Darrah, both of Tufts University who are conducting a research program for grades 3-4 and 5. This program was inaugurated February 1965 and will continue for two years.

2. *Tine Test*

The nurses assisted the Burlington Board of Health with the following profram during March 1965.

Grade 1	674	Faculty	76
Grade 7	348		
Grade 11	122	Total Referrals	13
Grade 12	72		
	<hr/>		
	1,216		

3. *Weight Reduction Program*

During the early part of 1965, the school nurse worked with the Physical Education Teacher of the grade 6 girls, to form a "Trim Club." A group of girls who appeared to be overweight were selected to come to the gymnasium once a week to be weighed. The girls were encouraged to cut down on their food intake and to take part in daily exercises. Some of the students lost weight during the three month period of the program and not one girl gained weight during this time.

4. *Future Nurses Club*

The Future Nurses Club completed its third year of activity by becoming chartered by the National League for Nursing. Club membership is available to all students grades 9-12, who are interested in any phase of Hospital Work or Medical Technology. Semi-monthly meetings and frequent field trips constitute the club's activities.

5. *In-Service Education*

The nurses attended the following conferences:

- a. The Wellbee Immunization clinic at North Andover.
- b. The North Reading Rehabilitation Seminar.
- c. The T.B. Seminar held at Middlesex Sanatorium, Waltham.
- d. Training program for audio and vision testers.

First Aid

First Aid was administered to students who became ill or were injured during school hours. Parents were notified when deemed necessary. Total number of students seen in Health Room was 11,550.

Home Visit

Home visits were made when students were receiving extended home study or when referrals were made by principals or teachers. Parents of handicapped children were also contacted via telephone or personal conference to evaluate students physical progress.

Visits made — 76.

Handicapped List

The annual list of handicapped children was prepared for the State Department

Total reported — 314 including 144 speech defects.

Recommendations

We recommend that an additional full time nurse be hired to provide adequate coverage upon the completion of the new Junior High and Elementary Schools.

Summary

We wish to thank the Superintendent of Schools, School Committee members, School Doctors, Guidance Department, Attendance Officer, Principals, Teachers, and other personnel that we have worked with during the past year. We would like to welcome Mrs. Grace Bushee to our nursing staff.

Respectfully submitted,

JUNE ANDRUSKE, R.N.

No School Signals

In case of inclement weather, necessitating the cancellation of school, parents and children will be notified in the following manner:

1. SOUNDING OF THE FIRE ALARM SYSTEM
CONSISTING OF TWO BLOWS — INTERVAL —
TWO BLOWS — INTERVAL — TWO BLOWS.
6:45 A.M. — NO SCHOOL FOR ALL SCHOOLS.
7:00 A.M. — NO SCHOOL FOR GRADES 1-5.
(one through five)
HIGH SCHOOL IN SESSION.
2. ANNOUNCEMENT WILL BE MADE ON RADIO
STATIONS WNAC, WBZ, WCOP, starting at ap-
proximately 6:45 A.M.
3. In the event of inclement weather deemed not suffi-

ciently bad to cancel school, it is the parents prerogative to decide whether or not the child should attend school.

Any and all school functions scheduled for the evening of a day that school is called off are automatically cancelled.

Employment Certificate

Employment certificates are issued during office hours at the Office of the Superintendent of Schools. Under rules and regulations of the Department of Labor and Industries, an employer should have on file a permit or certificate for any employee under eighteen years of age. In order to obtain a certificate, it is necessary, when applying to produce evidence certifying to date of birth.

Age of Admissions

Pupils entering the first grade in September, 1966 must be six years of age on or before January 1, 1967. In other words a child entering Grade One next September will have reached his sixth birthday on or before January 1, 1967.

Vaccination

The State Law requires all pupils attending public schools to be vaccinated. Exception will be made for a child presenting a certificate signed by a registered physician stating that he has personally examined and found his physical condition such that his health would be endangered by vaccination.

Attendance

Regular attendance is necessary to do satisfactory work. A written excuse from the parent or guardian is required for every tardiness or dismissal. No pupil is allowed to leave school during the session without permission from the Principal or Superintendent. Unless the pupil brings with him a written request for dismissal from his parents or guardian, he is permitted to leave only in case of emergency.

Teachers may require pupils to attend extra afternoon sessions if it is necessary for success in their work or for discipline reasons.

REPORT OF THE COORDINATOR OF ELEMENTARY EDUCATION

It is with pleasure that I submit my fourth Annual Report to the Superintendent of Schools, the School Committee and the Citizens of the Town of Burlington. This report is a joint effort of the elementary principals and the elementary coordinator.

Although it is a major function of the schools to develop the potential of each child, it is also true that all children must be provided with those academic skills and attitudes necessary for personal and social development. In order to promote these needs, the schools must command the best efforts of everyone concerned with education, teachers, administrators, researchers, boards of education, parents and taxpayers.

The instructional program of the Burlington Public Schools has encompassed within its scope, provision for meeting the individual needs of all children. Educating the 'whole' child becomes the main concern of all who share this responsibility.

In the elementary school the pupil secures the fundamental knowledges, skills, habits, attitudes and appreciations, the 'tools' that are considered necessary for successful living. A child's elementary school experience is usually his first prolonged experience outside his immediate family. It is here that the pupil receives his first systematic look into social studies, language arts, mathematics, science, literature, music and art.

The curriculum that the entering first grade child will be exposed to is of vital importance to him. The teacher, more than any other factor, will determine the quality of elementary education within the confines of the curriculum.

The instructional program of the Burlington elementary schools has undergone many changes and revisions during the past few years. Following are some of the areas that have been stressed this past year:

READING

A challenging developmental reading program must be built upon the premise that today's children are growing up in a world vastly different from the past; in a society which demands of its citizens the ability to read with greater understanding, insight, and critical analysis.

The administrative and teaching staff of the Burlington Public Schools are cognizant of the importance of reading instruction at all grade levels. Definite aims and objectives have been set forth in the reading curriculum.

The current reading program in grades 1-3, referred to as our primary unit in reading, is divided into 'levels' — each level including a single reading text, with a common vocabulary load, and the accompanying work book and basal tests. Children proceed from one reading level to the next when they have satisfactorily mastered the vocabulary and reading skills of the previous level as determined by standardized testing of material taught in the classroom. A cumulative progress folder is kept for each child.

This program is now in its second year in the elementary grades and has proven so successful that further implementation through greater individualized reading materials and proposed grouping practices has or will be instituted in the near future.

In grades 4 and 5, the basal reading approach continues in use as one of the requisites of the total program but other attempts are made at this level to

broaden each child's reading foundation through more individualized materials and instruction. Teachers in these grades utilize SRA labs, pilot libraries, McCall Crabbs reading lessons and other materials which further reinforce and enrich the needs of all children.

In grades 6-8, levels of reading are supplemented by a comprehensive developmental reading program for all children. This program was instituted this year following a lengthy study by a committee of English and Reading teachers at the junior high level.

During 1962-1963, a comprehensive survey of reading in the country's elementary schools was conducted by Harvard University under a grant from the Carnegie Corporation. The report, *The First R*, published by the Macmillan Company, presents an honest appraisal of the problems involved in teaching reading.

One of their recommendations concerns the establishment of reading centers. Their recommendation is as follows: ". . . Therefore, ideally, each school of over five hundred children should have a reading center located within its own building. Where this is not possible, however, it would be better to set up conveniently located reading centers where children can go for remedial help."

Beginning September, 1966, each elementary school will be staffed with a permanent reading or transitional teacher. Two additional remedial teachers have been requested for this purpose. The elementary schools also have the services of one counselor and two speech therapists who have scheduled visits to each school on a weekly basis. We will then have the essential personnel for initiating a reading center within each building. The principal function of this professional group will be to assist any child with overcoming problems in reading and related subjects. This team will complement the efforts of teachers and other staff members in assisting,

insofar as possible, each child to mature and learn at a rate commensurate with his ability.

The elementary libraries and librarians also play a major role in the total reading program. Individualized reading material form an integral part of any good reading program. Children must be exposed to varied reading material if they are expected to become good readers. Our librarians, in addition to conducting routine functions of a library, have the important role of augmenting the language arts program through literature enrichment. This program is designed to stimulate each child's imagination and develop their ability to communicate effectively.

Additional instructional aids and materials have supplemented the reading program in each building. The controlled reader, for instance, is a device that is used to, (1) train the child to read from left to right, (2) to prevent regression (commonly a fault when a child is reading), (3) to improve concentration on the materials being read, and (4) to increase speed of reading. This machine is either being utilized or being purchased for all elementary buildings. Another device being utilized is the Tachistoscope. This instrument is used to assist children in acquiring definite reading skills.

Programmed phonics tapes which were developed by the remedial reading staff last year are in constant use by primary grade teachers. They are used to reinforce and enrich material already taught by the classroom teacher.

MATHEMATICS

Burlington adopted a "New Mathematics" program in 1963. The series utilizes both the new and traditional mathematics. The New Math has been a very effective program through the fourth grade where every child is actively participating. The series will further be extended into the 5th grade in September, 1966. The adoption will be completed through grade 8 in another year.

Children not being taught the formal program at the present time are being exposed to the new mathematics through transitional material until the new series is introduced in that grade.

The "New Math" is further being augmented this year with manipulative devices which aid each child to attain closer individual understanding of concepts being taught. Children in the elementary grades can now manipulate and feel many materials which are vitally needed in making each concept more meaningful to them. The manipulative materials were purchased through NDEA funds.

SCIENCE AND SOCIAL STUDIES

Science and Social Studies will become an integral part of the Language Arts program in grades 1 and 2 beginning September, 1966. In the past, these two areas have been taught as separate subjects with some correlation with other areas and graded accordingly on the report card.

Children in grades 1 and 2 are generally in need of more varied experiences in the language arts areas. The integration of both science and social studies within the language arts structure will provide experiences which should be of great value to children.

The science curriculum has been further expanded with the addition of Science Kits in most grade 3 through grade 6 classrooms. These kits encompass all science materials and equipment necessary to perform any experiment listed in the childrens' science textbooks. A guidebook for teacher use listing approximately 700 experiments which can be performed in the classroom, has been provided the classroom teacher. A larger amount of time is now allotted the science period in each elementary classroom.

Those school experiences which aim to assist pupils to understand modern civilizations and their historical

development to the end that they may better adjust themselves to an ever-changing environment may fittingly be called Social Studies.

Social Studies, because it includes such a wide scope of knowledge, is best taught by the "unit" approach. This approach enlists for the child many varied experiences and resources which will broaden his experiences.

The emphasis in Social Studies will be on conceptual rather than extensive factual information for elementary children. If, throughout our work, the child becomes more socially co-operative, if he learns to plan, to create, to evaluate; and if he develops a growing sense of his own responsibility, the underlying philosophy which has guided our planning will have been fulfilled.

IN-SERVICE WORKSHOPS

In-Service Workshops continue to function as the primary method of presenting to all members of the teaching staff the very latest information on current thinking and issues in the field of education. Workshops for the staff are scheduled periodically during the school year on released school time.

Programs to date have been outstanding and have enrolled both teacher participation and outside sources. Some of the workshops presented include, (1) Social Studies and the integration with other subjects, (2) effective utilization of Guidance Services in the elementary grades, (3) explanation of junior high building plans by the Superintendent of Schools, (4) Art Workshop, (5) Music Workshop, (6) Workshop on Speech Therapy, (7) remedial reading, and others. Many excellent workshops are planned for the remainder of this school year and the following year.

The elementary instructional program has involved many other facets too numerous to elaborate upon in

this report. Mention will be made of some of the more important aspects of the program as follows: (1) an audio-visual aids course for the training of teachers in the use of these aids has been taught by Mr. Ernest DiMartinis, A-V Specialist for the system, (2) the increased number of specialists in art and music has almost doubled the amount of instruction pupils are receiving compared with last year, (3) the addition of an elementary counselor has provided the elementary grades with a very essential service, (4) the new Fox Hill school will enable us to adapt a very flexible type program for the children of that school, (5) the recent Five Year study of the instructional program needs for the next five years has enabled teachers and administrators to look well into the future relative to programming the system's needs in curriculum, equipment and personnel in each subject area, (6) many teachers have availed themselves of library books loaned through the division of Library Extension located in Boston, having traveled to that city to acquire the books themselves, (7) initiation of a two week summer orientation program for entering first grade children and possible extension of the period from two to possibly six weeks in the near future, (8) participation in a research project on dictionary skills sponsored by Boston University under a Federal Grant, and (9) free courses offered the teaching and administrative staff each semester by Northeastern University.

May I express my sincere thanks and appreciation to the School Committee, the Superintendent of Schools, the Assistant Superintendent, the Principals, members of the teaching staff, other school personnel and citizens, for their fine cooperation extended me in my work in Burlington this year.

Respectfully submitted,

FRANCIS GAUDET,

Coordinator of Elementary Education

REPORT OF THE STANDING SCHOOL BUILDING COMMITTEE

February 11, 1966

To the Citizens of Burlington:

The Standing School Building Committee is proud to report its progress since March 1965 when the town voted to appropriate the funds to build and equip Elementary School No. 5. After the town meeting the committee continued to work on the preliminary drawings with the architect, Edward Poskus, from the firm of J. William Beal Sons, Granger & Poskus. These drawings were approved by the School Building Assistance Commission in early June and at that time work on the final drawings immediately began.

Meanwhile the committee hired the firm of Emmons, Fleming & Bienvenu to do a site survey which was completed by the end of June. During the summer the committee and architect worked with the State Board of Health to determine the best location for the leaching field. Satisfactory percolation tests were completed in August and approval of the plans was then obtained from the State Board of Health.

Final drawings of the school were completed in late September and the contract was put out for bids. Opening of the general contract bids was held on October 19. M. Spinelli & Sons Inc. was the low bidder. This bid was higher than the funds already appropriated for the construction of the school. The committee was then faced with the most difficult decision in its short life: essentially whether to rebid the job after revising plans, hoping that the bid would come in under the appropriated amount; or to ask the town to approve the issuing of bonds for an additional \$200,000. The com-

mittee gave careful consideration to the alternatives. In particular, much thought and time were given to a proposal for rebidding presented by one of the members of the committee. In so doing eight of the members became firmly convinced that: 1. the bid was a fair one; 2. the cost of the school had been underestimated; 3. the educational specifications prepared by the school department and approved by the School Building Assistance commission could not be met using only the original appropriated amount. They were further convinced that revision of plans and rebidding would; 1. destroy the philosophy for which the school was planned; 2. cause the school to be less economical in the long run because of the use of inferior materials; 3. delay the opening of the school from 6-12 months. On this basis the committee voted 8-1 to ask the town for additional funds. At the October special town meeting the issuing of the necessary additional bonds was approved. On November 20 the committee voted to accept the bid of M. Spinelli & Sons, Co., Inc. and on November 27 the contract was signed. The budget for the school breaks down as follows:

General Construction	\$1,178,844.00
Architect	88,413.00
Clerk of Works	9,000.00
Equipment	56,397.00
Survey, Insurance, Advertising, etc.	9,000.00
Contingency	43,346.00
	<hr/>
	\$1,385,000.00

Construction on the school began immediately. Meanwhile the committee had received 18 applications for the job of clerk of works. The architect interviewed these men and recommended 4 to the committee as the best qualified. The committee interviewed these

4 men in mid December and voted to hire Mr. Nathan Bedrosian.

When the leaching field was laid out it was discovered that some of the percolation pits had been dug in the wrong place. Because of this mistake the job was shut down on January 22. Percolation pits were immediately dug in the proper area (as called for in the specifications), tests run, and the plans again approved by the State Board of Health. The job resumed on February 7. Except for this delay construction is proceeding smoothly. At the time this report was submitted the foundations were almost completed. The committee, the architect, and the contractor are confident that the school will be completed by the contract deadline, December 1, 1966.

At the special town meeting in October the town also voted to build a new high school and authorized the selectmen to apply for an interest free loan from the Federal government to cover the cost of the planning of this school. The committee looks forward to the project and expects to begin work on it as soon as the educational specifications have been completed by the school department.

In accordance with the by-laws of the committee, it reorganized in late November, 1965. It is presently organized as follows:

	Appointment expires
Jack Slowey, Chairman	November, 1966
Frank Hallberg, Vice-Chairman	November, 1967
Margaret Newell, Secretary	November, 1968
Vladimir Benishin	November, 1967
Fred L. Gunter	November, 1967
Francis Joyce	November, 1966
Arthur Mullaney	

Socrates Taseos

Herman J. Dunseith, ex-officio member

The committee meets regularly at 8:00 p.m. at the Center School on the 1st and 3rd Tuesdays of the month. The meetings are open to the public and any interested citizens are welcome to attend.

Respectfully submitted,

MARGARET W. NEWELL,

Secretary

REPORT OF THE TREASURER

I herewith submit my report as Treasurer of the Town of Burlington for the year ending December 31, 1965.

	<hr/>	\$9,008,089.08

In last year's report, I expounded on the principles of Temporary Borrowings and Investment Financing of Bond Issue Monies when and where possible.

The Town of Burlington has recently borrowed \$3,945,000.00 for Schools and a Library Construction Program. I wish it were possible to add to this year's receipts the monies I will have earned from the investing of \$3,156,000.00 of the aforementioned Bond Issue. As your Treasurer, I have invested these funds to earn interest for the Town at a rate of 4.95% which will return to the Town \$61,888.75 by June of 1966 with a very good chance of investing for a further return to the Town. This year through investments, premiums and dividends, the Town will realize \$9,728.68 in earnings.

The Town of Burlington, through a Brochure and Financial Statistics submitted to Moody's Investors, by your Treasurer, is now rated at a very strong single — including current Bond Issues with a very good chance of attaining a Double AA rating according to a recent meeting with officials from Moodys Investors Service Co.

Following is a comparative summary for the annual withholdings for the years of 1962, 1963, 1964 and 1965:

	1962	1963	1964	1965
Withholding Tax —

REPORT OF THE PLANNING BOARD

To the Citizens of Burlington:

Despite the heavy work load and the accomplishments of the Board during the year of 1963 and the increase occurring in 1964, the expected abatement in the schedule did not occur in 1965, but rather increased, with more business than usual. This necessitated lengthier business meetings to transact, discuss and resolve the subjects presented the Board.

Following is a breakdown of the business transacted in 1965:

Meetings held (including specials)	54
Public Hearings	15
Rezoning Petitions	9
Subdivision Petitions	6
Revisions and Additions of Current Developments	6
Persons appearing	227
Non-Approval Plans (for signatures)	54
Bonds Posted or Transferred	16
Bonds Released (subdivisions approved)	4
Drainage Complaints	12
Miscellaneous Complaints	6
Referred to Board of Health	6

It is with great satisfaction we report the Master Plan has now been submitted in its first stage by the Planning Firm of Atwood & Blackwell and has been distributed to all Town Officials and Committees, providing the recipients with a guide to the projected future

development of our Town, and concrete recommendations necessary to control this inevitable development that we must all realistically evaluate.

Summary copies of the major report are at the office of the Planning Board in preparation for distribution to the voters at our annual Town Meeting.

During this current year, our Agent, besides continued vigilant inspection and recommendations concerning the work in current and additional developments, has assisted in the compilation of material used in our Master Plan as well as assisting and advising in the 702 Drainage study report by the Whitman & Howard Engineering Firm.

A special joint meeting of the Board of Selectmen and the Planning Board was held to fill the vacancy created by the resignation of Lawrence O'Brien. Our very capable new member Alfred D. Laing was the unanimous appointee of the two Boards.

We are looking forward to an even busier 1966 as evidenced by our submitted articles in the warrant. And we feel our Inspector will be more valuable than ever in the ensuing inspections and fact finding requirements which continue to grow.

Several large residential subdivisions containing eighty plus units each are expected to get underway shortly along with Industrial developments which have been submitted and the expansion of the Northwest Industrial Park subdivision. There is the necessity for Garden Type Apartments which may also materialize.

There continues to be constant calls on our Agent for the solutions of numerous minor problems which are usually resolved on the spot if possible by our Inspector and a report made to the Board. Those problems beyond the scope of the Agent are investigated and reported to

and discussed with the Board who then decide the policy of solution.

The Board wishes to thank all the Town Agencies and every Civic minded Organization or Individual continuing to work for the accomplishment of a Better Burlington.

REPORT OF CIVIL DEFENSE DIRECTOR

To the Honorable Board of Selectmen :

I herewith submit my report as Civil Defense Director for the year ending December 31, 1965.

The year 1965 saw much progress for the Civil Defense. In January the new Auxiliary Fire Department lighting and rescue truck was delivered, being purchased under matching funds, the town's share was \$1,488.00. This vehicle operated by volunteers of the Auxiliary Fire Department was called upon by nearly every town department during the year. It responded to all night alarms of fire, waterbreaks, traffic situations and at other times when Auxiliary lighting facilities were needed, and at no cost to the town.

The Auxiliary Fire Department was also very active during the brush fire season assisting the regular Fire Department with the Civil Defense Fire truck. In all, over 2,500 man hours were donated by Civil Defense Fire Department personnel.

The Civil Defense communications group also performed many important tasks. Among these were the weekly communication nets at which time they positioned their radios in different locations within the town to verify local communications and equipment effectiveness. Monthly, they are required to verify communications with the Civil Defense Sector in Tewksbury.

During the Halloween weekend and the November blackout, the Civil Defense communications supplied the Police Department with 15 extra mobile units.

For the first time the Burlington Civil Defense also qualified for PL85-606. Under this law the town is

reimbursed 50% for the Director's salary and expenses (including phone and secretary).

In December of 1965 the 200 bed Emergency Hospital arrived and was stored in the Meadowbrook School. Presently I am negotiating an agreement with the Lawrence Memorial Hospital and the Winchester Hospital, whereby these Hospitals will, by contract, provide the necessary personnel to run the Hospital, if the need should arise.

The Civil Defense Department has had monthly appointments at the Taunton and other Surplus Property Depots resulting in the purchase of over \$15,000.00 worth of surplus property for less than 2c on the dollar.

In closing, may I take this opportunity to sincerely thank the members of Civil Defense, my Deputy Director Earl Fuller, the Police Chief Edward McCafferty, Fire Chief Herbert Crawford and other Department heads who so generously helped Civil Defense during the past year.

Respectfully submitted,

RICHARD B. BROWN,

Civil Defense Director

REPORT OF THE PERSONNEL BOARD

The Burlington Salary Administration and Classification Plan was adopted as of November 1965 as a result of the vote of the Special Town Meeting of November 9, 1965. This By-Law was accepted as a result of recommendations made by the Personnel Board which was established by vote of the Special Town Meeting, October 22, 1963, Article No. 24.

The Salary Administration Plan is administered by the Personnel Board of five members appointed by the Selectmen, Moderator, and Finance Committee. The Board's deliberations and decisions are based on techniques and methods currently used extensively in Industrial and Municipal practice. Its responsibility is two-fold . . . to represent both the employees of the Town and the Taxpayers, seeking an equitable balance of interests of both groups in wage and salary matters. Each individual employee in the Town has the right to appeal to the Personnel Board.

The Boards recommendations this year take into account the following factors: 1. The United States Department of Labor, Bureau of Labor Statistics Consumer price Index for Boston, Massachusetts increased 1.8% between October 1964 and October 1965. This factor is limited in the determination of salary adjustments. As a practical matter this figure could be considered as a base, a figure below which an employee would be losing ground to the increased costs of living and maintaining a family.

2. The United States Department of Labor, Bureau of Labor Statistics combined average of increases for clerical workers in manufacturing and production — workers in manufacturing in the Boston Area during

the year 1965 — indicate a 2.4% increase overall. These figures have a more important bearing on the salary change recommendations. 3. Studies conducted recently, comparing reasonably comparable neighboring Towns indicate that Burlington stands in a very favorable position in terms of the rates paid for like positions.

The Personnel Board hereby recommends that an increase of 2.5% be granted all Permanent Full-time Employees. In essence, this action will increase the minimums, intermediate steps and maximums for all salary ranges in the Salary Plan by 2.5%.

During the month of December 1965, the Personnel Board was asked by a committee of Fire Fighters to support their request for a change from a 56 hour week to a 42 hour week. The Board, after much consideration, feels it cannot lend its support to this request. The following consideration led to this decision:

1. The work week of a Fire Fighter cannot be considered "normal" and cannot be compared with the work week of other municipal employees on an hour for hour basis.

2. A survey of 20 comparable cities and towns shows that 60% are currently on a 56 hour week and 40% are now working a 48 hour week.

3. Minimum annual cost to implement a forty-two hour work week (average), assuming a seven man shift, would be approximately \$42,000.

4. Currently only four municipalities in the State of Massachusetts are working under the 42 hour plan.

The Personnel Board would be negligent in its duties if it did not recommend procedural and policy changes which, in the opinion of the Board, would render a service to the Town and its employees.

Currently, there are three positions in the Town service which are not filled by Permanent Incumbents. These positions are critical to the efficient operation of the Town services, Namely: Highway Superintendent, Town Engineer, and Assessor (full-time).

It is the opinion of the Personnel Board that these positions be filled in accordance with a specific "Job Specification", that the positions be advertised well in advance of appointment in the Boston Globe, Herald, or Traveler and local media; that the appointees be signed to a contract for a three year period (minimum).

It is the opinion of the Board that the lack of job security and the political implications inherent within the present system substantially reduce the possibility of securing qualified personnel and keeping them.

REPORT OF BOARD OF PUBLIC WELFARE

Chapter 118A Old Age Assistance

Medical Assistance for the Aged

Chapter 118 Aid to Families with Dependent Children

Chapter 118D Disability Assistance

Chapter 117 General Relief

These programs of public assistance help needy persons by providing financial help for food, clothing, shelter, medical care and social services to restore dependent persons to as much personal and economic independence as possible. The programs are all based on need as defined under the Stat's standards of assistance, and in each program, the individual's other income and resources are considered in making the decision on need.

During the past year, there were 75 new applications made and processed for the five programs of assistance, and there are at present 130 cases being aided.

The cost of medical care for the elderly will eventually decrease after the start of the Medicare program which goes into effect on July 1, 1966. The Amendments to the Social Security Act also require that special emphasis be placed on social services and referral to rehabilitative services for persons on public assistance programs, when necessary.

We would again like to take this opportunity to thank the other Town Departments, the Clergy, the Doctors and the residents of Burlington for their co-operation.
